PRESENTED TO

**Beaverton School District
Oregon**

For the Fiscal Year Beginning

July 01, 2025

Christopher P. Morill

Executive Director

Welcome to the Beaverton School District! Whether you are a new reader or returning for a refresher, this section is designed to help you navigate the organization and structure of the Beaverton School District’s budget. The budget document serves as a key planning tool, reflecting our commitment to transparency, accountability and alignment with the District’s strategic goals.

Budget Format

The budget document is organized into four main sections:

- **Executive Summary**
- **Organizational Section**
- **Financial Section**
- **Informational Section**

The document begins with a Table of Contents to guide your reading. Summary information and key highlights are presented in the opening pages for quick reference.

The Executive Summary

This section includes the Budget Message and a high-level overview of the 2026-27 budget. The 2026-27 budget reflects the strategic direction set by the School Board’s new strategic plan, adopted in May 2023. It includes foundational priorities, core values, and goals to support student success. You will also find summary financial data in tables and graphics, as well as information on enrollment trends, long-term forecasts, and benchmarking comparisons.

Details about the Superintendent’s Cabinet and Budget Committee for 2025-26 are also included. The Budget Committee and School Board work in partnership to review and adopt the budget. While the Committee reviews and approves the proposed budget, the School Board is responsible for making final appropriations and levying taxes. The Budget at a Glance page highlights major changes from the 2025-26 budget, with a focus on the General Fund, Grant Fund, and Capital Projects Fund.

The Organizational Section

This section provides background on the District’s structure, the communities we serve, and the education services offered. It also outlines the District’s significant budget and financial policies, procedures, and regulations, as well as a detailed description of the budget process.

The Financial Section

This section includes detailed information about each of the District’s eleven funds. It describes the major revenue sources and spending categories, along with fund-specific narratives that provide further insight into planned activities and allocations.

The Informational Section

The final section contains historical and projected staffing data, property tax details, and additional performance metrics used by the District to evaluate operations and outcomes. It also features summary data for individual schools to provide school-specific budget insights.

Superintendent's 2026-27 Budget Message

May 5, 2026

Dear Beaverton School District Community,

As we look ahead to the 2026-27 school year, there is much to celebrate in our district, alongside some budget challenges now and in the years ahead.

Our [strategic plan](#) articulates Beaverton School District's promise, vision, mission, values, foundational priorities and goals in our efforts to support all of our students to succeed. At its core is a community-endorsed promise to our families: **Belong. Believe. Achieve.** We hold a responsibility to educate every student, cultivate their inclusion and belonging, provide the opportunities and support they need to succeed academically, and achieve their own successful futures. A steadfast commitment to equity, engagement, and excellence for all students is the foundation of our work.

The District is continuing essential work to meet our strategic goals, including:

- *Modernizing our curriculum.* Teachers are implementing new literacy / language arts curriculum based on the science of reading, and a math curriculum adoption is underway for implementation next year.
- *Supporting student needs.* We are developing a districtwide multi-tiered system of supports (MTSS), a systemic approach to identify and address students' academic, behavioral and social-emotional needs.
- *Expanding multilingual learning.* BSD is expanding dual language programming through a multi-year effort with the long-term goal that students across the district can access dual language learning K–12.
- *Developing workforce skills.* We continue to expand and enhance career technical education (CTE) and career-connected learning, including expansion of our new CTE programs in behavioral health and electrical trades.
- *Growing early learning.* BSD is continuing to expand and support early learning. Starting in 2026–27 we will have pre-kindergarten programs serving all of our Title I elementary schools.
- *Supporting student well-being.* The yearlong Believe You Matter initiative raised awareness and promoted student mental health and well-being, including suicide prevention, digital wellness, and sleep health.
- *Focusing time for learning.* BSD schools shone a spotlight on improving student attendance, a goal for every school. Our schools also addressed distracted learning in order to support students' academic focus and well-being, implementing restrictions on using personal devices during the school day.
- *Building the future.* Bond-funded school improvements including the new Raleigh Hills Elementary and Beaverton High School buildings are being completed on-time and on-budget. We have launched work toward updating our Long-Range Facility Plan to guide future facility planning amid declining enrollment.

All of these efforts are aligned with the District's strategic plan and made possible by our dedicated staff and the support of our community. The proposed budget sustains these efforts to support all of our students to succeed.

Budget Development Process for 2026-27 Budget

- *Phase 1:* The School Board received information about the structural deficit in the General Fund in August 2025 and agreed on a process to address the deficit in planning the 2026-27 budget.
- *Phase 2:* A large committee including school and department leaders and union partners met in October through December 2025 to review the District’s staffing allocation methodology (SAM) and determine potential reductions. The list of possible budget reductions under consideration was focused by District leadership and reviewed with the School Board in January 2026.
- *Phase 3:* From January through March 2026, the District solicited feedback from students, staff, parents and community members. The District received over 4,000 survey responses, which included nearly 1,500 additional comments. The School Board appointed community members to Budget Committee vacancies.
- *Phase 4:* The final phase begins in May 2026 with the presentation of the Superintendent’s Budget Message and 2026-27 proposed budget to the Budget Committee. The Budget Committee will review the proposed budget, receive community testimony, and request any additional information. The Budget Committee will approve the budget and tax levies and send the approved budget to the School Board for adoption in June 2026.

Notable Financial Assumptions

This budget message is designed to summarize important features, financial policies, and planned modifications in the 2026-27 proposed budget. Key financial assumptions include:

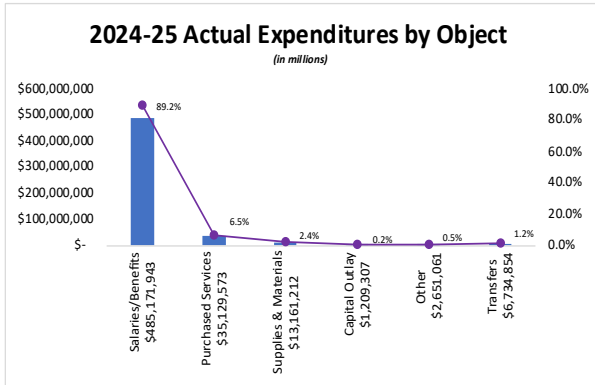

- State School Fund (SSF) of \$11.36 billion statewide
- All funds budget of \$1.4 billion
- General Fund budget of \$780.4 million
- SSF revenue of \$557.4 million
- Local option levy revenue of \$44.5 million, funding 273 classroom teachers (*Progress on Standards*)
- Student Investment Account (SIA) allocation of \$38.7 million (*Safe & Thriving, Progress on Standards*)
- High School Success (HSS) funding of \$11.5 million (*College & Career Ready*)

Planning the 2026-27 Budget

The 2026-27 budget aligns resources to the District’s strategic plan and student success plan, with priorities identified through extensive community outreach and input from the District’s students, families, staff and community. Careful consideration of the District’s equity lens was used to center the conversations.

The District uses a staffing allocation methodology (SAM) to allocate most of the staff in our schools. The SAM includes a commitment to a more equitable and responsive allocation of resources to schools based on student needs. Under this model school staffing is based on projected student enrollment, weighted by the number of students experiencing poverty. This equity-based staffing formula provides incrementally greater staffing and smaller class sizes in schools with higher levels of need. The District makes modifications for enrollment and other changes as circumstances warrant and funding allows. The SAM currently uses funds from the general operating budget, as well as several grants including the SIA and HSS.

As a people-intensive organization, the District’s budget is largely driven by staffing costs. Nearly 90% of the District’s General Fund is dedicated to employee salaries and benefits, reflecting the nature of public education. Within those staffing expenditures, more than 90% is accounted for by staff working directly in schools, where resources are focused on classroom instruction and school-based services.

*School-based staff include Licensed and School-Based Classified Staff and School-Based Administrators.

Enrollment projections continue to decline for the fall of 2026, with an estimated student projection of 36,273, representing a decrease of 807 students from the prior year. As shown below, while student enrollment has declined over time, District staffing levels have increased during much of the same period.

Although the District remains in stronger financial condition than many Oregon school districts, the 2026-27 budget addresses significant ongoing challenges, including declining enrollment, revenues that have not kept pace with costs, flat federal funding, a structural General Fund deficit, and the closure of our smallest elementary school.

While over the last several years we have worked to limit the structural deficit, concentrated budget cuts in the central office, and successfully avoided reductions at the school level outside of enrollment declines, it is no longer possible to avoid reductions that will impact our schools. As a result, the 2026-27 budget includes reductions at both the school and district levels, following extensive review of staffing allocations to maximize efficiencies and minimize impacts on direct student services. Overall staffing decreases by 159 full-time equivalent (FTE) in all funding sources.

Major General Fund budget adjustments for 2026-27 include the following:

- Enrollment adjustments (\$8.0 million) – Staffing changes reflecting student enrollment changes
 - Decreases 68.8 FTE due to declining enrollment
 - Increases 42.0 FTE due to increased special education students
- Local option levy revenue shortfall (\$4.9 million) – This reduction will affect average class size by less than 1 student per classroom
 - Decreases 30.0 FTE

- McKay Elementary closure (\$1.7 million)
 - Reduces 15.9 FTE
- Targeted reduction due to deficit (\$11.1 million)
 - District office reductions (\$2.0 million)
 - Decreases 8.5 FTE in central staffing
 - Program support adjustments (\$0.7 million)
 - Decreases 4.3 FTE
 - School staffing allocation methodology (SAM) adjustments (\$8.4 million)
 - Decreases 53.0 FTE across 53 schools
- Budget additions (\$4.9 million) including:
 - Math curriculum adoption
 - General fund support for 3.0 FTE special education teachers due to IDEA grant shortfall
 - General fund support for Outdoor School to mitigate state funding shortfall
 - Transportation for middle school after-school programs
 - Addition of boys volleyball as an OSAA-sanctioned sport

Conclusion

Making budget reductions that impact our students and staff is a difficult and painful process. In closing, I want to thank our community for their support; our BSD employees for their dedicated efforts for our students; the families, staff and community members who provided thoughtful input on priorities; the SAM committee for its work to revise recommended staffing allocations; and the District's budget team for their hard work in preparing the proposed 2026-27 budget. Many thanks to the Budget Committee for their thoughts and attention in reviewing the proposed budget and providing feedback as we plan for the 2026-27 school year.

Guided by the District's strategic plan, equity lens, staffing allocation methodology, and community input, we will continue to make informed decisions while advocating at the state and federal levels not only for our students but for all Oregon students. We will continue to seek opportunities to innovate, improve, and strengthen partnerships to ensure student success.

Thank you for your consideration of the 2026-27 proposed budget to meet the needs of our students.

Respectfully submitted,

A handwritten signature in black ink, appearing to read 'Michael Schofield', with a stylized flourish at the end.

Michael Schofield
Interim Superintendent
Beaverton School District

THE BUDGET AT A GLANCE

The Budget Process

Oregon Local Budget Law (ORS 294.305 to 294.565) outlines the process and format for school districts' annual budget preparation and presentation. A balanced budget is achieved when projected resources equal projected requirements within each fund. The Oregon Department of Education (ODE) adopts a chart of accounts through the administrative rule process, which all Oregon school districts must follow for budgeting and financial reporting. The Beaverton School District appropriates its expenditure budget at the major function level, which includes Instruction, Support Services, Enterprise and Community Services, Facilities Acquisition and Construction, Debt Service, Other Uses (mainly transfers), Contingency, and Unappropriated Ending Fund Balance.

2026-27 Budget Overview

The District's budget message and adopted budget are based on an \$11.36 billion State School Funding (SSF) level for the 2025-27 biennium. The 2026-27 proposed budget for the District totals \$1,424,876,943 for all funds, reflecting a \$235.9 million decrease from the 2025-26 adopted budget. This decrease is primarily due to the spend down of bond proceeds as the 2022 Capital Bond program completes its largest projects.

General Fund

The General Fund is the District's main operating fund. The proposed General Fund budget for 2026-27 totals \$780,375,660, a decrease of \$6.5 million from the 2025-26 adopted budget. This decrease is due to the planned deficit in the 2025-26 fiscal year, as well as approximately \$20.6 million in budget reductions for the 2026-27 due to declining enrollment, local option levy collection shortfall, the closure of McKay Elementary, and district-wide budget reductions. Major objects for Salaries, Associated Payroll Costs, Purchased Services, Supplies & Materials, Capital Outlay, Other, and Transfers provide further explanation.

The 2026-27 proposed budget allocates 51.2% to Instruction, 31.2% to Support Services, 0.2% to Debt Service, 0.3% to Transfers, 8.6% to Contingency and 8.5% to Unappropriated Ending Fund Balance. Small allocations to Facilities Acquisition and Construction and Enterprise and Community Services are less than 0.1% of the total General Fund budget.

Comparing the 2026-27 proposed budget to the 2025-26 adopted budget, the allocation to Instruction increased from 50.6% to 51.2%, while Support Services remained at 31.2% in both years. The Transfer of Funds decreased from 0.4% to 0.3% of the General Fund due to a smaller transfer to the Insurance Reserve Fund, reflecting an effort to incrementally spend down that fund's balance. The largest changes in the 2026-27 proposed budget compared to the 2025-26 adopted budget are the reduction of the operating contingency from 17.6% to 8.6% and the addition of the unappropriated ending fund balance at 8.5%. For 2026-27, the budget includes the unappropriated ending fund balance to more clearly reflect the District's planned year-end reserves and financial sustainability goals. The combination of the operating contingency and unappropriated ending fund balance totals 17.1%, representing a 0.5 percentage point decrease from the operating contingency in 2025-26. Debt Service, Enterprise & Community Services, and Facilities Acquisition & Construction saw no changes.

General Fund Revenue Outlook

The General Fund revenue budget includes \$557,383,949 from the State School Fund formula, based on ODE's March 2, 2026 projection. Of this amount, \$28.8 million is reimbursement for Transportation programs. The State School Fund is the District's main source of revenue, making up 88.3% of total General Fund revenue. The District monitors fluctuations in SSF inputs, such as total enrollment, special education, English language learners (ELL) and property tax collections, to project related adjustments in the SSF throughout the year.

BUDGET SUMMARY BY FUND – ALL FUNDS ONE YEAR PROPOSED AND FOUR YEARS ADOPTED BUDGETS

Total revenue and expenditures budget for all funds has decreased by \$235.9 million from 2025-26 to 2026-27. This decrease is primarily due to the spend down of bond proceeds as the 2022 Capital Bond program completes its largest projects.

Over the past five years, all funds budget has decreased by \$106.3 million with the largest area of change being the Capital Projects Fund, Long-Term Planning Fund, and Nutrition Services Fund. The Capital Projects Fund has both increased and decreased significantly over this period due to the sale of bonds related to the 2022 capital bond measure and the completion of the major projects associated with the bond measure. At the same time, the Long-Term Planning fund has been increasing each year with a 2% charge against PERS eligible salaries to build a PERS reserve. The Long-Term Planning fund is expected to reach the 5% reserves required by School Board policy by the end of the 2025-26 school year and no future contributions to this fund are planned. Finally, the Nutrition Services Fund continues to increase as the District has transitioned to a Community Eligibility Provision (CEP) district, which provides free meals for all students. This program has brought higher participation rates than originally estimated and with it, more supplies, equipment and staff were necessary, which is offset by increased reimbursements from the State and Federal levels.

EXPENDITURES BY OBJECT – ALL FUNDS

The following charts show a comparison of the District’s all funds adopted 2025-26 and proposed 2026-27 budgets. The most significant change in the District’s budget is a decrease in 0500 Capital Outlay capacity due to the completion and project progression of the 2022 Capital Bond measure.

Source: Business Services

ALL FUNDS SALARIES, BENEFITS AND POSITIONS – HISTORY AND BUDGET

The District is budgeting a 3.4% decrease in overall personnel allocations for the 2026–27 budget year compared to the prior year. This reduction is driven by continued enrollment decline, slowing local option levy revenues that support classroom teachers, and district-wide budget reductions. Enrollment is projected to continue declining in the coming years, which will have ongoing implications for staffing levels.

Changes in salaries and benefits reflect a combination of staffing reductions, negotiated compensation changes, and benefit-related assumptions. Overall, salaries and benefits are budgeted to decrease by 1.1% compared to the 2025–26 budget, driven by a 1.2% increase in salaries and a 4.7% decrease in benefits. Salary increases are primarily related to negotiated cost-of-living and step adjustments, partially offset by the reduction in positions described above.

The decrease in benefits is largely attributable to a lower PERS rate than was assumed in the 2025–26 adopted budget following the passage of SB 489, as well as the removal of the 2% PERS reserve charge on PERS-eligible salaries. This reserve charge has been used to support District financial reserves held outside the General Fund. The reserve is expected to reach the 5% level required by Board policy by the end of the 2025–26 fiscal year, and no additional charges are assumed beginning in 2026–27.

ASSESSED VALUE AND PROPERTY TAX SUMMARIES

In Oregon, property taxes help support police, fire protection, education and other public services provided by local taxing districts, such as cities, counties, and schools. Oregon’s property tax system represents one of the most important sources of revenue for local governments. Oregon’s property tax system is defined by two significant constitutional limitations that were put into place by initiative petitions passed by voters in 1990 (Measure 5) and 1997 (Measure 50). More information on Measure 5 and Measure 50 are included in the Organizational and Informational Sections of this document.

The permanent tax rate and local option tax collections are determined by the State of Oregon Constitution and State Statutes. Existing districts cannot increase their permanent rate authority. Local option levies are limited to five years for operations and ten years for capital projects. Elections for local option levies must meet the double majority election test, except in the May and November general elections. Rates for debt services are set based on each year's requirements.

Currently, the amount of property taxes paid by a taxpayer is based on two things:

- The assessed value of the property; and
- The amount of taxes that each taxing district is authorized to raise.

	2022-23	2023-24	2024-25	2025-26	Projected 2026-27
Tax Rates					
Permanent Tax Rate per \$1,000 of AV	4.6930	4.6930	4.6930	4.6930	4.6930
Bond Tax Rate per \$1,000 of AV	2.2479	2.1854	2.2697	2.3217	2.3807
Local Option Tax per \$1,000 of AV	1.2500	1.2500	1.2500	1.2500	1.2500
Average Assessed Value	\$ 308,138	\$ 318,581	\$ 328,283	\$ 339,000	\$ 350,429

(1) Amounts are based upon the tax collection year July 1 to June 30.

DEBT SUMMARY

Payments on the general obligation bonds are made by the Debt Service Fund from property taxes and earnings on investments. Payments on pension bonds are made by the Debt Service Fund from revenue charges to other funds. The payments on the full faith and credit obligation bonds are made by the Debt Service Fund from transfers from Equipment Replacement Fund and Capital Projects Fund.

BENCHMARK DATA

The District participates in a group of finance leaders from school districts in Oregon with student enrollment counts greater than 10,000 students (10K). This group was established several years ago, before student enrollment began declining statewide. Since that time, three of the districts have dropped below the 10,000 student threshold. Regardless of recent enrollment changes, the 13 original districts still participate in the 10K group.

The state of Oregon has 197 districts, however 87 districts have less than 10,000 students and an additional 100 districts have less than 1,000 students. In order to compare to like-sized districts, the District utilizes the 10K districts as the peer group in the datasets on this page. The following tables represent the District's student-teacher ratio for the last five years and compares the District's student-teacher ratio to the other districts in the group.

