Instructional Technology Plan - 2026-2029 Instructional Technology PlanV. NYSED Initiatives Alignment

Page Last Modified: 01/20/2026

V. NYSED Initiatives Alignment

1. How will the district's use of instructional technology support a comprehensive and sustained effort to improve student performance and academic standards, while also addressing the need to provide equitable learning opportunities "everywhere, all the time" (National Technology Plan)?

The district's use of instructional technology supports a comprehensive and sustained improvement in student performance by ensuring that students and staff have reliable access to modern infrastructure, instructional devices, and data systems aligned with district curriculum and academic standards. Upgraded network and wireless systems, a sustainable Chromebook replacement cycle, and the full implementation of the Synergy Student Information System provide the foundation necessary for effective digital instruction, assessment, and instructional decision-making.

Equitable learning opportunities are addressed through consistent access to district-provided devices, cloud-based instructional resources, and secure systems that support learning beyond the physical classroom. These initiatives ensure that students can engage in learning "everywhere, all the time," while educators can use timely and accurate data to personalize instruction, monitor progress, and support all learners, including students with disabilities and economically disadvantaged students.
