

DA VINCI SCIENCE CENTER AT PPL PAVILION

AI THINKING CAMPS

NEW this summer, students will explore how to think with AI - not just use it.

In collaboration with Da Vinci Science Center and powered by SkyPreme's proven framework, these hands-on summer camps build problem-solving, creativity, critical thinking, and real-world thinking skills through engaging, no-code activities. Designed by an MIT-trained AI expert, the program helps students develop the mindset needed to thrive in an AI-driven world. Students will also have the opportunities to interact with advanced and emerging technologies offered at the Science Center.

AI THINKING CAMP Grades 3-5 | 5-Day Camp

June 15-19 • Ages 8-11
Mon-Fri 8:30AM - 4:00PM daily

AI THINKING ADVANCED Grades 6-8 | 5-Day Camp

August 17-21 • Ages 11-13
Mon-Fri 8:30AM - 4:00PM daily

Sign up for these immersive camps and give your child a head start in the future of learning!

Facilitator: Rashmeet Sangari (SkyPreme)