In addition to the individual classroom teachers, the average student-teacher ratio uses all non-Special Education teachers by Full Time Equivalent (FTE), including elementary (music, art and physical education) specialists. The average student-teacher ratio for the District continues to decline each year. The District has been below the 10k district average for the past five years.

Source: Frontline Analytics

Source: Frontline Analytics

The tables below compare the District's student-teacher ratio for 2025 to the other districts in the group and per pupil expenditures of the District to other 10k districts for 2025. This only includes the General Fund and does not include any grant funds such as Title IA, SIA, or HSS.

STUDENT ENROLLMENT HISTORY AND PROJECTIONS

The District’s proposed budget is based on the number of projected students. State School Funding, the primary source of District revenue, is calculated based on the number and demographic of students enrolled.

For the 2026-27 budget, the District projects a decrease in enrollment compared to September 2025. The enrollment declines observed in recent years have been primarily at the elementary level, with some decline starting to affect middle schools. Year-to-year enrollment decline over the past five years has been approximately 1-3% each year. The 2026-27 projections indicate a continued overall decline in District enrollment, with secondary schools beginning to see decreases as large cohorts exit the 12th grade and incoming kindergarten cohorts remain small.

The following chart displays student population data for four years based on actual enrollment as of September 30 of each year, along with projected enrollment for 2026-27 through 2029-30.

THE DISTRICT AND THE COMMUNITY

Beaverton School District (BSD or the District) is the second largest district in Oregon and is projected to have over 36,000 students for the 2026-27 school year. In the 2025-26 school year, the District offers 54 schools and two charter schools to its increasingly diverse student body. Students of color make up 60.1% of the District population. The largest minority student group is Hispanic/Latino(a), followed by Asian. There are 98 different primary languages spoken in students’ homes.

On average, the students of the District outperform state averages on standardized tests, and District schools receive high ratings based on Oregon’s state education standards. Over the past decade, graduation rates have improved while dropout rates have declined, reflecting the strong partnership among students, families, District staff, and the broader community.

The District, a pre-kindergarten through twelfth-grade district, was formed in 1960 following a community vote to unify 12 elementary school districts and one high school district. It opened with 24 schools and just under 10,000 students. By 1980, the District had added ten elementary schools, six middle schools, one high school, and supporting facilities including a transportation center, a maintenance facility, and an administration center. Student enrollment had doubled to over 20,000 at that time.

The next two decades brought continued growth, with enrollment reaching 33,324 students by 2000 - a 65.8% increase from 1980. The District also added eight schools, including two option schools: Arts and Communications Magnet Academy (ACMA) and Merlo Station High School. By 2009, the District had opened another four elementary schools, including two K-8 schools and two additional option schools.

In 2015, voters approved a \$680 million capital construction bond, funding significant infrastructure investments. One project included a new middle school in the northern part of the District, which served temporarily as a swing school while the three elementary schools and one option school were rebuilt. That building opened as a middle school in the fall of 2021. In the fall of 2017, the District opened a new elementary school and a new high school, as well as reopened the first elementary teardown and rebuild. The second elementary rebuild opened in August 2018, and the third elementary rebuild opened in September 2019. The final rebuild opened for the 2021-22 school year.

The District celebrated 60 years of operations in 2020 with enrollment nearly quadrupling since its founding, however was projected to begin a declining enrollment phase. The COVID-19 pandemic sped up the initial enrollment loss, with a decline of 4.8% from 2019-20 to 2021-22. Since then, the District has experienced an average of between one and two percent declines in enrollment each year, which is expected to continue at this rate for the next several years. During the 2025-26 school year, the school board took action to consolidate the District’s smallest elementary school, McKay Elementary, with two other neighboring schools, including the newly rebuilt Raleigh Hills Elementary. In the 2026-27 school year, the District will operate 32 elementary schools, one K-8 school, nine middle schools, six high schools, four middle/high option schools, and one K-12 online option school - all supported by Central Support Services. A complete list of schools and enrollment can be found in the Informational Section of this document. The District employs over 5,000 people, of which 52.8% are teachers and other licensed staff. Among

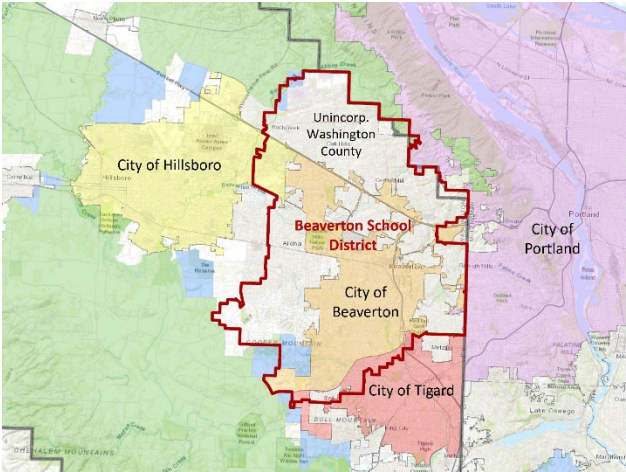

District educators, 88.1% hold a master’s degree or higher, and the average teacher has 10.6 years of experience in BSD classrooms.

The Beaverton School District is a financially independent, special-purpose municipal corporation responsible for public education within its boundaries. In accordance with United States generally accepted accounting principles (GAAP), all significant activities and organizations are reflected in the District’s financial statements.

The District spans more than 57 square miles, primarily within Washington County, and is located approximately 10 miles west of Portland, Oregon. It serves the residents of Beaverton and surrounding communities and is the third largest school district in the state. As of July 1, 2024, the population of Beaverton was approximately 98,302 with a median household income of \$98,622 ([U.S Census Bureau’s QuickFacts](#)).

Fall 2025 enrollment was 37,080. Official enrollment counts are reported annually on October 1 and submitted to the state in November, following a data confirmation process. Each student is counted only once, regardless of the number of schools or programs they attend.

Between the fall of 2014, with an enrollment of 39,910, and the fall of 2025, with an enrollment of 37,080, the District has experienced an enrollment decline of approximately 7.1%. During the past 10 years, enrollment growth slowed leading up to the COVID-19 pandemic, with just 0.5% to 2.0% increases year to year until 2019-20. During the pandemic, the District experienced an enrollment decline of 4.0%, followed by an average 1.3% decline each year after. The District is projecting declining enrollment through 2029-30 based on cohort survival history, current and projected housing development, and overall regional economics.

The Beaverton School District Board, elected by a majority of the voting electorate, is the governing body responsible for the District’s policy decisions. The seven-member Board has oversight responsibility and control over all activities related to the District. The Board is accountable for all fiscal matters that significantly influence operations.

Located in northwestern Oregon, Washington County is one of the six counties that comprise the Portland-Vancouver-Hillsboro Primary Metropolitan Statistical Area (PVH-PMSA). The six counties are Washington, Multnomah, Clackamas, Yamhill, and Columbia in Oregon and Clark in Washington. According to the Population Research Center of Portland State University, Multnomah and Washington counties together have one-third of the State of Oregon's population. Washington County's three largest cities are Beaverton, Hillsboro, and Tigard. Because the District lies within the PVH-PMSA, economic and demographic data is not available specifically for the District. Data is generally available for Washington County and for the PVH-PMSA.

Currently, manufacturing accounts for 17% of the total non-farm employment in the PVH-PMSA, while trade, transportation, and utilities also account for 18%, government jobs 8%, professional and business services 18%, education and health services 13%, and leisure and hospitality 9%. A major manufacturing employer in the Beaverton area is Nike, an athletic footwear and apparel manufacturer with its 286-acre world headquarters campus located in Washington County.

The PVH-PMSA relies heavily on manufacturing, high technology industries, wholesale trade, and financial activities. According to the Oregon Employment Department, at the end of June 2024, the PVH-PMSA unemployment rate was 3.9%, compared to the Oregon unemployment rate of 4.1% and the nation’s rate of 4.0%.

STRATEGIC PLAN – In May 2023, the School Board approved a new strategic plan that will guide the District’s work and shape its budget over the next several years.

The plan’s framework was co-developed through an inclusive, intentional process that began with student voice and incorporated broad community input and the contributions of multiple stakeholder committees. Thousands of students, families, staff and community members engaged through committees, focus groups and surveys. More than 7,000 individuals responded – providing critical insights that helped shape the plan’s promise, vision, and goals.

The goal of this collaborative process was to develop a shared vision for the future of Beaverton schools—one that supports the long-term success of every student. The resulting strategic plan provides a roadmap for aligning District resources, improving equitable student outcomes, and ensuring accountability to the community.

The plan clearly articulates the District’s promise, vision, mission, values, and goals—all centered on creating conditions for student success.

District Promise:

BELONG. BELIEVE. ACHIEVE.

We are committed to creating an environment in which our students feel a deep sense of belonging to their school communities – where they are accepted, supported, and encouraged to be their authentic selves.

We believe in our students’ capacity to learn, grow, and thrive, and we want our students to believe in themselves and their limitless potential.

We hold our students to high academic standards and provide them with the support to achieve their own personal goals – now and in the future.

District Vision:

Our Vision

In Beaverton School District, we envision every student saying:

- I belong, and I matter.
- I believe in myself, and my community believes in me.
- I am an informed and engaged member of my community.
- I am challenged, supported and successful in my learning.
- I feel connected to my learning, to my peers and to the adults in my school.
- I see a future I want, and I know how to achieve it.

District Mission:

Our Mission

Beaverton School District promotes a deep sense of belonging while challenging, supporting and inspiring all students to explore their passions, achieve their goals and graduate ready to thrive in college, careers and life.

District Values:

Our Values

Academic Excellence

We challenge each student with rigorous, relevant and standards-based learning experiences. We provide quality feedback to each student that cultivates critical thinking, curiosity, engagement and growth. Together, we help students envision and prepare for their future success.

Belonging and Dignity

We center equity in our relationships, actions, systems and outcomes. We honor the dignity and voices of our students, families, staff and community members. Individual identities are visible, valued, nurtured and celebrated.

Community Connections

We build on the experiences and strengths of our students, families, staff and community members to connect with our local and global communities. We show care for and commitment to our community through gratitude and service.

The strategic plan identifies four main goal areas to support student success, as well as target outcomes and actions to achieve them:

- Safe & Thriving
- Foundations of Success
- Progress on Standards
- College & Career Ready

Foundational building blocks for the District's efforts are:

- Engaging and Effective Teaching and Learning Systems
- Authentic Engagement with Students, Families and Community
- Facilities and Programs for World-Class Learning
- Effective Systems and Structures for Student Success

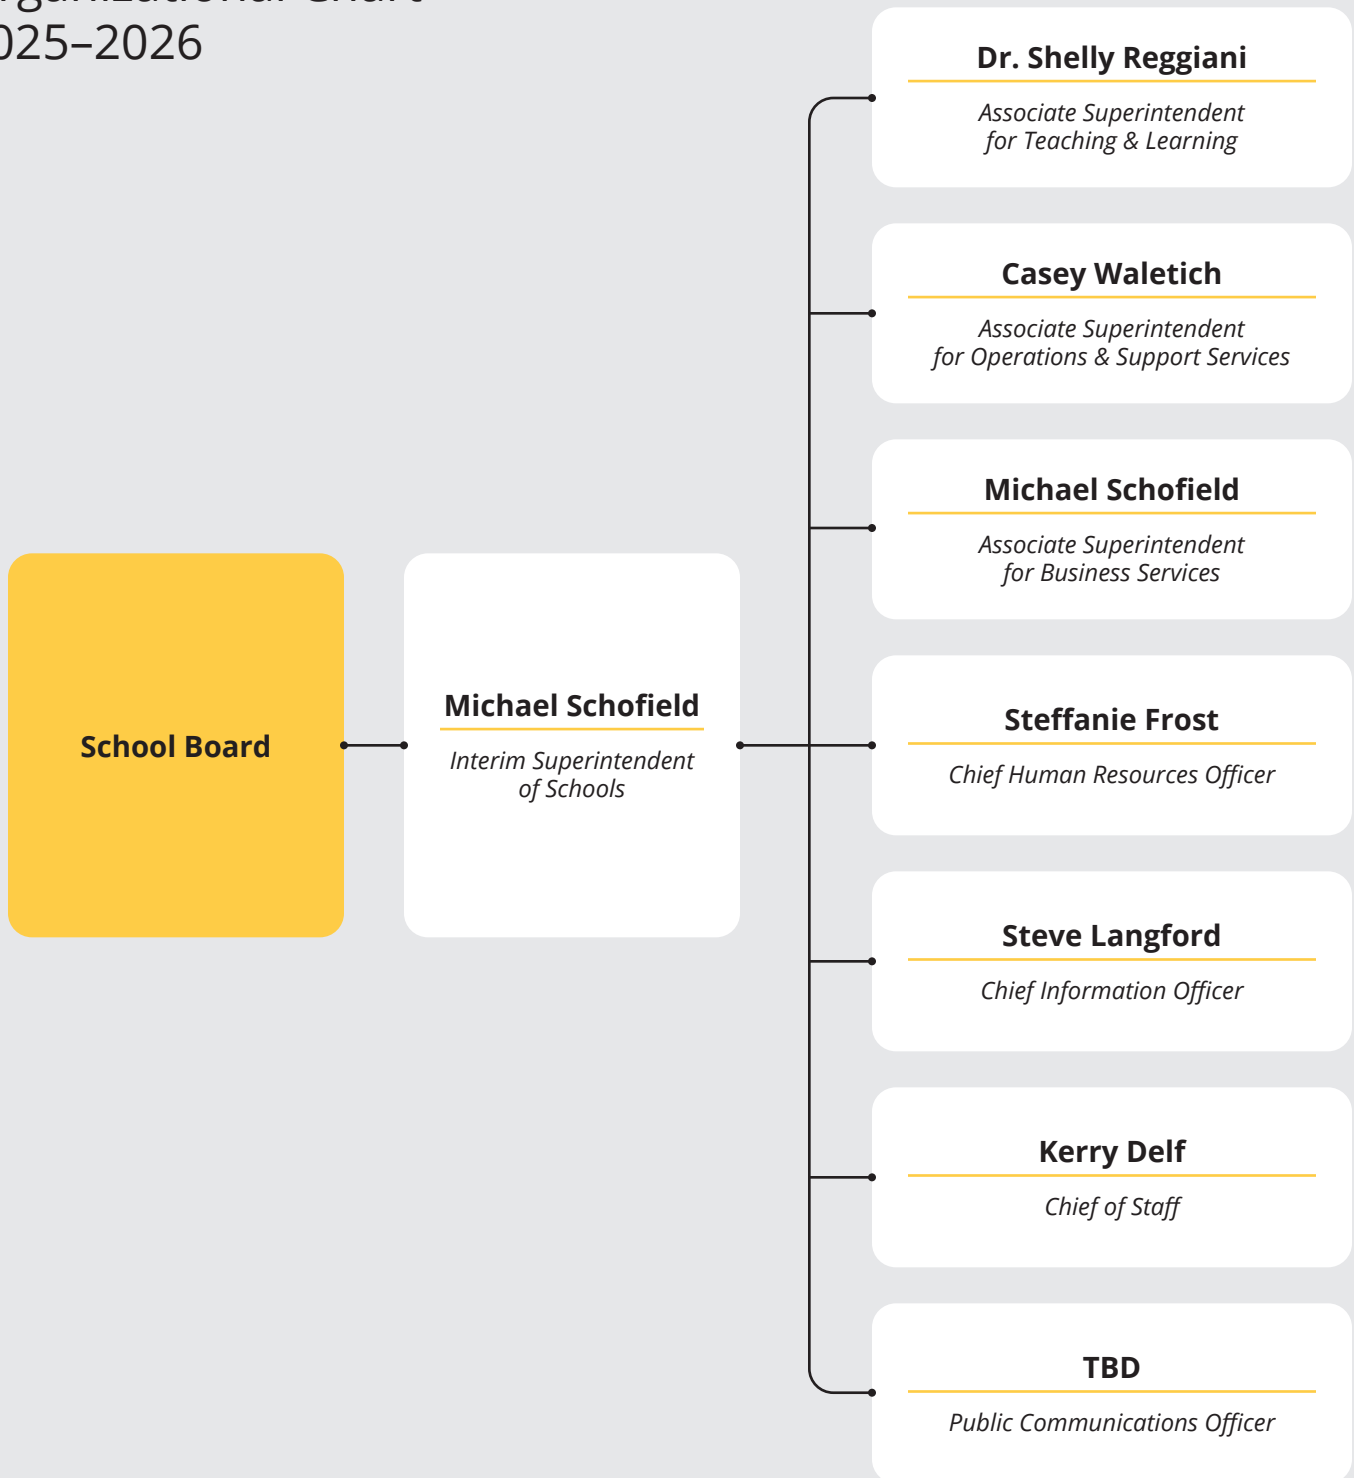

Equity, engagement, and excellence underpin all these foundations and goals.

CENTRAL SUPPORT SERVICES includes the Superintendent’s Office, Business Services, Information & Technology, Human Resources, Communications & Community Involvement, Legal Services, Office of Equity & Inclusion, Teaching & Learning, Associate Superintendent for Support Services, Facilities Development, Maintenance & Custodial Services, Long-Range Planning, Nutrition Services, Public Safety, and Transportation. Each department within Central Support Services is aligned to the District’s strategic plan. Their collective goals and objectives are focused on providing the infrastructure, resources, and operational support necessary to ensure student success and advance the District’s long-term vision.

Summary of Major Department Responsibilities

The Superintendent is the chief executive officer of the District and leads the implementation of the strategic plan. In this role, the Superintendent provides executive leadership and administrative oversight for all Beaverton School District schools and central services and is responsible for proposing and executing long-range planning initiatives.

Operating under the direction of the School Board, and in accordance with Board policies and state law, the Superintendent advances the District's vision and mission by guiding schools, staff, departments, programs and operations. The Superintendent's Office also includes the Chief of Staff, who supports this leadership work and ensures alignment across the organization, as well as overseeing communications, legal services, policy development, public records and complaint processes.

At the time of budget development for the 2026-2027 school year, the District is led by Michael Schofield as Interim Superintendent. The District's previous Superintendent, Dr. Gustavo Balderas, announced in May 2025 that he had accepted the position of Superintendent for the Puget Sound Educational Service District in Washington and would transition to his new role during the 2025-2026 school year. The School Board appointed Associate Superintendent for Business Services Michael Schofield to serve as Interim Superintendent from February through June 2026. Following a nationwide search, the School Board announced the selection of Dr. Anthony Smith to be the District's next superintendent effective July 1, 2026.

