Varsity Athletics Letter and Pin Guidelines

These guidelines are intended to ensure consistency, professionalism, and effectiveness in recognizing our varsity student-athletes. All athletics staff, student athletes, and affiliated parties are expected to adhere to these guidelines.

1. After the completion of the student-athletes' first varsity season, where they meet the team requirements to be considered a varsity athlete, they are awarded the "M" Letter and a pin from that sport.
2. If the student athlete meets another varsity team's requirements that same year, they would be awarded a pin for that sport as well.
3. Each subsequent season that the student athlete meets the Varsity teams' requirements to be a varsity athlete, they receive another pin for that sport.
4. If the student-athlete is also a team captain, they will be awarded a "Captain" pin.
5. By the end of the student athlete's time at Marblehead High School, they could end up with four pins per sport, for a maximum of twelve, if they are a three-sport athlete playing on the varsity team all four years. They may also receive a "Captain" pin for being a captain of their respective teams.

As an Athletic Department, we hope that these guidelines will create a uniform process for our outstanding student athletes to be recognized by the school and in and around the community.

All letters and pins can be picked up at the athletic office and should be given out at the end-of-season banquets.

No other pins should be worn or displayed on the Marblehead varsity letter.
