

Dental Tiered A Network

A healthy mouth may help decrease the risk of diabetes, heart attacks and strokes.

That's why our dental plans cover 100% of all in-network preventive care.

Your plan pays for some great things:

- Preventive dental services – no cost to you when you see a network dentist
- HealthPartners MouthWise Matters – extra exams and cleanings covered 100% in-network (if you're pregnant or have diabetes and are at risk for gum disease)
- The cost of other dental care at the amounts shown in your Summary of Benefits

What you'll pay:

- Things like getting a cavity filled might cost a **deductible** – the amount you have to pay before your plan helps with the cost
- There's also **coinsurance**, which is a percent of the bill
- You're in charge of paying all costs after you reach the **annual maximum** – the most your plan will pay for dental care each year

Search the network for your dentist or find a new one at healthpartners.com/dentaltieredA
