

a tyler school solution

How to access the My Ride K-12 mobile application

1. Download "My Ride K-12" from the Google Play Store or the Apple App Store.
2. After the app installation is complete, open My Ride K-12.
3. When prompted to find your school district, search for Upper Perkiomen School District.
4. Once you have selected your district, you will proceed to the login page. If you do not already have a registered email, click 'Register'. If you were a user last school year, your information is the same. The "forgot password" option is working properly to reset your old password. Each school term, you will have to relink your students.
5. To register for a new account: enter your email address, password, and name.
6. After registering, you will receive a confirmation email. Click on the link in your email to confirm your registration through the My Ride K-12 website.
7. Log in the app, then find your student by going to My Students and choosing the + button. This will present the Find a Student screen.
8. Enter the Student ID to find your student. Repeat this step to add additional students. If you need assistance locating your Student ID, please contact your school or the transportation department. Parent Square will also have Students IDs for all students.
9. Once you have linked to a student, click on that student's profile to see all relevant transportation information.
10. You may share your student(s)' bus information with up to 5 contacts. Just like you did, they must download and register with My Ride K-12. You will need to share your student(s)' ID number with them.
11. Regularly check for updates to ensure that your device is running the latest version of the app.
12. Remain logged into the app to receive district notifications, even when the app is not actively running. Do not disable notifications, you may miss important communications.
