# Pueblo Community Involvement Documentation

| Student Name | Student Number | Academic School Year |
|---|---|---|

In an effort to build and foster positive relationships, students will be required to complete 20 Community Involvement hours prior to graduation. This breaks down to five hours per academic year.

Community Involvement hours should be relevant to students' interests, passions, and talents as indicated on their ICAP. This allows students to network with businesses and community members who may help mentor or coach students toward reaching graduation goals and postsecondary plans.

A minimum of 5 clock hours of community involvement is required per school year grades 9 through 12 each year a student is enrolled in Pueblo School District 60. A school year will be defined as June 1 through May 1 of the following calendar year. All activities must occur outside of the student's school day and should be aligned to student's postsecondary/workforce goals as indicated in his/her ICAP.

Community Involvement hours cannot be counted in conjunction with academic/classroom or P.E. credit. Students cannot receive payment for community involvement hours or be related to the Activity Leader signing this form.

Schools will be able to assist students in customizing their Community Involvement hours by providing lists of opportunities and individuals to contact throughout the community. Students are responsible for reporting and logging their Community Involvement hours to their school counselors using the designated form.

The following are examples of activities that constitute Community Involvement. This is not a comprehensive list of opportunities:

- **Volunteering throughout the community**