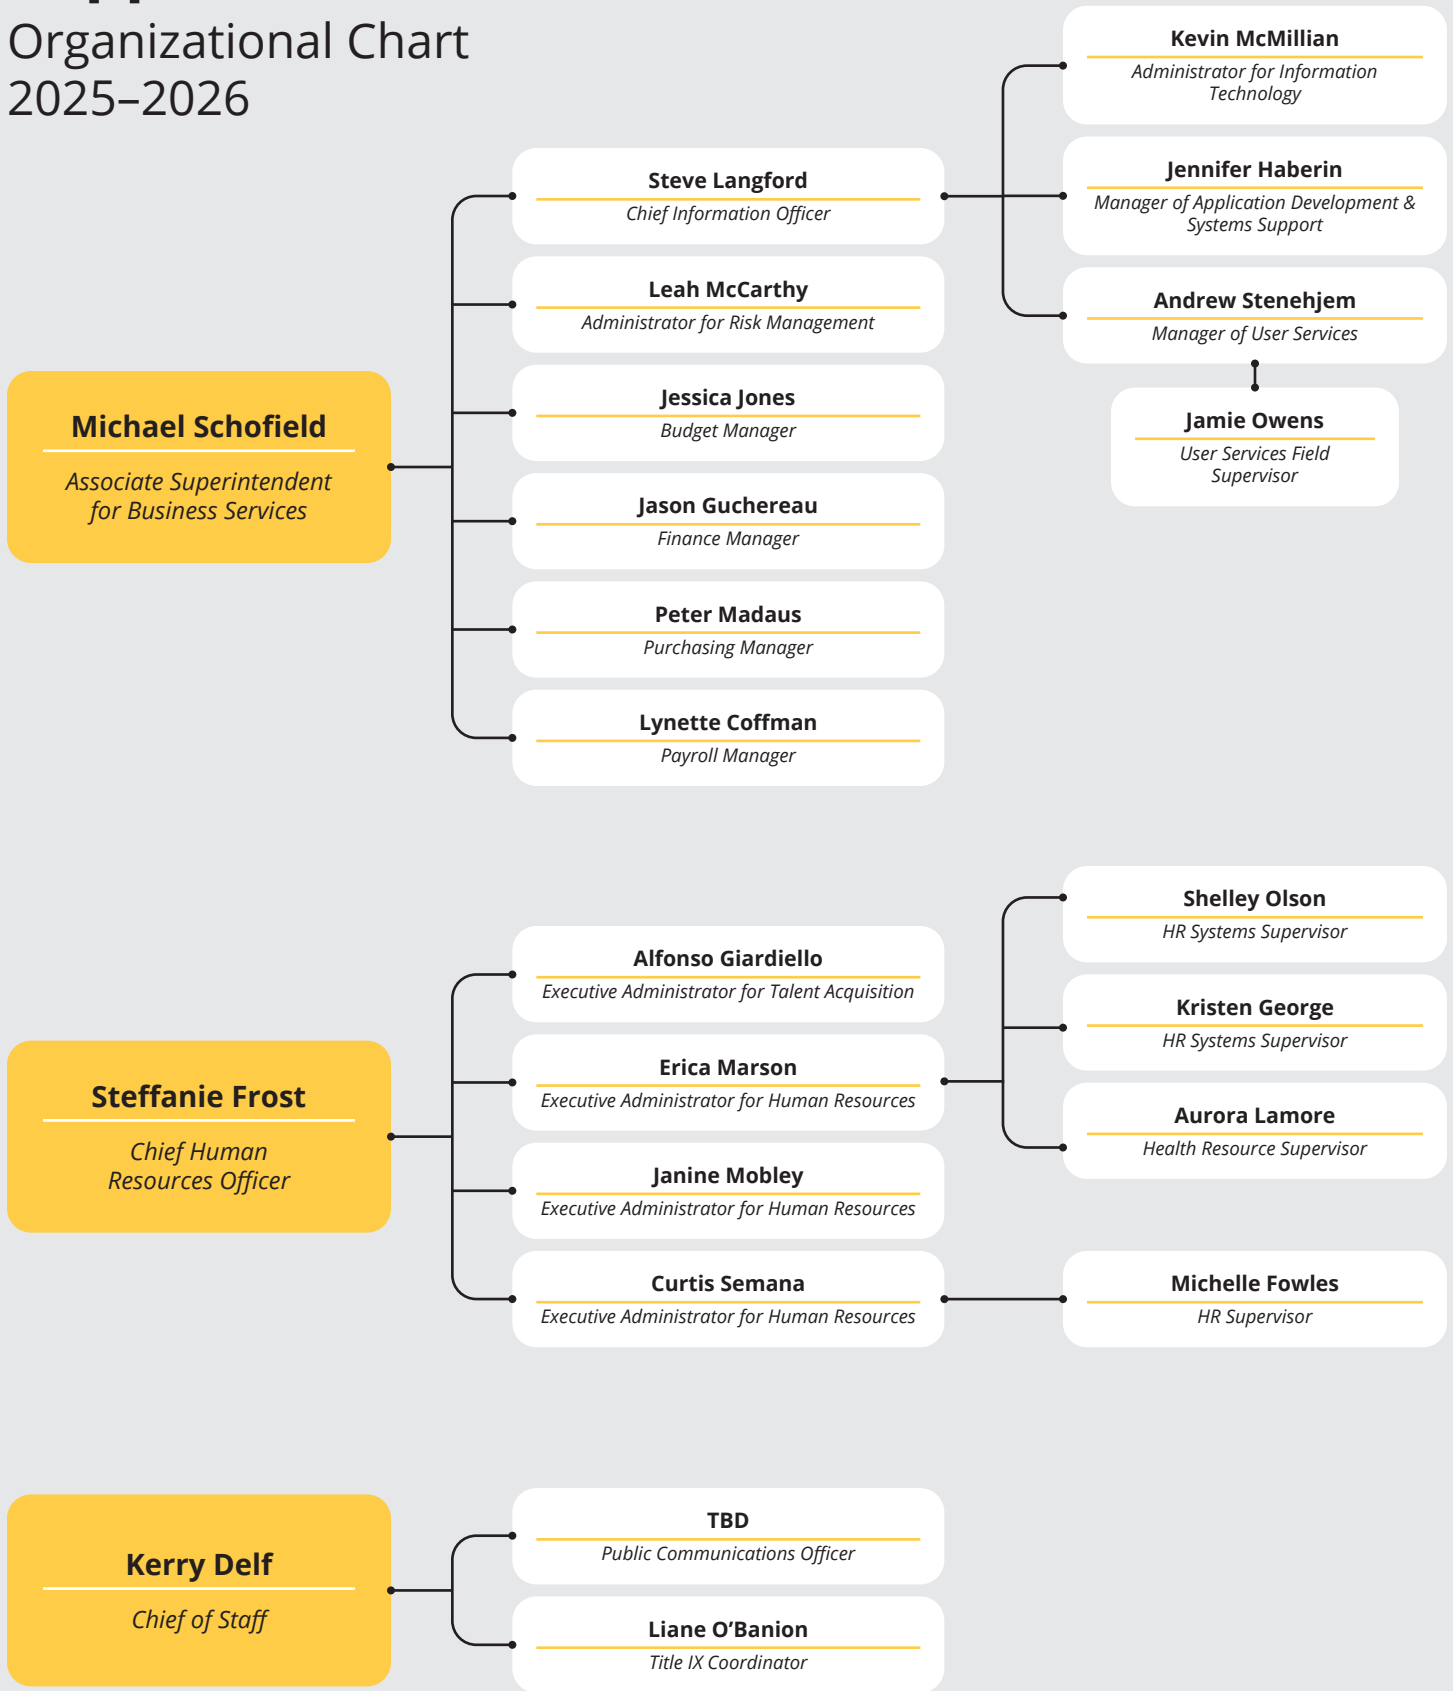

Significant Budget Changes:

In the 2026-27 budget, the Superintendent’s Office eliminated two leadership positions, in-house legal counsel and Title IX manager. Legal support will now be referred as needed to outside counsel. Title IX coordination will be supported by other district staff as part of their duties.

All Risk Management expenses are held outside of the General Fund in the Insurance Reserve Fund and the Workers' Compensation Fund.

Summary of Major Department Responsibilities:

The Business Services Department provides essential support for the financial and operational health of the District. Responsibilities include budget development, resource management, purchasing, accounting, financial reporting, payroll, and risk management. All work is grounded in the District's strategic priorities and focuses on responsible stewardship of public resources. All functions and initiatives of the Business Services Department are aligned with the District's strategic plan foundational building block of *Effective Systems & Structures for Student Success*, ensuring the operations support equitable, efficient, and sustainable educational outcomes.

Recent/New Programs and Initiatives:

- Successfully completed an external audit, receiving an unmodified opinion with no comments.
- Earned the Association of School Business Officials International (ASBO) Meritorious Budget Award for the 15th year and the Government Finance Officers Association (GFOA) Distinguished Budget Presentation Award for the 11th year for the 2025-26 budget document.

- Awarded the Certificate of Achievement for Excellence in Financial Reporting from the GFOA for the 44th year and the ASBO Certificate of Excellence in Financial Reporting for the 43rd year for the 2023-24 ACFR. Notification is pending for the 2024-25 ACFR submission.
- In collaboration with Information Technology and Human Resources, continue the implementation of the District's new Enterprise Resource Planning (ERP) system (Project New Horizons). Business operations launched in January 2026 in phase 1, and payroll and HR functionalities are scheduled for summer 2026 in phase 2.
- Continued development of the District's Academic Return on Investment (AROI) framework to strengthen connections between financial investments, staffing decisions and student outcomes, supporting data-informed decision-making.
- Advanced practices to better align budget development, financial monitoring, and reporting with the District's Strategic Plan and priority investments, including High School Success (HSS) and Student Investment Account (SIA) programs.

FY 26-27 Objectives:

- Continue aligning financial resources with Strategic Plan priorities, ensuring budget decisions support instructional goals, equity commitments, and long-term sustainability.
- Provide financial oversight and guidance for Student Investment Account (SIA), Student Success Act (SSA), and High School Success (HSS) programs to support compliance, transparency, and effective use of resources.
- Further integrate AROI analysis into budget development and decision-making processes to inform resource allocation and evaluate the impact of investments on student outcomes.
- In collaboration with Information Technology and Human Resources, complete Phase 2 of the ERP implementation, including payroll and HR modules, and support system stabilization and staff adoption.
- Develop and adopt a budget that reflects District priorities, supports the Strategic Plan, and positions the District to respond to evolving enrollment, funding, and operational needs.

Significant Budget Changes:

Effective for the 2026-27 school year, several budget and accounting support for District departments has been reconfigured to report to the Business Office, including a transition of FTE from other departments. This change in organization is designed to provide more collaborative and cohesive budget and accounting services to District departments, in addition to the services already provided to schools. Aside from the positions included in the reorganization, the Business Office reduced 1.0 FTE as part of the District Office budget reductions.

Additionally, unemployment costs continue to increase related to Senate Bill 489 (SB 849), which allows unemployment benefits during school breaks for nonprofessional education workers. SB 489 was passed during the 2023 legislative session and the District noted modest increases in the first year. Since then, the costs continue to rise each year. These costs are recorded in the Risk Management Department and are funded outside the General Fund.

*Staffing information is actuals as of 3/31/26 and Financial Data is working budget as of 3/31/26

Summary of Major Department Responsibilities:

The Information Technology Department designs, builds, maintains, and enhances technology systems that support both student learning and District operations. The Department’s work enables the effective use of digital tools across classrooms and central services while exploring innovative solutions to improve outcomes. The Department also plays a key role in evaluating and integrating new technologies to support the District’s goal of academic success for all students. All functions and initiatives of the Information & Technology Department are aligned with the District’s strategic plan foundational building blocks—including *Engaging & Effective Teaching & Learning Systems*, *Authentic Engagement with Students, Families & Community*, *Facilities & Programs for World-Class Learning*, and *Effective Systems & Structures for Student Success*—ensuring technology efforts advance equitable, efficient, and sustainable educational outcomes.

Recent/New Programs and Initiatives:

- **Project New Horizons:** In collaboration with the Business Office and Human Resources departments, IT replaced the District's Enterprise Resource Planning (ERP) system. The new system is aligned to standard business processes and uses automation to reduce time-consuming manual and paper-based processes, saving staff time.
- **Cyber Security Assessment:** Completed third party assessment of IT cyber security policy and practices.
- **Network Switch Replacement:** Finished a multi-year project to replace over 1,000 network switches used in all schools and district facilities.
- **Network Transition to Dark Fiber:** With the completion of phase 3 of the transition to a dark fiber network, all district sites are now on a long-term, leased fiber optic network providing a lower cost solution for district connectivity over the next 10 years. In addition to the ability to scale to meet future network needs, ownership of the network allows IT staff to best secure and optimize the network.
- **Synergy Special Education Implementation:** Transitioned from ORSPED to Synergy Special Education platform supporting students receiving special education services.
- **Identity Management Solution:** Migrated staff accounts to a new identity management platform, increasing both functionality and security.
- **Generative Artificial Intelligence (AI) Responsible Use:** In collaboration with Teaching and Learning, developed the AI Responsible Use Guide for staff and students. On-going training is in process.
- **Help Desk Application:** Added central departments to the unified Help Desk system, creating a single portal to streamline staff support across IT and other departments.
- **District Community Communications Platform Launch:** In partnership with CCI, IT launched the Let's Talk/Onflo platform. The tool provides an intuitive and simple way for community members to engage with District departments and includes an AI-driven chatbot to answer frequently asked questions.

FY 26-27 Objectives:

- **Wireless Network Upgrade:** Redesign wireless network and replace over 3,000 wireless access points district-wide.
- **Firewall Replacement:** Replace firewalls which are a critical part of the district cybersecurity defenses.
- **Project New Horizons Stabilization:** Implement remaining modules of the ERP and stabilize the system through the first year of use.
- **2027 Student Device Replacement:** In partnership with Teaching and Learning, research student and staff needs in preparation for the bond -funded high school student device replacement in 2027.

Significant Budget Changes:

The 2026-27 all funds budget is lower due to the cadence of the Learning Technologies spending forecast in the 2022 capital bond. The last round of student devices were purchased during the 2024-25 year and purchases are intentionally planned to be lower for the next fiscal year. Budget reductions also required elimination of some software applications used by staff and students.

Human Resources

Administrator: Steffanie Frost

Services: Human Capital Management, Employee Recruitment and Hiring, Benefits Support, Labor Relations, Employee Compensation, Leaves, Absence Management, Substitute Management, Employee Contracts, Position Control

*Staffing information is actuals as of 3/31/26 and Financial Data is working budget as of 3/31/26.

Summary of Major Department Responsibilities:

The Human Resources (HR) Department is responsible for managing the District’s human capital systems, including recruitment, hiring, retention, and ongoing support of high-quality staff. HR plays a critical role in advancing the District’s commitment to workforce diversity, ensuring that the staff reflects the rich diversity of our student population.

In addition to leading efforts around supervision, coaching, evaluation, and performance management, HR manages employee benefits and wellness services, supports compliance with state and federal employment laws, and oversees all aspects of labor relations. The Department also partners with the Business Office to ensure accurate and timely compensation for all employees. All functions and initiatives of the Human Resources Department are aligned with the District’s strategic plan foundational building block of *Effective Systems & Structures for Student Success*, ensuring that HR practices support equitable, efficient, and sustainable educational outcomes.

Recent/New Programs and Initiatives:

- Implemented contractual changes related to negotiated agreements, including salary adjustments and retroactive pay.
- Continued comprehensive support for employee leave administration, including federal, state, and contractual leave programs.
- Continued collaboration with Business Services and Information Technology on the implementation of the District's new ERP system. HR functionalities are scheduled to launch in Summer 2026.
- Strengthened recruitment pipelines through partnerships with local agencies, higher education institutions, and professional associations.
- Provided targeted support and coaching for employee supervision and evaluation, including leadership development, performance improvement, and conduct investigations.
- Redefining and enhancing support structures for new teachers and interns to accelerate and consolidate their professional capacities, improve onboarding experiences, and promote long-term retention.
- Continued to refine departmental approaches to efficiency, customer service, and internal workflows to streamline processes and improve the overall experience for both internal and external customers.

Major Departmental Challenges:

- The number and complexity of employee leave cases have increased significantly.
- Declining enrollment and the expiration of temporary state and federal funding have created staffing uncertainties. HR plays a key role in guiding leaders through these transitions to ensure the effective and equitable management of personnel resources.
- Workforce diversification remains a challenge, even in less competitive labor markets. Supporting a high-quality diverse workforce that more closely reflect the student population, particularly within the teaching workforce, continues to require intentional, sustained recruitment and retention strategies.

FY 26-27 Objectives:

- Negotiate a fair and sustainable successor contract with the Beaverton Education Association (BEA) for our licensed staff and a one-year economic re-opener with the Oregon School Employees Association (OSEA) for our classified staff.
- Continue implementing Paid Family Medical Leave Insurance (PFMLI) in compliance with Oregon law and integrate it with other leave programs.
- Expand and strengthen recruitment partnerships and identify new avenues to build robust candidate pools.
- Support program expansion efforts in dual language, early learning, and career and technical education (CTE) by attracting staff with the necessary expertise and credentials.
- Collaborate with Business Services and Information Technology to continue development of the District's new ERP system, with HR/payroll functions scheduled for initial launch in the Summer of 2026. Additional modules will be implemented throughout the 2026-27 school year.
- Continued collaboration with Teaching & Learning leaders to ensure staff and students experience a supportive and successful learning environment in every location.

Significant Budget Changes:

The HR Department continues to operate with a very lean budget relative to the size of the organization and the volume of services provided. The Department is also undergoing an organizational restructuring aimed at increasing efficiency and enhancing customer service. As the complexity and volume of HR responsibilities continue to grow, these changes are designed to better position the Department to meet the evolving needs of employees and leadership across the District without increasing the budget or staffing of the department.

Communications & Community Involvement

*Staffing information is actuals as of 3/31/26 and Financial Data is working budget as of 3/31/26.

Summary of Major Department Responsibilities:

The Communications & Community Involvement (CCI) Department is dedicated to delivering accurate, clear, timely, and transparent information to students, families, staff, community members, and media partners. CCI also provides opportunities for meaningful engagement with the community and works in close collaboration with schools and departments to promote and support the District’s strategic priorities. All functions and initiatives of the Communications

& Community Involvement Department are aligned with the District’s strategic plan foundational building blocks—including *Engaging & Effective Teaching & Learning Systems*, *Authentic Engagement with Students, Families and Community*, and *Effective Systems & Structures for Student Success*—ensuring that communication and engagement efforts contribute to equitable, inclusive, and effective educational outcomes.

Recent/New Programs and Initiatives:

- CCI spearheaded a yearlong, districtwide initiative focused on student mental health and well-being called Believe You Matter, which included three focus areas: suicide prevention, social media and digital wellness, and sleep health.
- CCI produced 164 videos during the 2024-25 school year, showcasing every school and department. The team also developed a five-part video series explaining the long-range facilities planning process.
- Clothes for Kids served a record number of students during the 2024-25 school year, with more than 5,000 visits and approximately 150,000 items distributed. The program receives no direct financial support from the district and has increased its sustainability through sponsorships and surplus sales.
- CCI coordinated the establishment of food pantries at all 54 school sites plus the Community Transition Program and Early College to support families facing food insecurity, especially during the temporary suspension of SNAP benefits, in addition to its ongoing food markets supported by Oregon Food Bank and Urban Gleaners.
- CCI expanded its long-standing partnership with Tualatin Hills Park & Recreation District. THPRD hosted monthly donation drives at all centers—collecting prom dresses, clothing, coats and shoes for Clothes for Kids and hygiene items and laundry pods for the McKinney-Vento program.
- CCI earned state awards from the Oregon School Public Relations Association for its Kindness Counts social media campaign, video storytelling and labor negotiations website. The team also received national awards from the National School Public Relations Association for marketing materials and website design.

