

EAGLE NEWS

May 8, 2026

Good afternoon Eagle Families,

What a fantastic week here at AIE—our Eagles continue to show what it means to be anchored in excellence each and every day. We wrapped things up with a really special experience yesterday as our students traveled to Cherrydale for the Science/Magic Assembly. It was an absolute blast. The combination of science, curiosity, and a little bit of magic had everyone fully engaged, and it was great to see so many smiles and hear so much laughter.

One of the best parts of the day was having students from both schools I work at together, sharing in that experience. Opportunities like that don't come around every day, and it was a great reminder of how fun and meaningful learning can be when we bring our communities together.

Back here on the Island, our Eagles kept working hard all week long—showing effort in their learning, supporting one another, and continuing to grow. We're proud of the way they show up and represent AIE.

As we head into the weekend, the forecast is looking beautiful. I hope you all get a chance to get outside, enjoy some sunshine, spend time together, get some well-earned rest, and of course... keep reading.

We appreciate your continued support—it makes a difference every single day.

See you all next week.

- Mr. Miller

HEALTH DAY
THURSDAY, MAY 14

May 14 Health Day vision & Hearing screenings
& FREE optional dental screenings
May 18 Low Tide Field Trip
May 22 & 25 No School

Classroom News

Mrs. Cunningham

It was a beautiful week, full of sunshine, laughter, and learning! We had a blast watching the Science Magic Show at Cherrydale. A HUGE thanks to the Cherrydale PTA for sponsoring our visit! Everyone enjoyed an exciting recess at Cherrydale, a tasty Community Garden tour, and a fun lunch at Perkins Park!

This week, we also enjoyed practicing our frisbee skills in PE, singing along in music, working on our STEAM invention, and painting dot art with Island Arts.

Next week (and hopefully for the rest of the school year), we will have warm weather. This time of year it's helpful to dress in layers and send your student with a refillable water bottle.

Upcoming dates/events:

May 12-13 - 3rd grade SBA-ELA

May 19-20 - 3rd grade SBA-Math

May 18 - Low Tide Field Trip (permission slip is in Parent Square)

May 26-29 - Spring I-Ready Diagnostic Assessments (k-3rd grade)
