Good afternoon 18-22 Families,

I want to share an update about a change that will affect your child and the 18–22 program next school year. Our focus remains the same. We want each student to have a strong, supportive environment as they prepare for their next steps.

In August, the 18-22 program will move to specially designated spaces at Crown Point High School. All programs currently housed at the Education Center will also be relocating, as that building is being repurposed. This shift helps CPCSC address budget challenges while continuing to protect student programs and opportunities.

At CPHS, students will continue to receive the support they've had at the Education Center. Our adult students will continue to travel into the community for vocational experiences and have access to recreational space. Ms. Virosztko and Ms. Rugis will continue as our 18-22 teachers, and each will have their own classroom. There will also be a kitchen to continue our Bulldog Bakery.

We are planning support to help students adjust to the new space and routine. Students and families will be invited to tour the new spaces in August before school starts.

We understand that changes like this can bring questions. Please feel free to reach out to our Exceptional Education team to talk through what this transition looks like for your student and how we can best support them.

Sincerely,

Dr. Todd Terrill, Superintendent

Good afternoon A2E families,

I'm writing to share an important update regarding the A2E program for the 2026-2027 school year. As part of the budget reductions CPCSC is facing for next year, the Education Center building will be repurposed. Some Education Center programs will return to Crown Point High School, while others will be restructured.

Beginning in August, A2E will transition to a fully virtual program. Students will complete their coursework from home. This change will affect students who will remain enrolled in A2E this fall. Your student's guidance counselor or administrator will be in touch prior to the end of the school year to discuss the plan for your student's learning for next year. If your student is graduating this spring or summer, this change will not apply to them.

Our team is committed to ensuring students continue to receive the support they need to be successful while enrolled in A2E.

If you have any questions, please contact administrator Amy Helmuth.

Sincerely,

Dr. Todd Terrill, Superintendent

Good afternoon CAP families,

I'm writing to share an update regarding the CAP program for the 2026–2027 school year.

CPCSC is facing budget reductions for next year, and as part of the reductions, the Education Center building will be repurposed. There will be adjustments to programs currently housed in that space, including CAP.

Your student's guidance counselor or administrator will be in touch prior to the end of this school year to discuss the plan for your student's learning for next year. Students and families can expect a continued focus on meeting each student's individual needs.

We understand how important consistency and support are for our CAP students and families. Our team remains committed to providing strong relationships and the support students need to be successful.

If you have questions about this change, please contact administrator Amy Helmuth.

Sincerely,

Dr. Todd Terrill, Superintendent

Dear Bulldog Buddies Preschool Families,

Thank you for trusting CPCSC to be part of your child's early learning journey. Serving our youngest learners is a responsibility we value deeply, and we remain committed to providing a strong preschool experience for every Bulldog Buddies student.

As CPCSC continues to respond to recent state funding changes and shifting enrollment patterns in some of our elementary buildings, we want to share an important update about preschool locations for the 2026-2027 school year.

Next school year, Bulldog Buddies Preschool will be offered at MacArthur, Jerry Ross, Solon, Lake Street, and Timothy Ball. Families currently attending preschool at Eisenhower or Winfield will still have a place in Bulldog Buddies and will be assigned to one of these five locations. Please rest assured that no matter the location, all of our students will continue to receive the services they need, the Bulldog Buddies curriculum they know, and the care and support of a school team committed to helping them thrive.

We will contact families late next week with your location details for the upcoming school year.

Thank you again for allowing us to be part of this important stage in your child's education. We look forward to a wonderful year of learning and growth together.