Major Departmental Challenges:

- With the exception of a part-time program coordinator, Clothes for Kids is staffed entirely by volunteers. The program currently serves families three days a week and requires a minimum of 20 volunteers each day to meet demand. As need has increased, so has the challenge of growing and sustaining the volunteer base.
- In partnership with IT, CCI supported the rollout of Let’s Talk/Onflo, a unified service desk and customer engagement platform designed for school districts. The tool includes an AI-driven chatbot to answer frequently asked questions and a contact feature that routes users directly to the appropriate department. Next year, it will extend to schools, improving accuracy, response time and overall service quality.

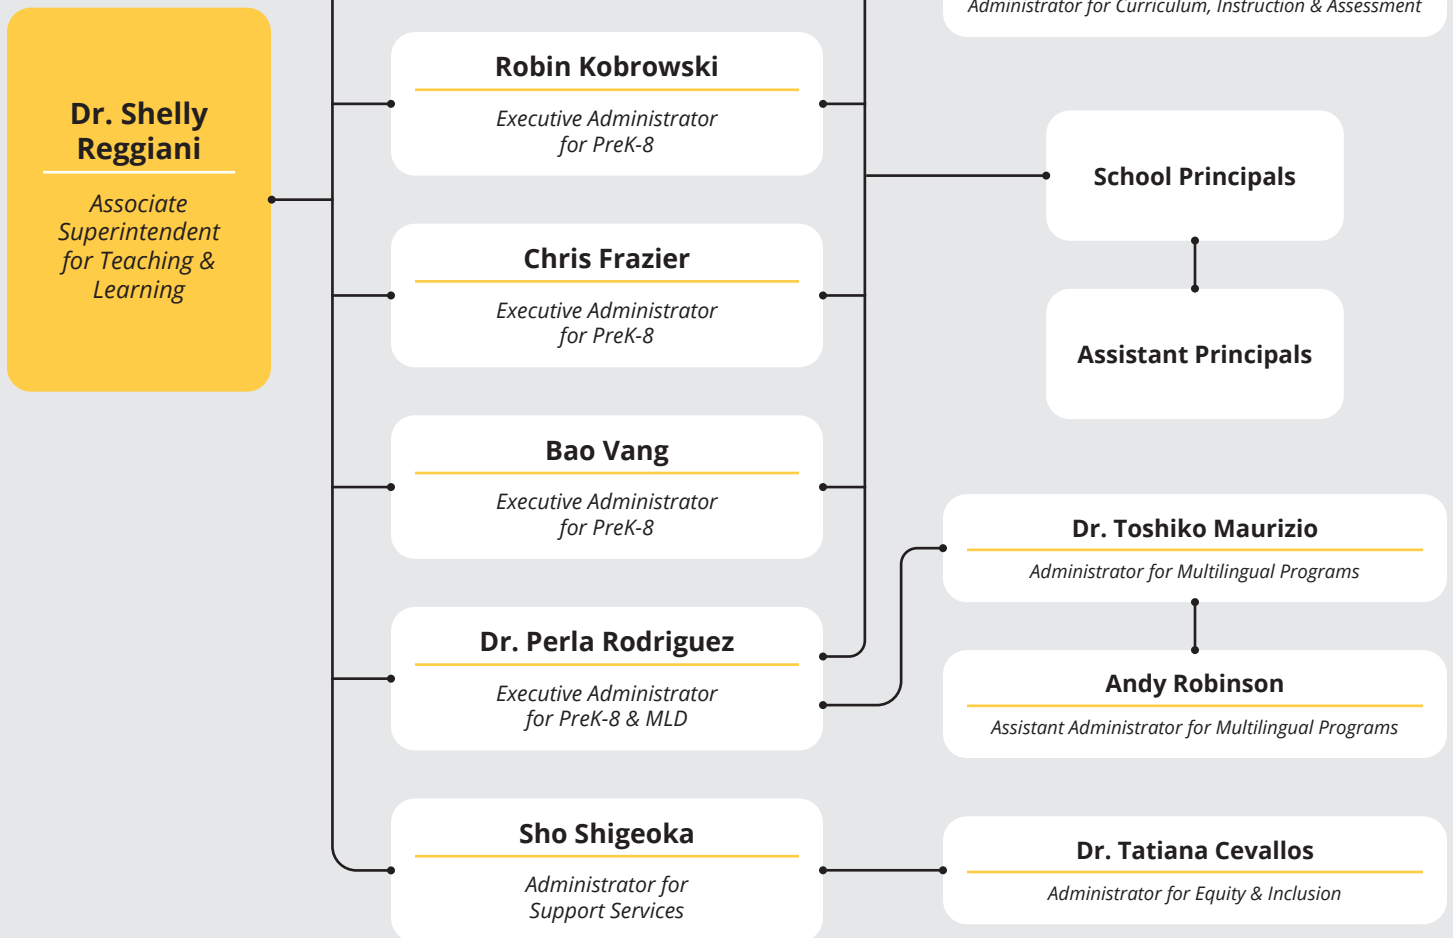

Significant Budget Changes:

No major changes in the 2026-27 budget.

Teaching & Learning

*Staffing information is actuals as of 3/31/26 and Financial Data is working budget as of 3/31/26.

Summary of Major Department Responsibilities:

The Teaching & Learning Department encompasses a broad range of teams, including Curriculum, Instruction & Assessment; Executive Administrators who support all building principals; Special Education; Assessment & Accountability; and Multilingual Supports. Across all areas, the department's primary focus is to provide high levels of support to school leaders and staff as they educate and care for students and their families. All functions and initiatives of the Teaching & Learning Department are aligned with all areas of the District's strategic plan goals and foundational building blocks, ensuring that instructional and student support systems promote equitable, inclusive, and high-quality educational outcomes for all students.

Recent/New Programs and Initiatives:

In 2025–26, the department concentrated on implementing the newly adopted K-12 Language Arts and English Language Proficiency (ELP) curriculum, while strengthening existing instructional efforts aligned with the District's Strategic Plan. A central focus was the district-wide implementation of a Multi-Tiered System of Supports (MTSS), a multi-year initiative designed to enhance instructional quality and equity. This work included universal screening in Reading, Mathematics, and Social Emotional Learning (SEL) across grades Pre-K–12, along with professional development aimed at deepening staff

expertise in data literacy and effective Tier 1 instruction (*Progress on Standards, Engaging & Effective Teaching & Learning Systems, Effective Systems & Structures for Student Success*).

The department supported a complete K–12 Mathematics instructional materials adoption, (to be presented to the board for consideration and adoption in the Spring of 2026). Tier 2 interventions across all content areas and grade levels continued, and initial development of Tier 3 interventions began (*Progress on Standards, Engaging & Effective Teaching & Learning Systems, Effective Systems & Structures for Student Success*).

Another priority has been the continued expansion of the District’s Dual Language programs (*Foundations of Success, Engaging & Effective Teaching & Learning Systems*). In the 2025-26 school year, the District continued to grow, strengthen, and expand access to existing dual language programs so more students are able to participate in these programs.

- Jacob Wismer grew its Mandarin Chinese dual language program to first grade, and expanded enrollment access and transportation to students residing in the Sato and Springville attendance areas.
- McKinley grew its Spanish dual language program to first grade, and expanded enrollment access and transportation to students residing in the Kinnaman attendance area.
- William Walker grew its Spanish dual language program to second grade.
- Aloha-Huber Park expanded its existing Spanish dual language program in third grade, increasing from two to three dual language classrooms, and expanded enrollment access and transportation to students residing in the Erroll Hassell and Chehalem attendance areas.

Future growth of the dual language program will continue to add grade levels as cohorts of students move through the school system.

In alignment with the District’s Strategic Plan, career technical education (CTE) programming continued to be enhanced and expanded, with continued efforts to align opportunities for access to high-demand, high-wage career pathways for all district students (*Progress on Standards, College & Career Ready, Engaging & Effective Teaching & Learning Systems*). The 2025-26 school year included:

- Continued investment of funds to remove the barrier of course fees for CTE classes.
- Implementing the CTE Program of Study state requirement for graduation.
- Partnering with Washington County and Beaverton Chambers of Commerce to provide on-site career-connected learning events, industry site visits, and CTE program-specific work-based learning experiences.
- Onboarding a collaborative database platform to identify and engage with a network of regional industry partners interested in providing career-connected and work-based learning experiences for our students.
- Providing tours of all district CTE option programs to high school counselors, college and career center staff, and student advocates to inform their support of students and families during course selection processes.
- Development of promotional materials and campaign for district-wide CTE option programs.

Plans for the 2026-27 school year include (*Progress on Standards, College & Career Ready, Engaging & Effective Teaching & Learning Systems*):

- Continue implementation of the new behavioral health district-wide CTE option program.
- Continue expansion of the manufacturing district-wide CTE option program.
- Introduce a new electrical trades program coinciding with the opening of the new Beaverton High School.

- Continue integration of the new higher education and career path skills graduation requirement within CTE programs of study.

Pre-kindergarten programs also expanded in 2025–26, including the addition of a program at Raleigh Park. The District now operates pre-K in all Title IA schools except Raleigh Hills, which will be added with the opening of the new building in fall 2026. (*Foundations of Success, Engaging & Effective Teaching & Learning Systems*).

This year, the department continued implementation of BSD’s Engaging Equity professional learning series, a key component of the District’s Strategic Plan. The content aligned with Oregon Department of Education initiatives, including *Every Student Belongs*, and BSD’s foundational work in social-emotional learning and trauma-informed practices. A tailored version of the series has been offered to non-school-based and classified staff to broaden district-wide engagement. The department supported training newly hired teachers at the New Staff Academy, which supports creating a district culture of culturally relevant instructional practices from the first day of instruction. This move also reduced the need for new staff to attend training outside of school, reducing days out of the classroom and the need for substitutes. Additionally, the department supported other district departments in training, such as Transportation and Nutrition Services. (*Safe & Thriving*).

Restorative Practices remain a central focus, emphasizing relationship building, conflict resolution, and inclusive communication. Over 300 staff members participated in Connected Communication workshops, enhancing their skills in de-escalation, culturally responsive interactions, and fostering a positive school climate. Additionally, each school had a team that participated in Restorative Practices training foundations, increasing each school's skill and capacity to support students in strengthening relationships, building social capital, and improving civil society through participatory learning and decision-making. Restorative practices focus on proactively building community and repairing harm when it occurs by doing things *with* people, rather than *to* or *for* them, and serve as a foundational way to create a positive school culture while simultaneously proactively reducing the need for punitive disciplinary measures. These efforts are part of the Tier One school-wide supports. (*Foundations of Success, Safe & Thriving*).

The department continues its partnerships with culturally specific parent groups, including Beaverton Black People’s Union, Padres Unidos (Latinx families), Muslim parents, and Jewish parents. These partnerships include regular engagement meetings to ensure families’ voices are reflected in District decisions. Collaboration with the Multilingual Team has strengthened outreach efforts aligned with District initiatives. The department continues to support culturally specific student engagement activities throughout the District, often in partnership with culturally specific community groups. (*Foundations of Success, Safe & Thriving*).

The McKinney-Vento program continues to serve a growing number of students experiencing homelessness. Services include enrollment support, transportation assistance, access to meals, and connections to social services. Staff collaborate with school personnel and District nurses to ensure students can remain engaged in school and maintain academic progress. (*Foundations of Success, Safe & Thriving*).

Major Departmental Challenges:

In light of ongoing fiscal pressures related to declining enrollment, the department remains focused on building sustainable, aligned systems that maximize resources while advancing the goals of the District’s Strategic Plan. Maintaining high-quality instruction and equitable student supports across all schools remains the department’s top priority.

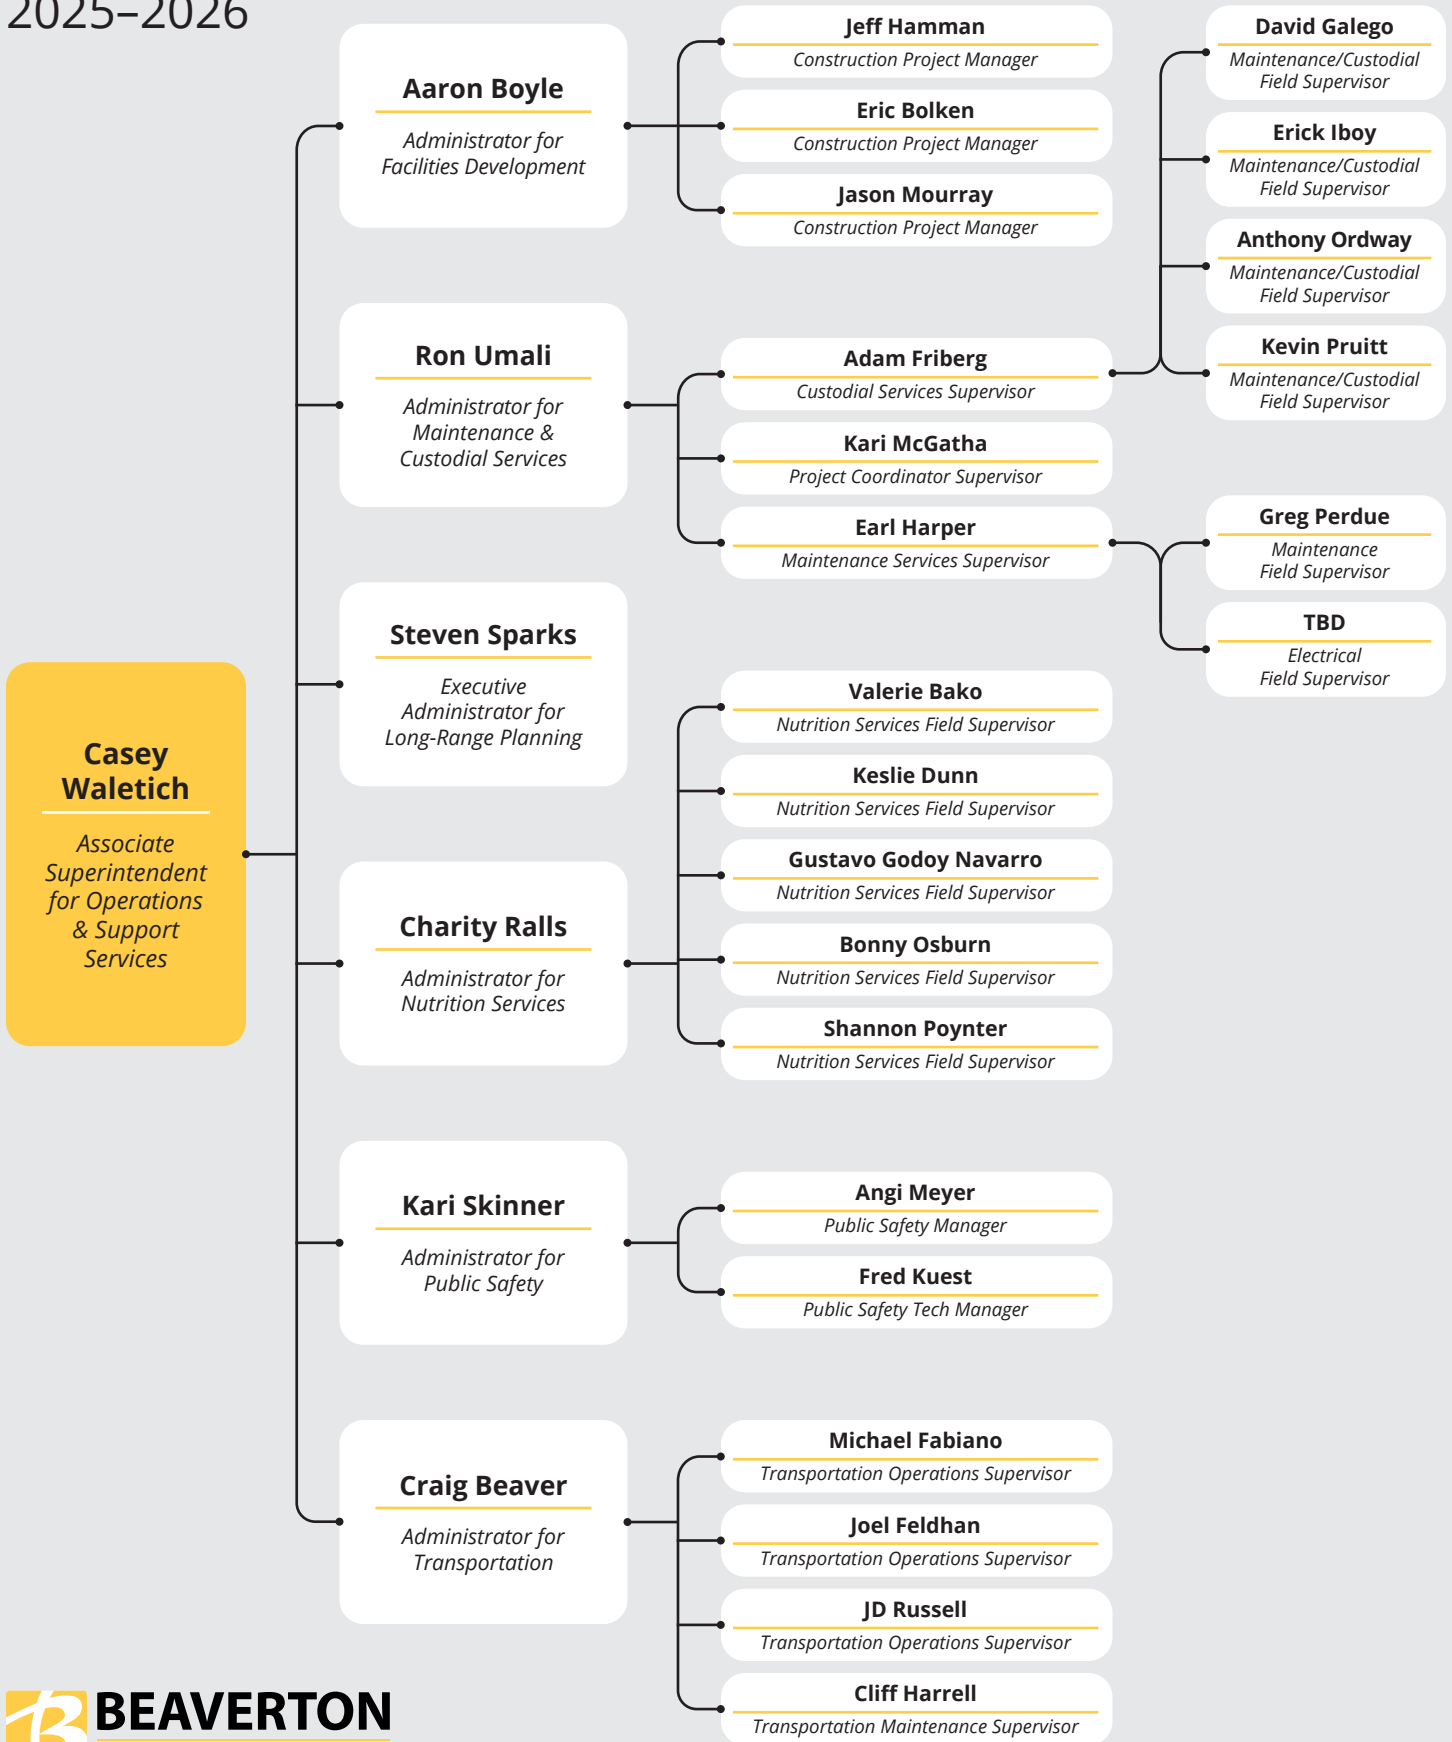

Significant Budget Changes:

Budget challenges are anticipated for 2026–27. The department has identified and will implement several efficiencies to reduce non-salary costs as part of its ongoing efforts to optimize resource use, as well as a reallocation of centrally funded school-program supervision, which will result in a reduction in administrative positions. Additionally, the department continues to monitor the Federal Title and IDEA budgets given changes at the U.S. Department of Education and shifts in funding streams. The 2026-27 school year will result in a reduction in IDEA funding and flat-to-slight reductions in Title funding, presenting challenges of funding the service needs of students in historically underserved populations.

