Avery Long, Teacher
Danielle Meyers, Teacher
Appointed:
Courtney Bruffey, Title I Facilitator
Ex-Officio:
Claire Sieber, Principal
Jamie McDowell, Assistant Principal
Beth Isaacs, Assistant Principal
Leslie Langit, PTA President

School Improvement Goals

Goal #1- Implement Champ's Power Hour - Champ's Power Hour is a monthly parent workshop series that offered ways to support families. This year the focus is creating a digitally well balanced home. This request came from families concerned with overuse of technology at home.

Goal#2 – Continue Champ-ions Mentoring and Champ's Closet - Over the last several years, we have added resources for students that include a mentoring program and a "just in case" closet for students. It is our goal to continue to build these programs that support students' needs physically and emotionally.

Strategies and Actions

Describe the strategies and actions implemented to support school improvement goals. Include programs, instructional practices, and initiatives. Strategies and actions that have been implemented to support school improvement goals are Champ's Power Hour, Champions Mentoring, All Pro Dads, Multi-lingual Families Engagement Nights, Literacy, Math, and STEM Family Engagement Events and the Family Engagement Center located on the KES campus. Additionally, all teachers and school leadership use Parent Square for weekly communication with families, progress reports are given to families twice a quarter, but parents have immediate access to student progress in the Power School application. KES also uses the program Capturing Kids' Hearts and PBIS to promote a positive school culture and foster positive relationships in the school. To ensure all students receive instruction that will help meet our instructional goals, all teachers use the district adopted high quality instructional materials.

Progress and Outcomes

This school year our Champ's Power Hour was offered 4 times. Each event, the SIC team was able to make progress towards a more successful event the next month. The Champions mentoring group began the year with a total of 6 mentors and 13 students being served. It has grown to 16 mentors serving 34 students. Champ's Closet was able to serve 6 different students and families who were displaced.

Next Steps

Moving forward, KES will continue to build programs already in place and survey families to determine where the SIC could help serve the school best.
