

PASCACK VALLEY REGIONAL HIGH SCHOOL DISTRICT

Dirk Phillips
Interim Superintendent of Schools

To: New Staff
Home Instructors
Substitute Secretaries
Substitute Teachers
Substitute Nurses

Re: Mantoux Tuberculosis Testing

The State of New Jersey, Department of Health and Senior Services requires that all newly hired employees be tested for tuberculosis. Documentation of this Mantoux test, administered within the previous six months of contracted employment is considered valid. An employee transferring between school districts within the state of New Jersey does not need to be retested if documentation is **within the last five years**.

Please notify school nurses, Rose Welyczko at Pascack Hills High School, or Diane Fallon at Pascack Valley High School, if you:

1. Have ever had a positive reactor
2. Have ever received BCG or such therapy treatment
3. Recently had a viral illness or a viral type immunization
4. Are receiving corticosteroids or immunosuppressive agents
5. Have a history of allergies

☐ I have read the information regarding the Mantoux test and I give my permission to be tested by Rose Welyczko, Certified School Nurse, Pascack Hills High School. 201-358-7020 Ext. 22027;
rwelyczko@pascack.org

☐ I have read the information regarding the Mantoux test and I give my permission to be tested by Diane Fallon, Certified School Nurse, Pascack Valley High School. 201-358-7060 Ext. 24021;
difallon@pascack.org

☐ I will not be tested for medical reasons. I will submit in writing documentation from my private physician.

☐ Attached is documentation that I have received the Mantoux Tuberculosis test.