*Staffing information is actuals as of 3/31/26 and Financial Data is working budget as of 3/31/26.

Summary of Major Department Responsibilities:

The Associate Superintendent provides District support to operations and support service departments, which include Facilities Development, Facilities Maintenance, Long Range Facility Planning and Facility Use, Nutrition Services, Public Safety, and Transportation. Additionally, management of the District Office Administration Building (DAO) and the District Support Center (DSC) is supported by the Associate Superintendent's office.

Operations and support service departments include a wide range of crucial functions that directly impact the daily experience of students, staff, and the broader community. These departments help create an environment where educators can focus on teaching, and students can focus on learning, knowing that the operational side of the District is functioning efficiently.

The Facilities Development budget is held outside the General Fund in the Capital Projects Fund, accounting for all Capital Projects funding, including the 2022 Capital Bond program.

Summary of Major Department Responsibilities:

The Facilities Development Department is responsible for the planning, design, permitting, and construction of all capital improvement projects across the District's 64 facilities, which span approximately 5.6 million square feet on 875 acres. The Department manages both bond-funded and non-bond-funded projects, with a primary focus on delivering capital construction projects associated with voter-approved bond measures. All functions and initiatives of the Facilities Development Department are aligned with the District's strategic plan goal of *Safe & Thriving* and the foundational building block of *Facilities & Programs for World-Class Learning*, ensuring that capital projects support safe, modern, and inclusive learning environments for all students and staff.

Recent/New Programs and Initiatives:

Implementation on the 2022 Capital Construction Bond is well underway. As of spring 2026, about 60% of the bond funds have been expended, and over 74% of total bond funding is under contract. Major projects currently in progress include:

- Rebuilding Beaverton High School

- Aloha High School HVAC Replacement
- Seismic and roof replacement at Meadow Park Middle School
- Seismic and roof replacement at Cedar Park Middle School
- District-wide school security enhancements

Several other bond commitments have already been completed, including:

- Sato Elementary Classroom Addition
- Southridge High School Baseball/Softball Artificial Turf Installation
- Aloha High School Office Relocation
- Westview High School Office Relocation
- Springville Outdoor Learning Area
- Five Oaks Middle School Roof and Seismic Upgrades
- District-Wide Technology Modernization
- Southridge High School HVAC Replacement
- Capital Center HVAC Replacement
- Rebuilding of Raleigh Hills Elementary
- Gym and classroom additions at Stoller Middle School
- Seismic and deferred maintenance upgrades at Mountain View Middle School

In partnership with the District’s high school career and technical education (CTE) programs, the department has also launched a paid summer internship initiative. This program provides juniors and seniors with direct experience in the construction industry through collaboration with District contractors and architectural firms. Recruitment for the 2026 internship cycle will begin shortly.

Major Departmental Challenges:

The department continues to face industry-wide challenges, including rising construction costs and a shortage of skilled tradespeople. Although careful value engineering and proactive contingency planning have helped reduce the impact of cost escalation, inflationary pressures and potential increases in international tariffs—particularly on goods sourced from Mexico, China, and Canada—remain areas of concern.

The nationwide shortage of skilled labor also poses a risk to project timelines, cost control, and construction quality. These workforce shortages have the potential to affect both large-scale capital projects and day-to-day maintenance operations.

Federal government tariffs have been impacting costs in unpredictable ways.

FY 2026-27 Objectives:

In 2026–27, the department’s highest priority is to successfully complete summer projects with minimal disruption to school operations. This will require coordinated planning, close monitoring of construction progress, and responsive project

management. In the summer of 2026, a significant number of roofing projects are planned. Roofing replacements are among the projects that carry the greatest financial risk and require a high degree of attention and planning.

Also during 2026-27, the department will begin planning for a future bond measure, with the goal of having this information ready in early 2027 so that District leadership can decide how to proceed.

Significant Budget Changes:

In the 2026-27 year, the department will continue spending down the bond proceeds from bond sales related to the 2022 Capital Bond Measure. This will occur over the next several years.

Maintenance, Custodial Services & Energy Resource Conservation

Administrator: Ron Umali

*Staffing information is actuals as of 3/31/26 and Financial Data is working budget as of 3/31/26.

Summary of Major Department Responsibilities:

The Maintenance and Custodial Services department is responsible for the overall management, upkeep, and repair of the District’s real property assets, which include approximately 5.6 million square feet of building space across 64 facilities situated on 875 acres. This work supports the day-to-day functionality and long-term preservation of the District’s infrastructure.

The Energy & Resource Management team leads efforts to conserve resources by managing utility use, coordinating environmental outreach and education, and implementing energy efficiency initiatives. The team works in close collaboration with District departments and external energy partners to support sustainability across all school sites.

All functions and initiatives of the Maintenance and Custodial Services Department are aligned with the District's strategic plan goal of *Safe & Thriving* and the foundational building block of *Facilities & Programs for World-Class Learning*, ensuring that physical environments are safe, well-maintained, and conducive to high-quality teaching and learning.

Recent/New Programs and Initiatives:

To address ongoing staffing challenges in skilled trades, the department recently launched two apprenticeship programs—one for stationary engineers and another for limited maintenance electricians. Participants become registered apprentices in the State of Oregon and receive District-funded support for coursework, materials, and required training. Upon successful completion, apprentices transition into full-time HVAC technician or limited maintenance electrician roles within the District. The department also partnered with Communications & Community Involvement on a social media campaign to help boost the number of applicants for vacancies in these critical positions.

This year, Maintenance Services focused heavily on HVAC preventive maintenance across the District. This work is critical to the reduction in system failures by ensuring critical components are functioning properly and consistently maintained. The department also focused on team efficiency this year, improving services in general maintenance, grounds, and custodial.

Major Departmental Challenges:

Like many districts nationwide, the department continues to experience a shortage of skilled tradespeople. Positions in HVAC, plumbing, and electrical trades remain difficult to fill due to competitive private-sector wages. These staffing gaps limit the District's capacity to respond quickly to maintenance needs and increase reliance on external contractors, whose services are typically more costly and less sustainable over time.

Rising material and labor costs have further strained the department's budget, with some material categories seeing significant increases over the past year. To manage these pressures, the department has prioritized replacement of high-failure equipment using deferred maintenance funding from the 2022 bond, allowing more resources to be directed toward proactive maintenance.

FY 2026-27 Objectives:

The Department will continue working on team efficiency in all areas, which includes maintenance, grounds, and custodial. Process improvements will be implemented as different maintenance groups are realigned to adapt to the changes in the district.

In addition, the department will continue its close collaboration with the Facilities Development project management team to strategically prioritize major maintenance needs and maximize the impact of available resources. The Department will continue to take advantage of energy programs, incentives and rebates to help fund projects to ensure compliance and improve long-term energy efficiency.

Significant Budget Changes:

Over the past several years, the department has experienced ongoing budget reductions. With this year's additional adjustments, we anticipate some changes in how services are delivered within the Maintenance and Custodial Departments.

These cumulative impacts may require the Department to modify certain service levels moving forward. The department remains committed to supporting our facilities as effectively as possible.

Facility Use & Long-Range Planning

*Staffing information is actuals as of 3/31/26 and Financial Data is working budget as of 3/31/26.

Summary of Major Department Responsibilities:

The Long-Range Facility Planning (LRFP) department is responsible for identifying and addressing the District’s current and future infrastructure needs in alignment with its educational goals. This includes developing and maintaining the District’s Long-Range Facility Plan, monitoring student enrollment forecasts and demographic trends, and coordinating with governmental agencies on local development.

The department also oversees the District’s real estate portfolio and manages the facility use program, which coordinates internal and external use of District buildings and grounds. On average, more than 4,500 events and activities are scheduled each month across 53 available sites. The facility use team ensures that space is allocated appropriately, minimizes scheduling conflicts, confirms insurance coverage, assigns custodial support, and invoices users for applicable rental and staffing costs.

All functions and initiatives of the Long-Range Facility Planning Department are aligned with the District’s Strategic Plan goal of *Safe & Thriving* and the foundational building block of *Facilities & Programs for World-Class Learning*, ensuring that facility planning efforts support safe, equitable, and future-ready learning environments.

Recent/New Programs and Initiatives:

In 2025-26 the department revised facility use procedures to make BSD facilities easier to access and more affordable for BSD student groups and resident youth-serving nonprofit organizations, as well as better aligned with comparable districts. The department also successfully implemented a new facility use software program, *Facilitron*, which is a substantial improvement to the prior software program and is used by other districts in the region, ensuring better consistency and experience of use for external users.

The department concluded the community engagement process of a Long-Range Facility Planning Committee in January 2026. Guidelines for future planning to support students’ educational experience based on the recommendations of the committee have been approved by the Board. department actions for 2026-27 will be based in part on these recommendations.

In 2026-27, the department will, consistent with Board direction, begin to conduct studies and appropriate community processes consistent with the work recommended by the Long-Range Facilities Planning Committee. These studies and potential actions include, and may not be limited to, the following:

- Review of Board Policy [FL](#) and Policy [JC](#)
- Attendance boundaries and feeder patterns
- Enrollment trends and building utilization studies

The department will also begin initial work on updating the 2021 Long-Range Facilities Plan. This work will be needed to inform future decisions about school facilities and how they can best serve students and the community. This planning process is focused on understanding and reflecting community values while addressing key topics such as:Community priorities and educational values

- Community priorities and educational values
- Districtwide declining enrollment trends
- Facility capacity and condition
- Educational specifications for school design and programming

Major Departmental Challenges:

A primary challenge for the department is the continued trend of declining student enrollment. This impacts both long-term planning and decisions regarding facility utilization. Additionally, the high demand for facility use—both from within the District and from external community organizations—places pressure on the scheduling and operational support systems.

FY 2026-27 Objectives:

The department will continue advancing the Long-Range Facility Planning process, including community engagement and data analysis, to help guide future decision-making.

Significant Budget Changes:

There are no significant budget changes anticipated for 2026-27.

Nutrition Services

Administrator: Charity Ralls

Services: School Breakfast and Lunch, Supper Meals, Summer Meals,
Grant Funded Nutrition Programs, Meal Benefits

*Staffing information is actuals as of 3/31/26 and Financial Data is working budget as of 3/31/26

All Nutrition Services expenditures are held outside the General Fund, in their own special revenue fund. The Nutrition Services department is a completely self-supporting operation.

Summary of Major Department Responsibilities:

The Nutrition Services department provides nutritious, appealing meals to students while maintaining a self-supporting operation. Breakfast and lunch are offered at all schools across the District, with an emphasis on increasing meal access—particularly for the District’s most vulnerable students. The department ensures compliance with all state and federal requirements for food safety, meal patterns, and nutrition standards. All meals that qualify for reimbursement are accurately documented and claimed through the Oregon Department of Education. All functions and initiatives of the Nutrition Services department are aligned with the District’s strategic plan goal of *Safe & Thriving*, ensuring that students have access to healthy meals that support their well-being and academic success.

Recent/New Programs and Initiatives:

- Incorporating higher quality products in the menu including more made with whole muscle chicken items, local cheese and more varieties of fresh fruit and vegetables.
- Highlighting local foods through our monthly featured items.

- Refresh of equipment and salad bars to improve meal services for students.

Major Departmental Challenges:

- Staffing shortages have improved, but recruiting and retaining qualified staff remains an ongoing challenge.
- Expected changes to federal school nutrition regulations require proactive planning and adaptability.
- Labor, benefit, food and supply costs continue to increase, impacting the Department’s operating budget.

FY 2026-27 Objectives:

- Continue implementation of updated USDA nutrition regulations related to added sugars and sodium.
- Expand use of local ingredients in menu items.
- Expand training and education opportunities for site-based staff.

Significant Budget Changes:

Participation in school meals increased significantly following the district-wide implementation of the Community Eligibility Provision (CEP) in school year 2024-25. Meal participation increases were sustained during the school year 2025-26, even with declining district enrollment. The budget was adjusted to account for increased spending to meet meal participation numbers. Additionally, spending on kitchen equipment increased to replace aging equipment and improve efficiency.

Public Safety

Administrator: Kari Skinner

*Staffing information is actuals as of 3/31/26 and Financial Data is working budget as of 3/31/26

Summary of Major Department Responsibilities:

The Beaverton School District Public Safety department is committed to creating a safe and secure environment for all students, staff, and visitors. With a strong focus on customer service and collaboration, the department works closely with school administrators, District departments, and first responders to proactively address safety and security concerns.

The Public Safety department oversees school and safety services including emergency response, campus supervisors, law enforcement partnerships, and other services. Key areas of specialization include threat management, emergency planning and drill coordination, and crisis preparedness. In the first two-thirds of the 2025-26 year, the department supported and tracked 697 emergency drills, and processed 2,000 Help Desk tickets related to safety and security.

Public Safety manages the District infrastructure “security trio”—access control, video systems, and intrusion alarm systems. School security enhancements are ongoing, thanks to funding from a voter-approved bond. Public Safety also oversees the issuance of employee and contractor badges, processes volunteer background checks, and provides fingerprinting services to meet Oregon Department of Education (ODE) requirements. In the first two-thirds of 2025-2026, the department reviewed

12,482 volunteer applications, processed fingerprints for 671 new employees and contractors, and issued 2,392 district badges.

All functions and initiatives of the Public Safety department are aligned with the District's Strategic Plan goal of *Safe & Thriving* and the foundational building blocks of *Facilities & Programs for World-Class Learning*, *Effective Systems & Structures for Student Success*, and *Authentic Engagement with Students, Families & Community*, supporting a comprehensive approach to safety, security, and community engagement across all District operations.

Recent/New Programs and Initiatives:

Enhancements to the Threat Assessment System

Responsibility for the District's Threat Assessment program has transitioned from Teaching & Learning to Public Safety. The program is being aligned with the nationally recognized Salem-Keizer Cascade model, which emphasizes shared responsibility among schools, law enforcement, and mental health professionals. This multidisciplinary approach improves response times, enhances decision-making, and ensures tailored, student-centered interventions. Notably, over 95% of students assessed are able to remain in school with appropriate supervision plans—balancing safety with student retention.

To further enhance effectiveness, Public Safety deploys a multidisciplinary onsite team that includes a behavioral threat assessment and management specialist, a clinical psychologist, along with the public safety manager and special education assistant administrator as needed. This team supports schools during complex assessments by providing real-time crisis response, safety planning support, and consultation for school leadership.

School Safety and Emergency Management Initiatives

The District continues to advance a comprehensive, systemwide approach to school safety by strengthening emergency preparedness, response capacity, and accountability practices across all sites. This work includes robust emergency planning, ongoing staff training, regular drills, and continuous site-based safety assessments. All schools are actively updating their site-

specific Emergency Operations Plans (EOPs) to ensure alignment with current protocols and to reflect the unique operational needs of each campus. Raptor Technologies is fully embedded into daily school safety operations and supported centrally by Public Safety, with assistance provided to schools as needed. Raptor was launched district-wide in 2024–25 to provide the District's standardized system for visitor and volunteer management, ensuring consistent accountability and safety practices across the District, and all schools use Raptor for coordination during Standard Response Protocols, enhancing real-time situational awareness and accountability during incidents.

Public Safety continues to provide ongoing training, drill coordination, and technical support to school staff to ensure effective use of safety systems and consistent implementation of emergency response protocols. Parent and community engagement remains a priority through safety forums and ongoing communication related to school safety initiatives and bond-funded security upgrades, reinforcing transparency and shared responsibility for student and staff safety.

Public Safety and the bond team have begun replacing legacy radio systems with a modern, standardized two-way radio solution across all schools and facilities. This upgrade will ensure reliable, real-time communication among school staff, Public Safety personnel, and emergency responders during daily operations and critical incidents. Standardizing radios district-wide will improve interoperability, coverage, and operational coordination while replacing aging equipment that is increasingly

difficult to maintain. This investment supports the District’s commitment to emergency preparedness, rapid response capability, and maintaining safe learning environments for students and staff.

Major Departmental Challenges:

Challenges include maintaining and upgrading aging security infrastructure across 64 sites, meeting increased service demands, and ensuring staff are equipped to use evolving technologies. Balancing these needs with limited staffing and budgetary constraints remains a central focus. Nevertheless, the department remains steadfast in its mission to ensure a safe, welcoming environment for all.

FY 2026-27 Objectives:

- Complete transition to integrated electronic card access systems across all District facilities.
- Upgrade intrusion alarm systems with IP-based communication and improved system integration.
- Continue expansion of the District’s video system network and implementation of modern video intercom and visitor screening systems.
- Expand and support multidisciplinary threat assessment teams aligned with the Salem-Keizer Cascade Model
- Continue district-wide implementation and support of Raptor Technologies for visitor management, emergency management, and incident accountability.
- Implement district-wide use of the StudentSafe module within the Raptor platform for threat assessment documentation and safety planning.
- Continue district-wide emergency preparedness training, drill coordination, and support for site Emergency Operations Plans (EOPs).
- Strengthen contractor and volunteer background check systems and badge credentialing processes.
- Maintain collaboration with school administrators, families, community partners, and first responders to support a safe learning environment across all District facilities.

Significant Budget Changes:

There are no significant budget changes to the Public Safety budget.

*Staffing information is actuals as of 3/31/26 and Financial Data is working budget as of 3/31/26

Summary of Major Department Responsibilities:

The Transportation Department ensures the safe and efficient transport of approximately 25,000 students each day to and from school, as well as for field trips, athletic events, and after-school programs. The Department operates 240 daily bus routes and completes approximately 4,000 activity trips annually, with buses traveling over 3 million miles each year.

All functions and initiatives of the Transportation Department are aligned with the District's strategic plan goal of *Safe & Thriving* and the foundational building blocks of *Effective Systems & Structures for Student Success*, *Authentic Engagement with Students, Families and Community*, and *Facilities & Programs for World-Class Learning*, ensuring that transportation services contribute to safe, equitable, and efficient educational experiences for all students.

Recent/New Programs and Initiatives:

The Transportation Department continues to focus on service reliability, equitable access to school programs, and operational efficiency to ensure students arrive at school safely and ready to learn.

In fall 2025, the District implemented a modest bell schedule adjustment, shifting start times by 10 minutes for all schools except early-start elementary schools. The change was intended to improve morning transportation reliability, provide students additional time to access breakfast programs, and strengthen afternoon route performance.

