

Sehome High School

Design Advisory Committee Kickoff Workshop

November 17, 2015

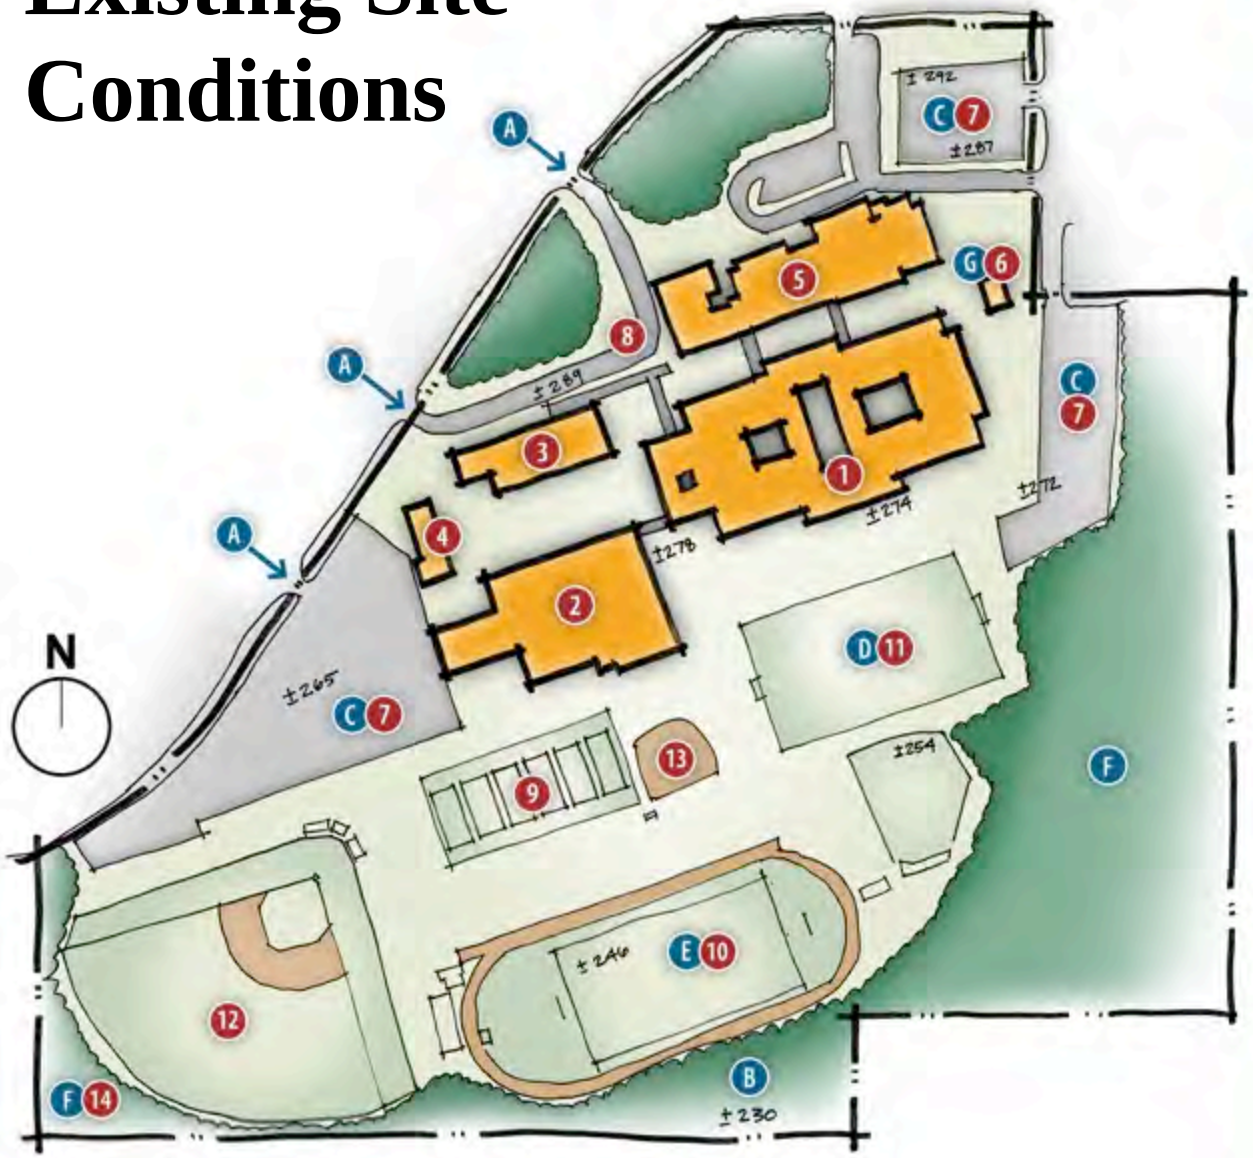

Bellingham Public Schools

DYKEMAN
INSPIRING EVERYDAY SPACES

Existing Site Conditions

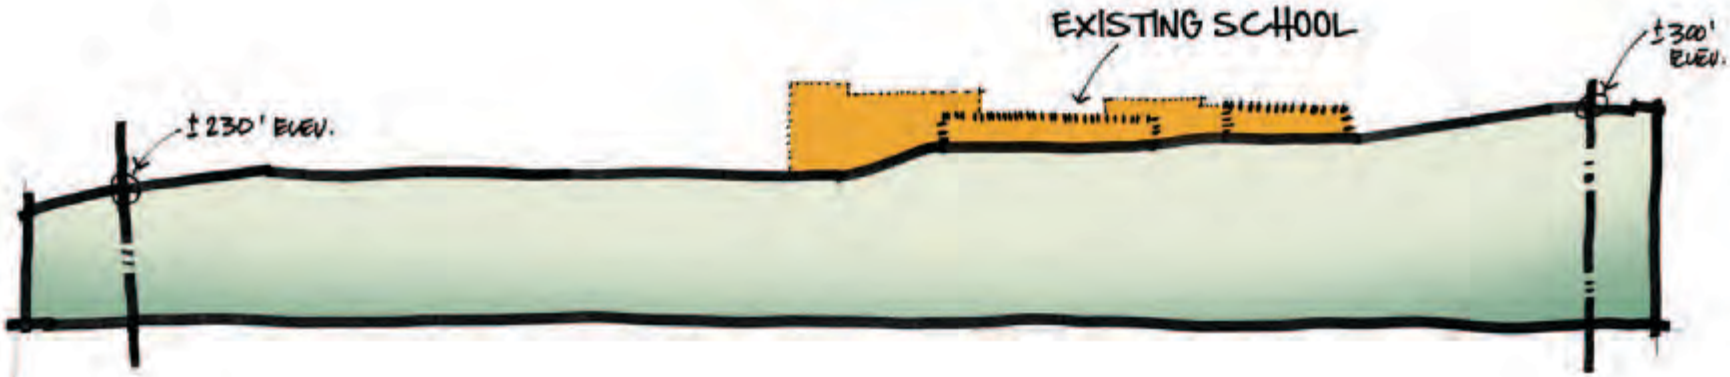

Site Constraints

- **A** Frontage Improvements are complete and developed. No need to reconfigure.
- **B** The existing terraced site to the SE opens up some beautiful territorial views.
- **C** Approximately the same number of parking spaces, 550, will need to be maintained.
- **D** The existing terraced site constrains the field locations.
- **E** A minimum number of fields should be maintained for PE, Athletics and Community Use.
- **F** Minimize Impact to wooded areas to maintain the beautiful trees. The site has minimal critical areas and no wetlands.
- **G** Utility capacity is no in need of improvement - existing site electrical and natural gas services may need to be relocated but are adequate.

Site Features

1. Classroom building
2. Gym / PE
3. Robotics and music
4. Labs and ceramics
5. Performing arts and library / cafeteria
6. Central plant
7. Parking
8. Bus loop
9. Tennis
10. Football and track
11. Soccer
12. Baseball
13. Softball
14. Steep vegetated area
