### **ARTS & CRAFTS**

Students will create works of art using different medias and techniques such as tie dye, water colors, glass painting, fluffy slime, and much more. They will develop fine motor skills and this class will encourage self expression while allowing students to socialize and enhance decision making skills.

### **Painting and Drawing Class**

Painting and Drawing Club is designed for all students who want to explore their creativity and build confidence in their artistic skills. Students will learn foundational techniques in both painting and drawing while experimenting with a variety of styles to create their own original works of art in a supportive environment.

### **Cheer Club**

Calling all cheerleaders, gymnasts, and dancers! Spend some time this summer working on your flexibility, tumbling, and endurance with Mrs. Boyd. We'll practice jumps, splits, back handsprings and more! Get ready for all of your fall activities by learning drills and skills you can practice right in your own home!

### **Gym Class**

Gym will be used to teach students about different types of athletic events from around the globe. Students will learn the fundamentals of multiple games and will practice the appropriate way to carry themselves on and of the court or playing field. They will practice social emotional skills through competition and identify the origins of their different activities.

### **Math Credit Recovery**

Students will work on grade level skills to help prepare them for the upcoming school year. They will complete work through a variety of resources such as IReady, IXL, Pre-algebra, Algebra, IM assessments, and vocabulary .

### **SEL Club**

SEL Club is a safe, supportive space where middle school students build skills like self-awareness, emotional regulation, empathy, and communication through fun activities and discussions. It helps students grow socially, build confidence, and form positive relationships.

### **Crochet Club**

Crochet Club is a creative after-school space for students of all skill levels, from complete beginners to experienced crafters. Students will learn basic stitches, follow simple patterns, and create fun projects like scarves, hats, and small accessories. The club encourages creativity, patience, and self-expression while providing a relaxing environment to socialize and build new skills. Whether you're picking up a crochet hook for the first time or looking to improve your technique, everyone is welcome to join and create!

### **ELA Credit Recovery**

Students will work on grade level skills to help prepare them for the upcoming school year. They will complete work through a variety of resources such as IReady, IXL, CommonLit, Class novels, writing assessments, and vocabulary work with their peers.

### **Lego Robotics Club**

Get ready to build, code, and create! This LEGO and Robotics Summer Program is designed for curious minds who love hands-on learning and problem-solving. Students will work to design and build innovative structures using LEGO kits, then bring them to life through basic robotics and coding.