The adjustment produced strong results. Morning transportation reliability consistently remained in the high-90 percent range, while Nutrition Services reported increased breakfast participation across all grade levels, with the largest gains at the high school level. Meadow Park and Whitford Middle Schools experienced particularly strong increases.

Afternoon service performance exceeded 95 percent at elementary and option schools. The District continued expansion of its electric school bus program to improve operational efficiency, support equitable service, and advance district sustainability goals through continued investments in fleet growth and charging infrastructure.

Key progress during the year includes:

- The District fleet now totals 312 buses, including 85 electric buses, representing an 81% increase in electric buses compared to the 2024–25 school year. Delivery of 13 additional electric buses by June 1, 2026 will bring the total to 98, positioning Beaverton as the third-largest public electric school bus operation in the nation.
- Electric bus utilization more than doubled compared to the prior year, with over 249,000 miles driven.
- All Title IA schools are served by electric buses, and secondary schools with higher proportions of historically underserved students are assigned the largest number of electric routes.
- Charging infrastructure for 30 electric buses was completed in October 2025 at the 5th Street South facility, reducing route mileage and improving operational efficiency. This project increased the District’s total charging capacity to 105 chargers, completing the planned infrastructure build-out to support current and future electric bus operations.

Major Departmental Challenges:

Recruiting and retaining qualified bus drivers remains the department’s most significant operational risk. Maintaining adequate staffing levels is essential to sustaining reliable service, avoiding route disruptions, and ensuring students consistently arrive at school on time.

The Department continues to implement a comprehensive recruiting and retention strategy that includes targeted advertising, ongoing candidate outreach, and regular interview cycles. These efforts are intended to maintain a workforce of at least 265 drivers, ensuring the district can reliably meet daily transportation service needs.

FY 2026-27 Objectives:

- Deploy Electric School Buses: Place 15 additional electric school buses into service by June 2027, funded through the 2023 EPA Clean School Bus Program and the 2025 PGE Electric School Bus Grant.
- Enhance Low-Emission School Bus Acquisition: Supplement the Special Needs transportation fleet with up to 12 additional propane-powered school buses, improving reliability while reducing emissions.
- Improve In-Cab Navigation and Passenger Verification Capabilities: Replace existing navigation tablets with upgraded devices that integrate more effectively with the district’s routing and planning system, improving real-time navigation, passenger verification, and operational efficiency.
- Enhance Charging Resilience: Install a backup propane-powered generator at the 5th Street Transportation Complex to ensure electric bus charging resilience during power interruptions.

Significant Budget Changes:

Significant budget adjustments in the Transportation budget include a decrease to capital outlay with the expiration of the 2023 EPA Clean Bus grant. Nearly all buses purchased with these grant funds will be received by the end of the 2025-26 school year, with just a small amount to complete the grant in 2026-27.

MULTIYEAR FINANCIAL REPORTING AND BUDGET PROCESS

REPORTING ENTITY

The Beaverton School District, established through the consolidation of multiple districts in 1960, operates under Oregon Revised Statutes (ORS) Chapter 332 to provide PreK–12 educational services. The District is governed by a separately elected seven-member Board of Directors, which appoints the Superintendent and administrative leadership. Daily operations are overseen by the Superintendent.

In accordance with generally accepted accounting principles (GAAP), the District qualifies as a primary government, as it has a separately elected governing body, is legally separate, and maintains fiscal independence. There are various governmental agencies and special service districts that provide services within the District's boundaries. However, the District is not financially accountable for any of these entities, and therefore, none of them are considered component units or included in the basic financial statements of the District's audited financial report.

In the 2024-25 Annual Comprehensive Financial Report (ACFR), four funds were classified as major funds: the General Fund, Grant Fund, Debt Service Fund, and Capital Projects Fund. These are considered major either by meeting the criteria established by the Governmental Accounting Standards Board (GASB) or due to their significance to financial statement users. The General Fund is always considered a major fund regardless of size.

The following is an overview of the District's eleven funds:

General Fund – The General Fund is the primary operating fund of the District, accounting for all financial resources not required to be reported in another fund. It includes expenditures for salaries, payroll costs, purchased services, supplies and materials, capital outlay, and other general expenses.

Expenditures are categorized by major function areas, with each category including program descriptions, staffing information, and program analysis. Variances between the 2025-26 and 2026-27 budgets are explained in detail.

Revenues are primarily from state funding and local property taxes, which together comprise the State School Fund (SSF). The SSF accounts for 88.3% of General Fund revenue (excluding beginning fund balance) and is allocated through a school equalization formula. This formula includes base student counts with additional weighting for students in special education, English language learners, students in poverty, foster care, and parenting programs. The SSF includes three components: the General Purpose Grant, the Transportation Grant, and the High-Cost Disability Grant.

In November 2022, voters renewed a five-year Local Option Levy dedicated to funding classroom teaching positions. This levy contributes approximately 7.1% of General Fund revenue, excluding beginning fund balance. The Local Option Levy expires on June 30, 2028.

Other Funds include:

Grant Fund – Accounts for revenues and expenditures from federal, state, and private grants designated for specific purposes. The 2026-27 Grant Fund is lower than in prior years due to the expiration of one-time federal ESSER funding on September 30, 2024, the spend down of a nearly \$20 million Environmental Protection Agency (EPA) Clean Bus grant, and the expenditure of \$8 million state matching grant for the 2022 capital bond measure.

Student Body & Special Purpose Fund – Accounts for student activities and programs at the school level. Major revenue sources include student participation fees, fundraising activities, and community donations.

Equipment Replacement Fund – Accounts for resources reserved for expenditures on classroom supplies and equipment, capital improvements and replacements, classroom programs, and to supplement existing resources available for students. Revenue sources include funds received through various Oregon Department of Education and Department of Energy grants, Chromebook replacement fees, State School Fund transportation grant for bus replacement, and a transfer from the General Fund for maintenance vehicle fleet replacement.

Scholarship Fund – Accounts for fundraising and scholarship resources received and held by the District on behalf of the scholarships for future recipients. Disbursements from this fund are made in accordance with trust and scholarship agreements.

Long-Term Planning Fund – The primary revenue sources for this fund is services provided to other funds and interest earnings. The Long-Term Planning Fund contains the District's Financial Reserves that are held outside the General Fund per School Board Policy DBDB. Policy DBDB can be found later in the Organizational Section of this document.

Nutrition Services Fund – Accounts for school nutrition program revenues and expenditures. Revenue sources include meal sales and subsidies from the National School Lunch and Breakfast Programs.

Debt Service Fund – Accounts for the District's payment of principal and interest on long-term obligations, including General Obligation (GO) bonds, Limited Tax Pension Obligations and Full Faith and Credit Obligations (FFCO). GO bonds allow the District to finance capital projects such as the construction of new schools, rebuilding schools and equipment. Voters must approve the sale of these bonds. Limited Tax Pension Obligation bonds were issued to finance the District's unfunded actuarial liability in the Oregon Public Employees Retirement System. The FFCO bonds were issued to finance capital projects. Principal revenue sources are property taxes, construction excise tax, transfers from other funds, and charges to other funds. The District's bond ratings from Moody's Investor Services is Aa3 and Standard and Poor's is AA+.

Capital Projects Fund – Supports acquisition, construction, and improvement of District facilities. Major funding sources include GO bond proceeds, construction excise taxes, and interest earnings.

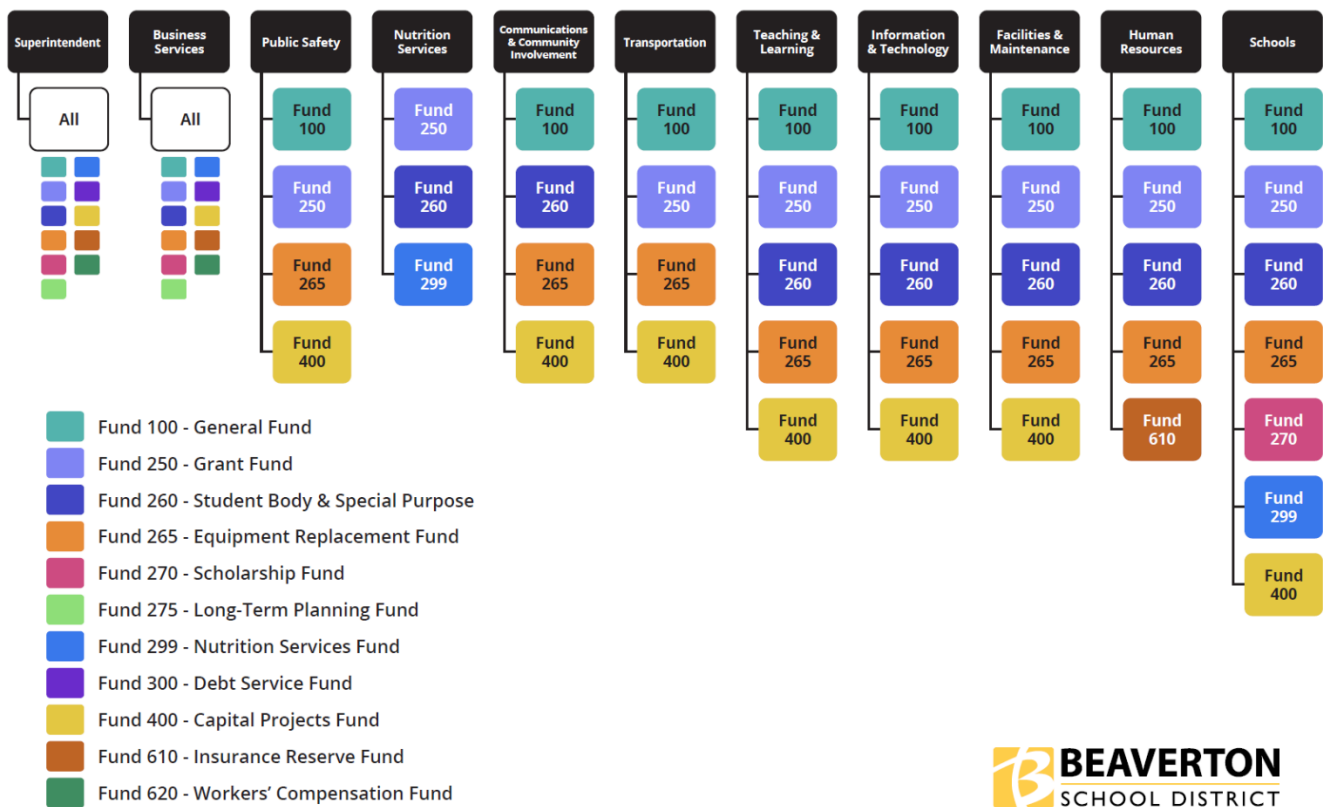

The Capital Budget includes a \$723 million bond measure that was passed by voters in May 2022. The bond provides funds for repairs, construction, and improvements over a projected six-year period. The second and final bond sale occurred in May 2025. The annual capital budget is determined by the commitments of the bond program to Beaverton voters and is the sum of all the anticipated project budgets each year. To efficiently execute the 2022 bond, projects are prioritized by urgent needs such as HVAC or roof repairs. Large projects, such as school rebuilds are prioritized towards the beginning of the bond program to avoid cost escalation. The annual capital projects plan and schedule is determined at the beginning of the bond program and monitored and adjusted as needs arise. The largest projects, such as those listed above, are planned at least

two years in advance. Medium-sized projects, like roofs or HVAC systems, are typically established at least 12 months ahead of time. Smaller or emergency projects, which tend to be a small percentage of the budget, are often added within the last six months before summer. Deferred maintenance is prioritized as needed, and the Facilities Development team holds quarterly meetings with the Maintenance team for on-the-ground experience perspective. Additional information about the Capital Budget can be found in the Financial Section.

Insurance Reserve Fund – Accounts for administrative costs and costs incurred (up to insurance policy deductible limits) for the District’s self-insurance programs. These programs include property, liability, life, long-term disability, and unemployment. Principal revenue sources are charges to other funds and a transfer from the General Fund.

Workers’ Compensation Fund – Accounts for workers’ compensation claims (up to insurance policy deductible limits) for on-the-job injuries. The primary revenue sources are charges to other funds and interest earnings.

Relationship Between Departments & Funds

MEASUREMENT FOCUS AND BASIS OF ACCOUNTING

The District’s budgetary basis of accounting aligns with generally accepted accounting principles (GAAP) in the United States.

Government-wide financial statements and internal service funds are reported using the economic resources measurement focus and the accrual basis of accounting. Under this method, revenues are recognized when earned, and expenses are recognized when liabilities are incurred, regardless of the timing of related cash flows.

Governmental fund financial statements use the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when they are both measurable and available. The District considers revenues to be available if they are collected within sixty days after the end of the fiscal year. Expenditures are recorded when the associated fund liability is incurred, with exceptions for principal and interest on long-term debt, claims and judgments, and accrued vacation. These are recognized as expenditures only when due. Capital asset purchases are recorded as expenditures in the governmental funds, and the proceeds from long-term debt issuances are recorded as other financing sources.

Proprietary funds distinguish between operating and non-operating revenues and expenses. Operating revenues and expenses are those that result from providing services or delivering goods as part of a fund’s primary operations. For the District’s internal service funds, the main operating revenues come from insurance services. Operating expenses include materials and supplies, insurance premiums, claims, and administrative costs.

DISTRICT BUDGET GOALS

The District budget serves as the financial plan of operation and is guided by the District’s strategic plan. The foundational building blocks and core values outlined in the strategic plan informed the development of the 2026-27 budget.

The School Board approves the annual budget calendar, appoints members of the Budget Committee, and formally adopts the District budget. The District provides budget documents annually and ensures opportunities for students, staff, and community members to offer input during the process. The budget is prepared and adopted in full compliance with Oregon’s Local Budget Law. The Associate Superintendent for Business Services, serving as the Chief Financial Officer, also acts as the District’s designated budget officer.

To support long-term financial stability, the District budgets for a combined minimum General Fund contingency and unappropriated fund balance of 8% to ensure an ending fund balance of at least 8% of total budgeted General Fund expenditures. In addition, the District maintains a Financial Reserve in the Long-Term Planning Fund equal to at least 5% of total budgeted General Fund expenditures, net of contingency.

KEY FACTORS IN BUDGET DEVELOPMENT

The overarching factors affecting the development of the 2026-27 budget include \$11.36 billion K-12 State School Fund for the 2025-27 biennium, as well as the continuing resources from grants included in ODE’s Aligning for Student Success (Integrated Guidance) initiative. This framework integrates the following six aligned programs, which total approximately \$53.4 million for the 2026-27 school year:

- High School Success (HSS)
- Student Investment Account (SIA) within the Student Success Act
- Continuous Improvement Planning (CIP)
- Career and Technical Education – Perkins V (CTE)
- Every Day Matters (EDM)
- Early Indicator Intervention Systems (EIS)

The District continues to experience declining enrollment, which is a key driver in both revenue allocation and staffing levels. While the District has planned to deficit spend in the past few years, increased revenue and lower spending than planned as contributed to the increase in the District’s General Fund reserves. The District has built the 2026-27 budget with a planned \$16.6 million deficit, which will decrease the General Fund reserves. In addition, the District’s strategic investments were reviewed for alignment with the District’s strategic plan. The District’s goals for student success and foundational building blocks are illustrated below.

THE BUDGET PROCESS. The District prepares its annual budget in accordance with Oregon Local Budget Law (ORS 294), which establishes standard procedures for budget preparation, presentation, and administration. The law requires public involvement in the budget process and mandates that each fund be balanced—meaning projected resources must equal projected requirements. Projected resources include both anticipated revenues and beginning fund balances.

