Where every student is important.

April 30, 2026

Sabine ISD Community,

Today was a day we look forward to every year. The Sabine Education Foundation was present and delivered over \$52,000 in grant funding for various projects, resources or strategies to our campuses.

The Foundation began in 2017 and, since its inception, has generated close to 1 million dollars in funding to help Sabine ISD educate its students. Our annual fundraising event in October is where we receive the greatest amount of support. Thank you to everyone that has attended these events, donated from your resources, and made this such a success. We are so very thankful for the support of our local businesses and our community.

There are so many who deserve credit for the success of this foundation. First, Misty Gee has been directly responsible for taking this foundation and building it from the ground up. All those who currently serve, or have served, as part of the Education Foundation, we say thank you for your time, effort and support.

To our employees who serve in this district. I want to publicly thank all of you for the role you play in the success of our district. Whether you serve as a teacher, custodian, bus driver, administrator, counselor, librarian, in maintenance or food service, or as an aide, the job you do each day makes our district a success. Each year, you personally give to the foundation in support. Many of you also serve during our fundraising event as well.

All of this is stated to express my gratitude. Thank you for being a part of such a great organization. Sabine ISD is better because of you all.

Sincerely,

Monty Pepper-Superintendent
Sabine ISD
