PRAIRIELAND 4th GRADE SUPPLY LIST (2026-2027)

A Note to Parents:

To help your child learn organizational skills and be as responsible and successful as possible next year, the fourth-grade team of teachers has compiled a supply list that **replaces** the general list provided by Unit 5. Please put this list in a safe place over the summer so you can take it with you when you shop for supplies in August. If you use the general list that is given to the stores, your child will surely have supplies s/he will not need and will be missing some supplies s/he will need. It is our hope these supplies will last the entire year. We will collect extras on the first day of school and then make them available to your child as s/he needs them.

Please put your child's name on all of the supplies.
