

## OLVCS Robotics Summer Camp + Club Info Sheet

Hello! My name is Dan Dombrowski. I am an OLVCS parent, and since March 2025, I have been working for the school and the Church as their website admin. My daughters and I share a love of technology and engineering, and we are excited to share that love with the OLVCS community through a week-long Robotics Summer Camp in August and a year-round Robotics Club when the new school year begins.

Here are key details about the Summer Camp that I will be covering at the parent info night on April 30th. I will also post the slides for those looking for more specific details about the camp as well as the Robotics Club and FIRST LEGO League. If you have any questions, please always feel free to reach out at [dombrowskid@olvcs.org](mailto:dombrowskid@olvcs.org).

***Preview some of the projects for week by visiting the camp website:***
