This is a quotation on the goods named, subject to the conditions noted below: Prices are set by Cloudflare, as per a statewide aggregated bandwidth and domain agreement with the Central Susquehanna Intermediate Unit (CSIU). Pricing is currently extended to counties, municipalities and K12 throughout the Commonwealth. In order to participate, entities are required to order through the CSIU, who will place a bulk order for the state. The CSIU acts only as a pass-through procurement vehicle for these products/services and as such, express no warranty, claims, support, hosting, implementation or guarantees regarding the Cloudflare products. Agencies will be required to sign an agreement with Cloudflare. This will allow proper entitlements to be enabled, as well as grant access to their own personal Cloudflare portal.
