Board of Education Policy

Section: Administration
Title: Relations with other Educational Agencies
Policy #: 200-09
Date Approved: 07/18/12
Date Revised: 04/25/12

Purpose:

Because of the wide range of requests and offerings in cultural educational experiences, it is necessary for the Board of Education to set up rather definitive criteria regarding their selection for pupils' participation and viewing within the district.

LOCAL CULTURAL RELATIONS

It is the policy of the Capital School District to cooperate as far as possible with local cultural activities promoting potentially profitable educational experiences for all pupils within the Capital School District.

The cultural activity should be so designed that it would provide a valid and beneficial experience for all pupils it is presented to for the improvement of education within the Capital School District.

Descriptions of the activity, programs for the activity, and other materials for each activity to be presented, must be turned in to the administration of the facility where the activity is to be held prior to a commitment being made by the Capital School District that the performance or activity may be held.

In cases of student-planned, or initiated, cultural activities, prior written approval by the students' principal will be required. The principal shall have responsibility for the students' cultural project and all other cultural projects.

RELATIONS WITH PRIVATE SCHOOLS

The Board will cooperate with parochial and private schools in matters of mutual benefit where not expressly prohibited by law.

The Superintendent is encouraged to explore areas of mutual benefit with the administrative officers of such schools and to recommend desirable courses of action.

SHARED SERVICES WITH OTHER PUBLIC SCHOOLS

The Board of Education shall support educational programs in which services are mutually shared by the Capital School District and other local educational agencies. The administration of the Capital School District is charged with the responsibility of assuring that the most efficient and beneficial educational system is in operation in all such cases where services are being shared.

INTERDISTRICT RELATIONS

The Capital School District recognizes that it has certain obligations and responsibilities to all the school districts in the county. It will, to the best of its ability, provide leadership and guidance to achieve equal educational opportunities to all children. To achieve this it will enter into cooperative agreements, where not prohibited by law, to share services and facilities. It shall also enter into relationships with other schools to take the best advantage of federal funds wherever possible.

INTERSCHOLASTIC ACTIVITIES WITH OTHER DISTRICTS

The Board of Education encourages interscholastic activities, but insists they must:

In every interscholastic activity there shall be some Capital School District staff member who is directly responsible for the activity. The local school principal is ultimately responsible for all staff and students who plan and schedule and participate in any interscholastic activity.

1. Follow all conference, state, and national rules and regulations.
2. Is approved in advance by the Superintendent of Schools, and