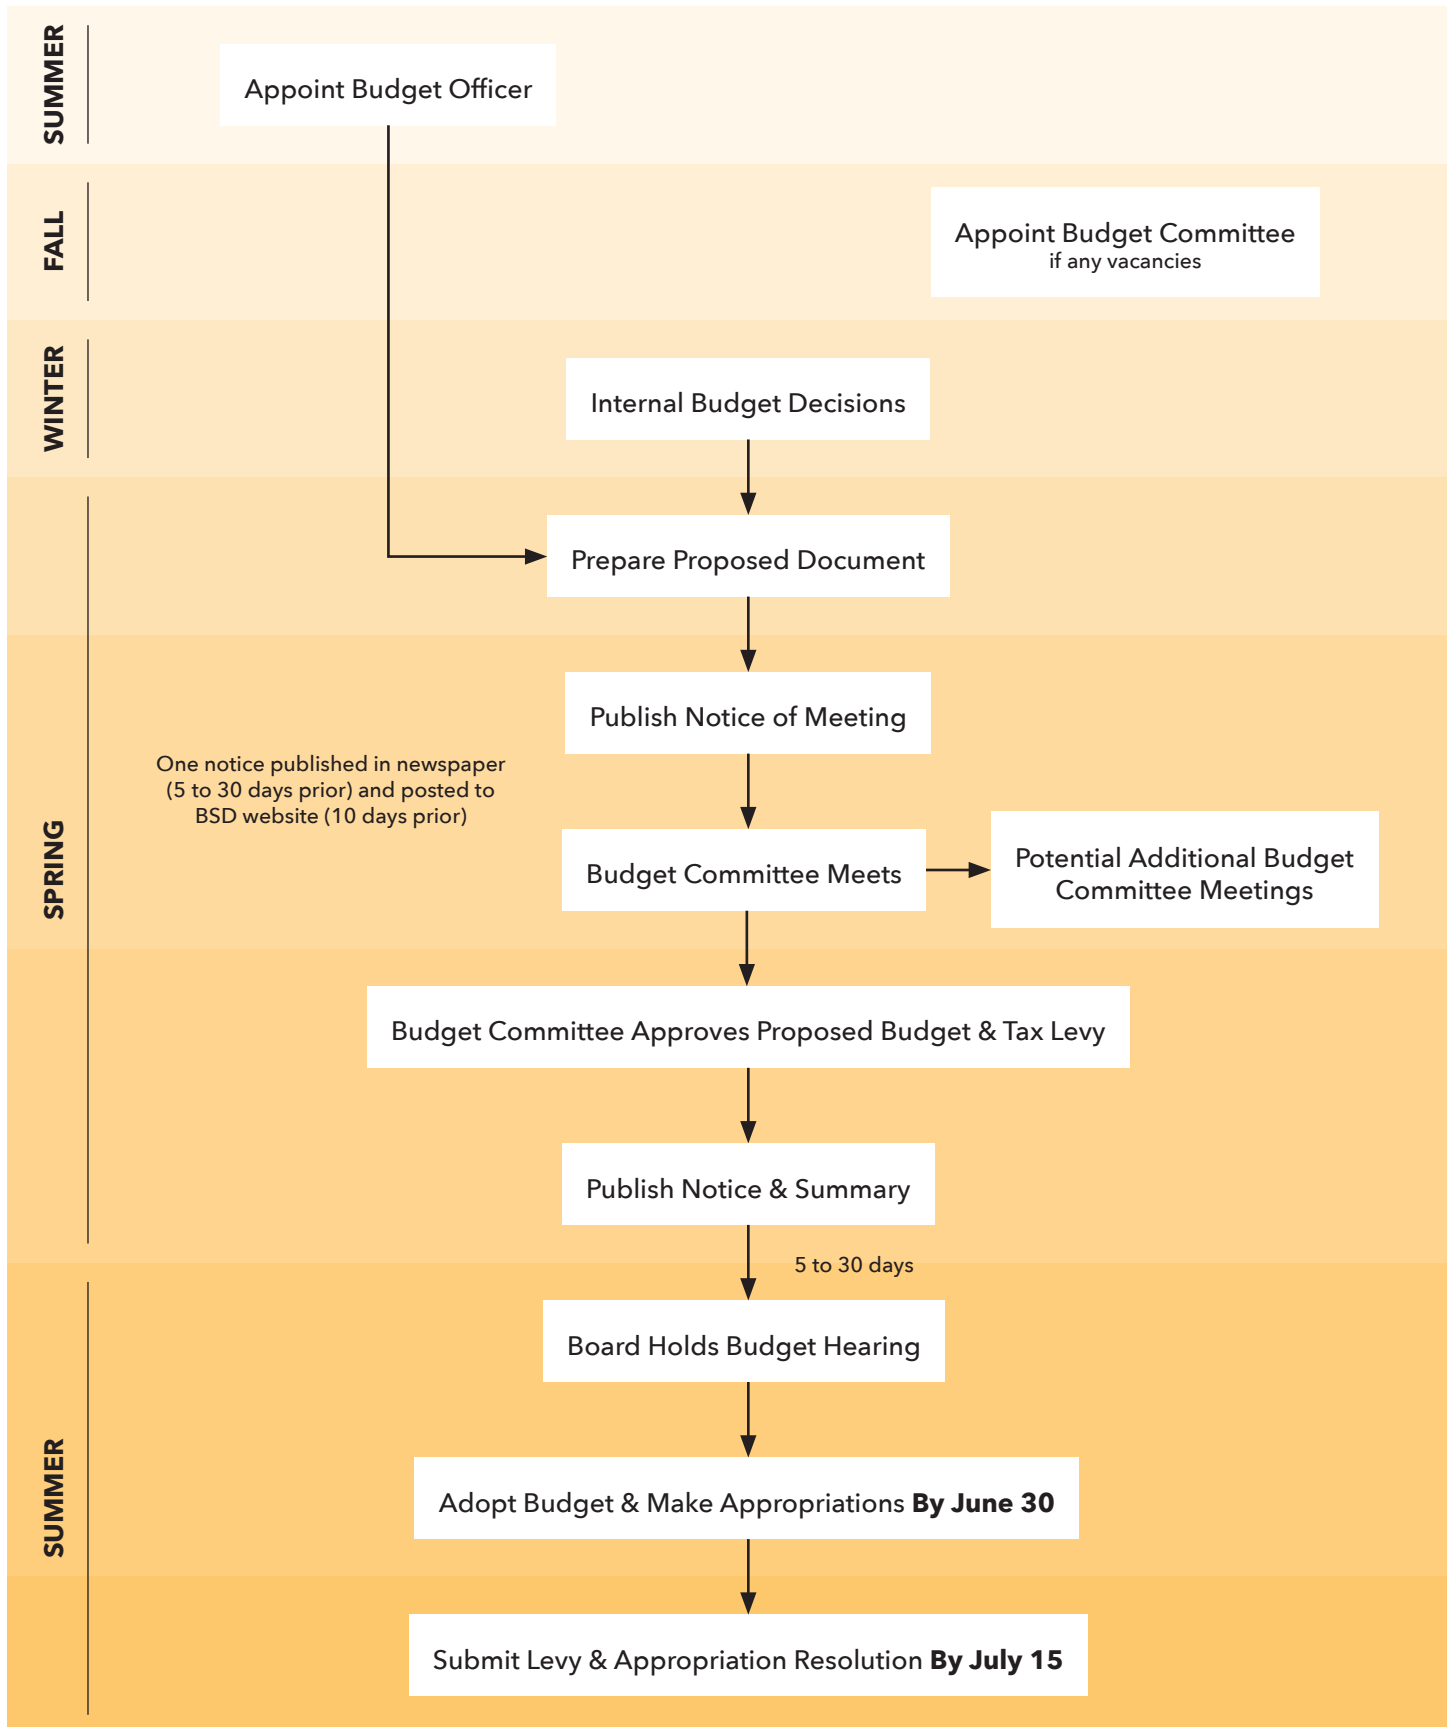

The District is currently operating at a deficit in the General Fund and is relying on the use of its beginning fund balance to achieve a balanced budget. While this approach allows the District to meet its obligations in the short term, it is not a sustainable funding source. As such, the District will make ongoing adjustments each year to ensure financial sustainability, maintain required reserves, and minimize impacts to students and classroom instruction. The District’s budget is developed in full compliance with all applicable Board policies related to financial planning and management.

A key component of the budget development process is a continuous improvement cycle that includes ongoing monitoring and evaluation of the District’s strategic investments. Each investment is assessed over a two- to three-year period using defined metrics that measure student achievement and staff development outcomes. This process ensures that budget decisions are aligned with the District’s strategic goals and deliver meaningful results for students and staff.

The School Board approved the budget calendar in May 2025, establishing a process for the 2026-27 budget. The School Board also received information about the General Fund structural deficit in August 2025 and agreed upon a process to address the deficit in planning the 2026-27 budget. The Board established a process to appoint vacant Budget Committee positions at the School Board meeting in October 2025. The open positions were advertised across the District and were filled by the Board in February and April 2026.

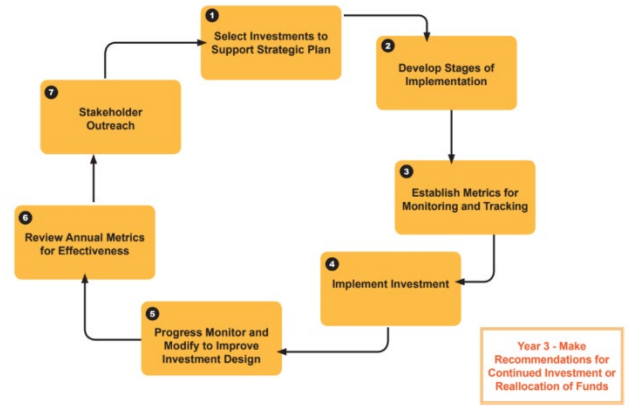

The Superintendent and Cabinet is the final decision-making body for creating the District’s budget. In August 2025, a recommendation was shared with the School Board to review the Staffing Allocation Methodology and target \$10 million in reductions annually for the next three budget years, beginning in 2026-27, in addition to reductions for enrollment and a shortfall in the local option levy revenue. As a result, the District assembled a large SAM team of school leaders, union partners, and district leadership to review the model and make recommendations for adjustments. District leadership shared the final list of thirteen potential budget adjustments with the School Board in January 2026.

BEAVERTON SCHOOL DISTRICT THE BUDGET PROCESS: REQUIREMENTS OF OREGON BUDGET LAW

BUDGET INVESTMENT PROCESS

In February, the District provided a video update with a short survey to determine the priorities of the students, parents, staff and community. The District received over 4,000 responses which can be viewed on the District’s [website](#). For the 2026-27 budget process, participants were asked to prioritize thirteen identified areas for budget reductions. Overwhelmingly, the top ranked item to reduce in the 2026-27 budget was district office reductions, followed by proportionate staffing at FLEX Online School, an unused credit recovery allocation, the student work experience model, centralized instructional technology support and a regional social work model (Top 6 Ranking).

Top 6 Ranking

In addition to the SAM review, during February 2026, District departments completed their budget worksheet proposals, including requests for additional required or critical needs. These additional budget requests were reviewed by the Superintendent and Cabinet. Additionally, for the 2026-27 budget, central departments were requested to make 1.5% reductions to their total General Fund budgets. Careful consideration of the District’s equity lens was used to center all budget development conversations.

Once a proposed budget is developed, the Superintendent presents the budget and Budget Message to the Budget Committee, which then reviews, asks questions, and receives public comment. The Budget Committee approves a budget for adoption by the School Board.

Notice of the first budget meeting is published in the local newspaper, five to thirty days before the first budget meeting, and posted on the District’s website for at least ten days before the first budget meeting.

Once a document is given to the Budget Committee, citizens may obtain a copy by calling (503) 356-4540 or by downloading it from the District’s website (<https://www.beaverton.k12.or.us/departments/business-services/district-annual-budget>).

HOW THE BUDGET IS ADOPTED

After the Budget Committee approves a budget, the budget is forwarded to the School Board for further public testimony and review. A summary of the approved budget and notice of budget hearing is published in the local newspaper five to thirty days in advance of the hearing. The notice indicates where the complete budget document is available for review.

After the budget hearing and consideration of public testimony, the School Board adopts the budget prior to June 30.

SUPPLEMENTAL BUDGETS

If the District receives unanticipated revenues or a change in financial planning is required, a supplemental budget may be adopted to authorize a change in the budget within a fiscal year. A supplemental budget cannot be used to authorize a tax levy.

The School Board may adopt a supplemental budget at a regular public meeting if expenditures in the supplemental budget are less than 10% of the annual budget of the fund being adjusted. If the expenditures are greater than 10%, the School Board must first publish the supplemental budget and hold a public hearing.

STRATEGIC INVESTMENT SUMMARY

The following table outlines the strategic investments the District has currently made and is conducting an Academic Return on Investment (ARO) analysis on. More details about each investment and the metrics used for analysis are included in the Informational Section of this document.

Strategic Plan Goal/ Foundational Building Block	Investment	2026-27 Budget Investment
Foundations of Success, Engaging & Effective Teaching & Learning Systems	16 Pre-K Classrooms and PD	\$ 6,121,057
Foundations of Success, Engaging & Effective Teaching & Learning Systems	Elementary Instructional Coaches	6,021,167
College & Career Ready, Engaging & Effective Teaching & Learning Systems	Graduation Mentors	1,492,743
College & Career Ready, Progress on Standards, Facilities & Programs for World-Class Learning	FLEX Credit	1,413,868
Total		\$ 15,048,835

MEASURES AND LEVIES

MEASURE 5. In November 1990, Oregon voters approved Measure 5, a citizen’s initiative limiting total taxes on each property in the state to 1.5% of the property’s real market value and shifting responsibility for funding public education to the state from the local level.

Measure 5, a constitutional amendment, phased in the tax limit for schools over a five-year period, beginning with a limit of \$15 per \$1,000 of property value in 1991-92 and decreasing to a permanent limit of \$5 per \$1,000 of value in the 1995-96 fiscal year. Tax limitations do not apply to bonded debt for capital construction.

In response to the requirement that the state replace school tax revenue lost under Measure 5, the legislature created the State School Fund (SSF) and established an equalization formula to allocate revenue to schools on a weighted per-student basis.

Since Measure 5 was passed, the state’s share of funding to schools increased from about 30% to approximately 67%.

MEASURE 50. In 1997, Oregon voters approved Measure 50 to clarify legal ambiguities in a prior measure and change the property tax system from a tax base system (where a dollar amount is levied) to a tax rate system (where a permanent rate is levied). As a result, in 1997-98, assessed values were rolled back to 1995-96 values minus 10%, and future assessed value increases were capped at 3% per year plus exceptions such as the value of new construction. The District’s permanent rate was set at \$4.693 per \$1,000 of assessed value. Other provisions limited the use of the bonded debt and required a 50% voter turnout for property tax elections except at general elections (November of even-numbered years).

MEASURE 56. In November 2008, voters amended the state constitution to require that all local property tax measures on

May and November elections be decided by majority vote, overturning the “double majority” requirement of Measure 50.

MEASURES 66 AND 67. In January 2010, Oregon voters upheld two tax increases approved by the 2009 legislature. Measure 66 increased personal income tax rates for high-income individuals, and Measure 67 increased corporate taxes by raising the \$10 corporate minimum tax to \$150, raising the corporate profits tax, and increasing certain business filing fees.

MEASURE 98 (High School Success). In November 2016, Oregon voters approved Measure 98, a dropout prevention and college readiness initiative. Measure 98 requires state funds to be distributed to public school districts for approved plans to establish or expand career and technical education programs, to establish or expand college-level educational opportunities for students, and to establish or expand dropout prevention strategies in high schools.

MEASURE 99. In November 2016, Oregon voters approved Measure 99 using Oregon Lottery funds to create the Oregon Outdoor School Education Fund. The program dedicates funds to providing every student in fifth or sixth grade the opportunity to attend a week-long outdoor school program.

LOCAL OPTION LEVY. Since 1999, school districts have been allowed to request voter approval for local property tax levies to support operations and/or capital needs. This represents the only opportunity for district voters to increase revenue for district operations since Measure 5 passed in 1990. Local option capacity represents the “tax gap” between the Measure 5 tax rate limit based on real market value and the Measure 50 tax rate based on assessed value.

As revised by the 2007 legislature, the amount a district can receive under a local option levy is restricted to the least of:

- Measure 5 limit: revenue received by the district from local option taxes imposed; or
- Dollars per student: \$1,000 per average daily membership, weighted (ADMw), growing by 3% per year as of 2008-09; or
- Percent of state resources: 20% of the combined total of the state general purpose grant, transportation grant, facility grant, and high-cost disability grant.

Operating levies cannot exceed five years. Capital levies cannot exceed the lesser of ten years or the expected useful life of the asset(s).

Local option levies for more than a year may be filed as a tax rate. Local option revenue is excluded from the state funding formula.

Beaverton voters renewed a five-year local option levy in the November 8, 2022 primary election for a \$1.25/\$1,000 of assessed value of property. The renewal will begin in the 2023-24 school year and end in the 2027-28 school year.

GENERAL OBLIGATION BONDS. Districts may levy taxes for the repayment of bonded debt upon voter approval. Tax levies for bonded debt fall outside the limits of Measure 5.

Measure 50 limited the use of bonded debt to fund capital construction and improvements and prohibited using bonds to finance the purchase of equipment or maintenance and routine repairs.

The 2009 state legislature approved a provision of the Oregon Constitution that effectively expanded the range of the

qualifying uses of bond proceeds by re-defining “capital costs” as costs of land and of other assets having a useful life of more than one year, including costs associated with acquisition, construction, improvement, remodeling, furnishing, equipping, maintenance or repair. Bonds may not be used to pay for the costs of routine maintenance or supplies.

Voters approved a \$723 million bond measure on the May 17, 2022 ballot to provide funds for continued repairs, construction and improvements at District sites.

SCHOOL BOARD FISCAL MANAGEMENT POLICIES

District Budget - The District budget shall serve as the financial plan of operation for the District. The District Strategic Plan guides the budgeting process.

The Board shall approve the budget calendar, appoint the budget committee membership and adopt the District budget. The District will provide the budget and budget documents on an annual basis.

The administration shall provide opportunities for students, staff and the community to provide feedback regarding the alignment of the budget with the strategic plan.

The District budget shall be prepared and authorized in full compliance with the Local Budget Law. The law requires public involvement in the budget process and mandates that each fund be balanced—meaning projected resources must equal projected requirements. Projected resources include both anticipated revenues and beginning fund balances. The chief financial officer for business shall be the budget officer ([Board Policy DB](#)).

Financial Reserves - The Board recognizes the importance of financial reserves to deliver sustainable and stable levels of instruction, staffing, number of instructional days and operation of facilities.

The reserves are necessary to:

1. Maintain financial stability for program continuity and public confidence;
2. Ensure budget and financial compliance with Oregon Revised Statutes and Oregon Administrative Rules;
3. Provide an emergency reserve to balance risk of availability and liquidity of resources in other funds as well as the potential drain upon general fund resources; liquidity; and designations. Such factors will be reviewed annually;
4. Protect the district from unnecessary borrowing in order to meet cash flow needs;
5. Provide prudent reserves to meet unexpected emergencies and protect against catastrophic events and accommodate volatile PERS rates;
6. Meet the uncertainties of state and federal funding; and
7. Help ensure a district credit rating that would qualify the district for lower interest costs and greater marketability of bonds that may be necessary in the construction and renovation of school facilities.

District reserves include both a sufficient general fund ending fund balance and a financial reserve held outside the General Fund.

The Board directs the superintendent to manage the adopted budget in such a way as to ensure an ending general fund balance of at least eight percent of total budgeted general fund expenditures net of contingency.

The Board also directs the superintendent to maintain a financial reserve of five percent of the total budgeted expenditures of the general fund net of contingency.

The Board may authorize use of the general fund balance to address unanticipated, nonrecurring needs and may authorize use of the financial reserve to address adverse conditions which negatively affect the district's revenues or ability to meet the needs of students.

If the Board authorizes use of reserves, the superintendent shall, as soon as practicable, present a plan for replenishing the reserves and provide annual progress reports to the board. The superintendent shall timely notice to the board when projections indicate that reserves may fall below the minimum targeted level ([Board Policy DBDB](#)).

Budget Committee - The district budget committee will consist of the seven members of the board and seven electors appointed by the board as required by law. Terms of the appointed members of a budget committee in a district that prepares an annual budget will be three years each with appointments made so that, as nearly as practicable, the terms of one-third of the members expire each year. Appointive members of a budget committee in a district that prepares a biennial budget shall be appointed to four-year terms. The terms shall be staggered so that as near as practicable, one-fourth of the terms of the appointive members end each year. At least one member of the budget committee must be a member of the District's educational equity advisory committee. Districts with ADM over 10,000 must convene an educational equity advisory committee no later than September 15, 2022. Districts with ADM of 10,000 or under are not required to convene an educational equity advisory committee until September 25, 2025. The board will establish appropriate timelines and procedures for appointment of budget committee members.

A majority of the constituted committee is required for passing an action item. Majority for a 14-member budget committee is 8. Therefore, if only 8 members are present, a unanimous vote is needed for passing an action item.

Presiding Officer and Orientation of Budget Committee:

1. **Organization:** The budget committee will hold its first regular organizational meeting on a day set by the board. A presiding officer shall be elected from among its members at this meeting. Such meeting may be prior to or on the date the budget message and document are presented.
2. **Background Information:** Budget committee members will be provided with data for the ensuing year(s), such as the board's educational plan, and other pertinent material bearing on the preparation of the district budget.

The budget committee shall hold one or more meetings to receive the budget message, the budget document and to provide members of the public with an opportunity to ask questions about and comment on the budget document. The budget officer shall announce the time and place for all meetings, as provided by law. All meetings of the budget committee are open to the public.

It is the function of the budget committee to approve budget estimates for an educational plan previously determined by the board. No new program should be considered for the budget estimate that has not previously been submitted to the board and approved as a part of the educational plan. The budget committee will determine levels of spending, but will not determine programs.

The budget committee will approve an estimated budget document for submission to the board ([Board Policy DBEA](#)).

Budget Transfer Authority - The Adopted Budget is a financial plan that may be subject to change as a result of circumstances or events occurring during the ensuing budget period. All appropriation transfers are authorized when completed by official resolution of the Board. The authorizing resolution must state the need for the transfer, its purpose, and the amount of the transfer.

Transfers of general operating contingency appropriations which in aggregate during a fiscal year or budget period exceed 15 percent of the total appropriations of the fund may be made only after the adoption of a supplemental budget prepared for that purpose.

The superintendent has the authority to approve transfers between programs and object codes within the same level of appropriation.

