PRINCIPAL'S MESSAGE

Wow! Believe it or not, we have made it to the final full month of the school year. May is always a special time in our middle school community. It is a season filled with growth, reflection, and celebration. Our students have worked hard all year, and it is exciting to see the progress they have made.

May is also a time when we recognize the many people who contribute to our school's success. From Teacher Appreciation Week to honoring our support staff and community volunteers, we are grateful for the dedication and care that surrounds our students daily.

For our eighth-grade students, this is an especially meaningful time as they prepare for the transition to high school. We are very proud of who they have become and look forward to celebrating their achievements in the coming weeks.

As always, thank you for your continued partnership and support. Together, we make Lakeview a place where students feel valued, challenged, and inspired.

Wishing you a wonderful month of May!

Go Sailors!

Mr. Ace

NATIONAL ACADEMIC GAMES

Congratulations to our Lakeview Academic Games Team. They took on the toughest competition in the country at the 2026 National Academic Games in Charlotte, NC.

Students competed in six different games, earning both team awards and individual national honors. Representing Lakeview as part of the Intermediate Unit teams, our students proved to be formidable competitors against the very best from across the nation.

The Lakeview students who competed were:

Anderson Becki
Quinten Becki
Griffin Brocklehurst
Penn Brocklehurst
Jonathan Frey
Cylas Fry-Stutzman
Cole Kudiak
Tanner Powers

SAILOR CODE

If you are part of the Lakeview Sailor Community, by now you probably have at least heard about the Sailor Code. It is the Lakeview schools' behavior code that has been established as part of the Positive Behavioral Interventions and Supports (PBIS) program. The Sailor Code is a structured set of expectations, rules, and responses designed to promote positive behavior rather than just punish misbehavior.

Instead of focusing mainly on what *not* to *do*, the Sailor Code clearly defines what *students should do* and teaches those behaviors just like academic skills.

What does the Sailor Code include?

- **Clear, positive expectations**
  Four simple rules that apply across all school settings such as classrooms, hallways, cafeteria, buses, etc.

Sailor Code:
Be Here/Be Ready
Be Respectful
Be Safe
Be Positive

- **Direct teaching of behavior**
  Students are explicitly taught what those expectations look like in real situations. For example, "Being Respectful" in the classroom might mean raising your hand, while in the cafeteria it might mean cleaning up your space.

- **Consistent reinforcement**
  Positive behavior is recognized and rewarded. This could be praise, points, or small incentives to encourage students to repeat those behaviors.

- **Consistent consequences**
  When rules are broken, the response is predictable and proportional. The goal is to correct behavior and teach better choice-making, not just punish.

- **Data-based decision-making**
  Our schools track behavior incidents to identify patterns and improve support systems.
