May 2026 Edition

NOTE FROM MRS. BUSSARD

May already, we have had such a great year! I am sad to see it wind down, but am so excited for all of the fun activities and celebrations ahead this month. Our Spring MAP testing begins Monday, May 4th. It is always more difficult for students to keep focused during this testing session with the excitement for the end of the year. Please talk with your students about getting enough sleep, eating a good breakfast, and giving their best effort. This is the information their next year's teacher will use to plan for their instruction. We have many fun things planned to celebrate their hard work and accomplishments. As always, thank you for all you do. Let's have a great last month!
