Family Engagement Goals

Data Selected: July 2025 - June 2026

SMART Goal

Goal Statement: By the end of the 2025–2026 school year, parents will actively participate in events that enhance academic readiness and ongoing learning as measured by student attendance, parent participation rates, and surveys.

Goal Rationale by Principle

Principle	Rationale
1. A Culture that Engages Every Family 2. Communicate Effectively and Develop Relationships	1. At the end of the 24-25 school year, the average daily attendance was 72%. While this was up 3% over the previous school year, the attendance rates are still very low. When students are out, they are not learning. We want to impact parents' beliefs and value system to show that daily attendance at school is important and will shift their attitudes and actions. 2. With leadership turn-over the past few years, the campus communication and relationship-building have been inconsistent. There have been different communication expectations and different opportunities to build an effective system. Therefore, there is a need to build consistent expectations and develop ongoing partnership relations.
