

HELP US TO HELP YOU PROTECT YOUR CHILDREN

Measles Mumps Rubella Immunization

Measles spreads very easily, if your child is not protected and is exposed to measles, they may need to stay home and away from school, childcare, work and other activities for up to 21 days.

DID YOU KNOW?

Measles is resurging worldwide.

Imported cases can quickly become outbreaks.

A plane ride can bring measles anywhere.

***We can
immunize
your child!***

***Check our website
or call to see if
you're eligible.***

Public Health
Prevent. Promote. Protect.

Waukesha County Public Health

IT TAKES A 95%

immunization rate within a group to prevent a measles outbreak.

Waukesha County is at an 87% measles rate in the 6-18 age population, which means the school community is vulnerable.
