COURSE KEYWORD SEARCH:
MATH LEADERS

- **Identify key look-fors** of high-quality mathematics instruction, including student engagement in problem solving, discourse, and real-world application.
- **Strengthen observation practices** through visible indicators of mathematical modeling, critical thinking, and student reasoning, grounded in evidence-based practices from the National Council of Teachers of Mathematics.
- **Develop strategies to support teachers** through targeted feedback that advances rigorous, standards-aligned instruction.
- **Enhance PLC facilitation** by using the GaDOE Instructional Learning Plans to guide collaborative conversations and analysis of teaching and learning.
