The 2K Club Challenge

June 1 - July 31, 2026

Last year we had several players join our 10,000 Shot Club. This year we want our players to join us in the 2K CLUB.

What is the 2K Club?

Simply, hoopers need to put 2,000 minutes into the game of basketball in June and July. This is roughly 30 minutes per day. This can be playing with friends, getting shots up, dribbling the ball or other countless ways to work on your game.

Check our Facebook page for more information.

We are excited to continue to build our program this summer from the youth levels to the Varsity program. We are a player first program which uses basketball as a vehicle to develop better people. **Simply, Sherrard Tiger Hoops is Bigger than Basketball.** Summer is about fun and we want your player to have that, but we want to develop that growth mindset to continually get better and love the game of basketball. We look forward to seeing you this summer.
