Senior Students,

There have been recent reports of a competitive game called "Senior Assassin" where individuals or pairs are assigned targets that they have to eliminate from the game with the use of squirt or Nerf guns, water rifles or pistols, toy guns, and other similar items.

Please be aware that this game is not a school-approved event, and that it should not take place in the school building, on school grounds, or in the community. While we understand the playful intention of this type of activity, this behavior poses a potentially serious and elevated risk for a dangerous interaction or safety hazard.

In past years, due to this game, there have been reports from surrounding towns of behavior that may be perceived as suspicious or armed persons, or as causing suspicious activity that prompts a response from residents and/or response from local law enforcement posing a potential threat to the safety of adolescents and others in the community.

Thank you for your understanding and cooperation in helping keep everyone safe.
