

Dear Parents and Guardians,

Welcome to Willow Creek Elementary. My name is Nurse Jodie, and I am excited to partner with you as your student begins their Kindergarten journey. As your student's school nurse, I want to ensure that all students have a healthy, safe, and supportive school experience. Here are a few reminders and tips to help support your Kindergartener's successful start to the school year.

Immunizations

- Colorado law requires all students to have certain vaccines before starting Kindergarten.
 - Learn more on the Colorado Department of Public Health and Environment's Website [here](#).
- Please bring in or email me directly with updated vaccination records for your student.

Health Concerns & Medication Needs

- If your student has a health condition that may need support during the school day, please let me know.
- If your student needs medication while at school, we must have signed provider's orders.
- More information can be found on our website at [CCSD Health Services](#).

Ready for Kindergarten

- Summer is a great time to practice bathroom use and good handwashing habits.
- Talk to your student about when to see the school nurse.

Tips

- Send an extra change of clothes, labeled with their name, in their backpack each day.
- Keep your contact information in PowerSchool up to date throughout the school year.

If you have questions, please reach out.

I look forward to seeing your student this fall!
