UPCOMING EVENTS

State Testing starts on Friday, May 1st. Being at school on time is essential in creating an optimal testing environment. Students test much better when they test with their classmates. Testing begins immediately after the tardy bell (7:10) and can last throughout the day. Please try to avoid scheduling appointments requiring your child to be late or check out early. Ensure your child has a good breakfast or arrives prior to the tardy bell so he or she can get breakfast in the cafeteria. Students also perform better when they are well rested.

IMPORTANT REMINDERS

May is filled with testing and events. Due to the schedule changes and different scheduled events, we will not be permitting guests during classroom lunch times. Thursday, April 30th will be the last day of the school year for parents to come eat lunch with their child.

If your child is throwing up or running a fever, he or she must stay home until he or she is symptom free for 24 hours. It is also a good time to wash backpacks, hoodies, and sweaters. Please ensure your child's name is written in his or her jacket/sweater so that we can return it if it is left somewhere on campus.

TESTING INCENTIVE

Students are working to earn tickets to the McArthur Carnival. Carnival games are earned through PBIS (positive behavior) and carnival treats are earned through testing efforts and progress. We look forward to celebrating success with all of our students.

WEEKLY RECAP

Fifth grade had a wonderful time at The University of Southern Mississippi Gulf Coast Marine Lab. They were able to participate with hands-on learning activities such as a shark dissection.

Congratulations to our Battle of the Books teams who participated this past Saturday. We are so proud of how well McArthur was represented. Fourth grade placed third in the competition!

KINDERGARTEN REGISTRATION

Kindergarten registration for the 26-27 school year is now open. Parents or guardians of students reaching the age of five years old by September 1, 2026 are eligible to register their students. Parents can register their student directly at the school after completing the Focus Registration application, located on the school district website.
