Cool Projects FOR Hot Days

Quick Tip:
If you're doing these indoors, lay down an old towel or a tray first. It makes clean up much easier!

Homemade "MOON SAND" BEACH

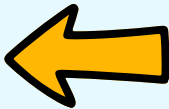

Since we can't always get to the coast, you can make your own moldable sand that feels like the seashore.

Items Needed:

- 2 cups of flour
- 1/4 cup of vegetable oil

WATCH HERE

Steps:

1. **Mix:** Put the flour into a large bin or bowl.
1. **Pour:** Add the oil into the center.
2. **Knead:** Use your hands to squish the oil and flour together until it feels like damp sand.
3. **Play:** Use shells or measuring cups to build "sandcastles" that won't crumble away!

Layers of the Deep OCEAN JAR

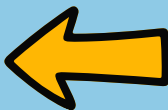

This activity shows how different parts of the ocean have different densities and light levels.

Items Needed:

- Clear Jar or Tall Glass
- Water
- Vegetable oil
- Blue food coloring

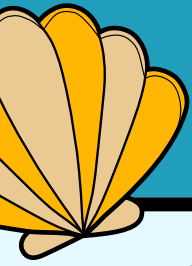

WATCH HERE

Steps:

1. **The Deep Zone:** Fill the bottom third of the jar with water. Add several drops of blue food coloring.
2. **The Sunlight Zone:** In a separate cup, mix a little water with just one tiny drop of blue food coloring. Gently pour this over the dark water.
3. **The Surface:** Slowly pour vegetable oil on top. Because oil is less dense than water, it will float, creating a shimmering "surface" layer.
4. **Observe:** Shake it gently to see waves form, then watch the layers separate back out!