Interfund transfers from the General Fund to any other fund are authorized when completed by official resolution of the Board stating the need, purpose and amount.

Appropriation transfers from any special revenue fund will comply with applicable statutes ([Board Policy DBK](#)).

Revenues from Private, State and Federal Sources - The Board may authorize, accept and use private, state or federal funds available to the District to carry out district educational programs. The District, consistent with Board policy, will comply with all regulations and procedures required for receiving and using such funds.

The Board directs the superintendent or designee to pursue outside funding recognizing the obligations, expectations or encumbrances which will exist when the grant or other outside funding ceases.

The District shall pursue federal or state grants-in-aid that will assist the District in meeting adopted goals and objectives of the curriculum or in creating facilities or in purchasing equipment.

In the event an opportunity arises to submit a grant proposal which needs Board approval and there is insufficient time to place it before the Board, the superintendent is authorized to use his/her judgment in approving it for submission. The superintendent will share the grant proposal with the Board at its next regular meeting. The Board reserves the right to reject funds associated with any grant which has been approved ([Board Policy DE/DEB/DEC](#)).

Investment of Funds - The District's Investment of Funds policy applies to the investment of short-term operating funds and capital project funds (including bond proceeds and bond reserve funds) held by the District. Investments of employees' retirement funds, deferred compensation plans, and funds held and invested by trustees, escrow agents or fiscal agents are not covered by this policy. This policy does not apply to the District's checking account.

Except where legally required to hold separate funds, the District will consolidate cash balances from all funds to maximize investment earnings. Investment income will be allocated to the various funds monthly based on their respective cash balances.

The primary objectives for this investment policy, in priority order, shall be: preservation of capital; maintenance of a liquid position; and maximum yield.

- a. Safety of principal is the foremost objective of the investment program. Investment decisions shall be undertaken in a manner that seeks to ensure the preservation of capital in the overall portfolio. The objective will be to mitigate credit risk and interest rate risk.
 - Credit Risk: The District will minimize credit risk, the risk of loss due to the financial failure of the security issuer or backer, by: Limiting exposure to poor credits and concentrating the investments in the safest types of securities, Diversifying the investment portfolio so that potential losses on individual securities will be minimized, and Monitoring the investment portfolio holdings for rating changes, changing economic/market conditions, etc.
 - Interest Rate Risk: The District will minimize the price risk, due to changes in general market interest rates, associated with the sale of securities prior to maturity, by: Structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations and/or capital projects, thereby avoiding the need to sell securities on the open market prior to maturity, and Investing operating funds primarily in shorter-term securities or local government investment pool.
- b. The investment portfolio shall remain sufficiently liquid to meet all operating, capital and construction requirements that may be reasonably anticipated. This is accomplished by structuring the portfolio so that securities mature concurrent with anticipated cash needs. In addition, a portion of the portfolio should also be placed in the Oregon Local Government Investment Pool (LGIP), or a similar investment vehicle, to provide immediately available funds.
- c. The investment portfolio shall be designed with the objective of attaining a market rate of return throughout budgetary and economic cycles, taking into account the investment risk constraints and liquidity needs. Return on investment is of lesser importance compared to the safety and liquidity objectives described above. The portfolio investments are limited to highly rated/low risk securities in anticipation of earning a fair return relative to the risk being assumed.

Securities shall not be sold prior to maturity with the following exceptions:

- 1) A security with declining credit may be sold early to minimize loss of principal.
- 2) A security swap that would improve the quality, yield, or target duration in the portfolio.
- 3) Liquidity needs of the portfolio require that the security be sold.
- 4) To liquidate a security purchased in error that violates state law or this policy.

The standard of prudence to be used by investment officials shall be the “prudent person” standard and shall be applied in the context of managing an overall portfolio. Investment officers acting in accordance with written procedures and this investment policy and exercising due diligence shall be relieved of personal responsibility for an individual security’s credit

risk or market price changes, provided deviations from expectations are reported to the School Board in a timely fashion, and the liquidation and/or sale of securities are carried out in accordance with the terms of this policy.

Investments shall be made with judgment and care, under circumstances then prevailing, which persons of prudence, discretion and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the probable safety of their capital as well as the probable income to be derived.

Officers and employees involved in the investment process shall refrain from personal business activity that could conflict with the proper execution and management of the investment program, or that could impair their ability to make impartial decisions. Employees, officers and their families shall not undertake personal investment transactions with the same individual with whom business is conducted on behalf of the district. Officers and employees shall, at all times, comply with the state of Oregon Government Ethics Commission set forth in Oregon Revised Statute (ORS) Chapter 244.

The chief finance officer (CFO), currently filled by the Associate Superintendent for Business Services, shall manage the district's investment program and ensure compliance with the investment policy, designate eligible investment institutions, review periodic investment reports and monitor investment transactions.

The CFO will designate the cash manager under his/her supervision to administer the policy, place investments, maintain accounting records and prepare investment reports.

A list will be maintained of financial institutions authorized to provide investment and safekeeping services. In addition, a list will also be maintained of approved security broker/dealers selected by credit worthiness and other factors considered relevant by the district. These may include primary dealers or regional dealers that qualify under Securities and Exchange Commission (SEC) Rule 15C3-1 (uniform net capital rule).

Regional brokers and dealers must have an office in Pacific Northwest in order to be considered for doing business with the District. The District will limit all security purchases to institutions on the approved lists.

All financial institutions and broker/dealers who desire to become qualified for investment transactions must supply the following, as appropriate:

- a. Audited financial statements;
- b. Proof of National Association of Securities Dealers (NASD) certification;
- c. Proof of state registration;
- d. Completed broker/dealer questionnaire;
- e. Certification of having read and understood the District's investment policy;
- f. References from other Oregon local government clients.

A review of the financial condition and registration of qualified financial institutions and broker/dealers will be conducted by the CFO at least every five years. Additions and deletions to the list may be made at the discretion of the CFO.

The CFO, in cooperation with the Financial Reporting staff and the external auditor, will establish and maintain an adequate internal control structure designed to reasonably protect the investments of the district from loss, theft or misuse. The concept of reasonable assurance recognizes that (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by the CFO.

The District shall comply with all required legal provisions and Generally Accepted Accounting Principles (GAAP) relating to investment accounting. The accounting principles are those contained in the pronouncements of authoritative bodies

including but not necessarily limited to, the Governmental Accounting Standards Board (GASB); the American Institute of Certified Public Accountants (AICPA); and the Financial Accounting Standards Board (FASB).

Prior to sending funds to a broker/dealer for an investment purchase, the cash manager will require a trade ticket listing the details of the transaction. Securities may be held by the broker/dealer in the district's name in the broker/dealer's account or they may be held by a third-party safekeeping agent.

The purchase and sale of securities, repurchase agreement and guaranteed investment contract transactions shall be settled on a delivery versus payment basis in accordance with Oregon Revised Statute (ORS) 294.145(4) and (5). It is the intent of the district that all purchased securities shall be perfected in the name of the District.

Sufficient evidence to title shall be consistent with modern investment and commercial practices.

Cash management tools, defined as bank deposits, time deposits, certificates of deposit and savings accounts, shall be held in qualified Oregon depositories and collateralized in accordance with ORS Chapter 295.

ORS 294.035(3)(j) requires repurchase agreement collateral to be limited in maturity to three years and priced according to percentages prescribed by written policy of the Oregon Investment Council or the Oregon Short-Term Fund Board.

The cash manager shall prepare an investment report monthly including a management summary that provides an analysis of the status of the current investment portfolio and transactions made over the previous month. The report will be submitted to the CFO for review. This management summary will be prepared in a manner that will allow the CFO to ascertain whether investment activities during the reporting period have conformed to the investment policy. In addition, the cash manager will prepare a regular monthly board report. At a minimum, this report will include the following:

- 1) Listing of individual securities held at the end of the reporting period;
- 2) Average weighted yield to maturity of portfolio on investments as compared to applicable benchmark(s);
- 3) Listing of investments by maturity date, call date, cost and current fair value;
- 4) Percentage of total portfolio that each type of investment represents along with the percentages authorized in this policy.

The investment portfolio will be managed in accordance with the parameters specified within this policy. The appropriate benchmark will be the monthly yield for the LGIP. Because bond proceeds are expected to be invested at the time they are received, and are therefore invested in an interest rate environment that exists at that point in time, that portion of the portfolio will be excluded from ongoing benchmark performance measurement.

The market value of the portfolio shall be calculated at least annually and a statement of the market value of the portfolio shall be issued at fiscal year-end.

The CFO shall annually review the investment policy and submit the policy and revisions to the OSTF if required. The policy and any revisions shall be presented annually to the Board. The Board will approve all revisions to the policy ([Board Policy DFA](#)).

Depository of Funds – The Board will, at its annual organizational meeting or at other times deemed necessary by the Board, designate one or more banks which meet District, state and federal guidelines as official depositories for District funds ([Board Policy DG](#)).

Authorized Signatures - The Board will, at its annual organizational meeting or at other times deemed necessary by the Board, authorize the district clerk and/or deputy clerk or other individuals designated by the superintendent to sign District checks. The Board may authorize the use of facsimile signatures by those persons authorized to sign District checks ([Board Policy DGA](#)).

Loss Coverage - The Board and designated District employees are responsible to safeguard the District against loss regarding funds, fees, cash collections and inventory. The Board shall designate the District employees responsible as custodians of such items. The District shall purchase bond coverage or equivalent crime coverage in an amount determined by the Board, upon recommendation by the superintendent or designee. The District will pay the cost of such coverage ([Board Policy DH](#)).

Fiscal Accounting - Accounting procedures shall show a detailed and meaningful analysis of both receipts and expenditures. This analysis should be adequate for study and evaluation by the Board and school management and will serve as a basis to make financial and related educational decisions, to formulate future plans, to safeguard both the taxpayer and the school employee, and to ensure adequate financial accountability.

Payment on all District accounts, including the General Fund and special accounts, shall operate according to established accounting procedures.

All cash received is to be properly receipted. Money received shall be placed in deposit.

The superintendent or designee shall be the lawful custodial officers of all District funds and shall demand receipt for, and safely keep according to law, all bonds, mortgages, notes, monies, effects, books and papers belonging to the District. Funds may be commingled in the depository so long as they are budgeted and accounted for separately.

From time to time, funds may become available to the District prior to the time they are needed to offset current expenditures. The custodial officer shall forward all such receipts to the Local Government Investment Pool or other investment instrument as authorized by the District's investment policies. Funds that are not currently needed for the operation of the District will be invested with the interest from these funds being credited to the same account as that to which the invested funds revert ([Board Policy DI](#)).

Financial Reports and Statements - Appropriate staff member(s) will be available at any Board meeting, upon the Board's request, to respond to questions and to present current financial information. The superintendent will notify the Board at any time of substantial deviations in the anticipated revenues and/or expenditures.

The Board will receive monthly financial reports that include estimates of expenditures for the major general fund accounts in comparison to budget appropriations, actual receipts in comparison to budget estimates and the District's overall cash condition. Supplementary reports on other funds or accounts will be furnished upon request of the Board or superintendent.

The Board will receive a Annual Comprehensive Financial Report (ACFR) with the annual audit report presented by the District's authorized auditor ([Board Policy DIC](#)).

Fixed Asset Inventories - The District shall maintain a formalized program of accountability and controls over District fixed assets. The purpose of the inventory will be to satisfy financial and insurance reporting requirements to aid the administration of District fixed assets.

Fixed assets includes all District-owned property such as land, buildings, improvements to property other than buildings (i.e., parking lots, athletic fields, playgrounds, etc.) and equipment with a value greater than \$5,000 as defined by the *Program Budget and Accounting Manual*, published by the Oregon Department of Education.

The inventory shall be reviewed annually by the individual schools or departments.

The criteria for maintenance of a formalized inventory of fixed assets shall be maintained in the administrative regulations ([Board Policy DID](#)).

Audits - An audit of the accounts of the district shall be made annually by an independent firm of certified public accountants selected by the Board from the roster of municipal accountants maintained by the Oregon Board of Accountancy. The chief financial officer for business shall prepare a request for proposal (RFP) for audit services every three to five years. Every effort shall be made to seek proposals from qualified firms licensed to perform municipal audits in the state of Oregon.

The audit examination shall be conducted with standards as established by the Secretary of State.

A copy of the audit report will be presented to the Board. The superintendent will submit a copy of the audit report to the Oregon Department of Education and to the Oregon Secretary of State, Audit Division ([Board Policy DIE](#)).

District Purchasing - The function of District purchasing is to serve the educational program by providing the necessary goods, services and public improvements. The Board declares its intention to purchase competitively without prejudice and to seek maximum educational value for every dollar expended. Items commonly used by cost centers will be standardized whenever consistent with the educational goals and in the interest of efficiency or economy.

The position functioning as the chief financial officer is appointed by the superintendent to serve as purchasing agent. Throughout this policy, references to the chief financial officer shall refer to that position or its functional equivalent. This position will be responsible for developing and administering the District's purchasing program.

No obligation may be incurred by any officer or employee of the District unless that expenditure has been authorized in the budget or by board action and/or board policy. In all cases calling for the expenditure of District money, except payroll, a requisition and purchase order system must be used.

No purchase, with the exception of construction change directives, petty cash or credit card purchases, will be authorized unless covered by an approved purchase order. No bills will be approved for payment unless purchases were made on approved orders.

The superintendent or designee is authorized to enter into and approve payment on contracts obligating District funds not to exceed \$250,000 for products, materials, supplies, capital outlay and services that are within current budget appropriations. The superintendent or designee is authorized to obligate District funds without specific Board approval when the expenditures are routine and customary, including, but not limited to, state/municipal fees, payroll and utilities. The Board shall approve all contracts that are collective bargaining agreements or service contracts that include the provision of labor performed by District

employees, such as custodial, food service and transportation services.

The chief financial officer or designee will review bills due and payable for the purchase of supplies and services to determine if they are within budget amounts. After appropriate administrative review, the chief financial officer or designee will direct payment of the just claims against the District. The chief financial officer is responsible for the accuracy of all bills and vouchers.

No board member, officer, employee or agent of this District shall use or attempt to use their official position to obtain financial gain or for avoidance of financial detriment for themselves, a relative or member of household or for any business with which the board member, officer, employee, agent or a relative is associated.

Acceptance of any gratuities, financial or otherwise, from any supplier of materials or services to the District by any board member, officer or employee of the district is prohibited.

The superintendent shall develop administrative regulations necessary to implement this policy. Additional specific purchasing procedures are delineated in the District's *Purchasing Manual* which is updated periodically ([Board Policy DJ](#)).

Bidding Requirements - The board is the Local Contract Review Board (LCRB) for the district. The LCRB has not adopted its own rules of procurement. Consequently, the *Oregon Attorney General's Model Public Contracting Rules* shall apply to the district except as modified by adopted policy, resolution, rule or order.

Additionally, the superintendent or designee may include as part of the district's procedures and administrative regulations portions of the Oregon Department of Administrative Services administrative rules governing Public Contract Exemptions, OAR Chapter 125, Divisions 246 - 249.

The LCRB may make the written findings required by law for exemptions from competitive bidding. Such findings shall be maintained by the district and made available on request.

In situations of emergency, the LCRB authorizes the superintendent or designee to authorize an emergency procurement. Emergency contracts for construction services are not considered public improvement contracts and will be procured in accordance with OAR 137-049-0140 and OAR 137-049-0150.

The LCRB authorizes the superintendent or designee to determine whether goods or services are available from only one source. If such a determination is made, the district may award a contract without competition. To the extent reasonably practicable, the district shall negotiate with the sole source to obtain contract terms that are advantageous to the district. The determination of sole source must be based on written findings and may include:

- 1) That the efficient utilization of existing goods requires acquiring compatible goods or services;
- 2) That the goods or services required to exchange software or data with other public or private agencies are available from only one source;
- 3) That the goods or services are for use in a pilot or experimental project; or
- 4) Other findings that support the conclusion that the goods or services are available from only one source.

“Special procurement” means a contract or class of contracts that use a contracting procedure other than competitive sealed proposals, competitive sealed bidding, small procurement or intermediate procurement. Special procurements require LCRB approval and will be conducted in accordance with this policy and administrative regulation [DJC-AR](#).

Pursuant to OAR 137-047-0300(2)(b), the District may publish the advertisement for offers on the district's electronic procurement system (as selected by District staff) instead of publishing notice in a newspaper of general circulation as required by ORS 279B.055(4)(b).

The superintendent is authorized to develop administrative regulations and/or procedures to assist with the implementation of this policy and applicable procurement rules. Purchasing procedures are additionally specified in the District's purchasing manual, which may be updated as needed by the superintendent or designee ([Board Policy DJC](#)).

Personal Services Contracts - The District may enter into personal services contracts with qualified professionals as provided by Oregon Revised Statute (ORS) 279A.055.

“Personal services contracts,” as used in this policy, means contracts for specialized skills, knowledge and resources in the application of highly technical or scientific expertise or the exercise of professional, artistic or management discretion or judgment. The District may enter into a personal services contract with a current district employee only when the individual meets independent contractor status in accordance with state, Public Employees Retirement System (PERS) and Internal Revenue Service (IRS) requirements.

Selection of a personal services contractor will be based primarily on qualifications and performance history, expertise, knowledge and creativity and the ability to exercise sound professional judgment.

All personal services contracts shall be based on demonstrated qualifications and competence to perform the required services, encourage competition, discourage favoritism and obtain services at a fair and reasonable price.

The superintendent is authorized to develop administrative regulations modifying Oregon Administrative Rule (OAR) 137 Division 47 rules necessary to implement this policy, as appropriate ([Board Policy DJCA](#)).

Procurement Cards - The Board authorizes the superintendent to hold a bank procurement card in the name of the District and to issue such cards to designated employees. Approved cardholders will be held responsible for maintaining sole possession and security of issued cards at all times. The superintendent or designee shall determine the procurement card dollar authorization levels.

Procurement cards issued to employees may only be used to purchase items authorized by the adopted District budget.

The Business Office shall pay the procurement card balance in full no later than the due date so that finance charges will not be incurred.

Violation of the provisions of this policy may result in the revocation of the procurement card and/or discipline up to and including dismissal ([Board Policy DJFA](#)).

Employee Expenses - District employees who incur expenses in carrying out their authorized duties will be reimbursed upon submission of a properly completed and approved Employee Expense Statement and receipts as required by administrative regulation.

Such expenses may be incurred and approved as budgetary allocations permit.

Expenses for travel will be reimbursed when the travel has the approval of the superintendent (designee) in compliance with the District's administrative regulations.

Persons who travel on District business will exercise prudent and economical expenditure of District funds and will differentiate between business expenditures and those for personal convenience.

The Board authorizes the superintendent to establish regulations for reimbursement of all employee in-district and out-of-district travel expenses, as well as guidelines for special event expenses.

Specific employee expense information is delineated in the District's *Purchasing Manual*, which is updated periodically ([Board Policy DLC](#)).

Disposal of District Property - The District may, at any time, declare district property as surplus and authorize its disposal when such property is no longer useful to the District, unsuitable for use, too costly to repair or obsolete. With the exception of real property, authority is delegated to the superintendent or designee to declare as surplus and dispose of district property, including but not limited to equipment, furniture and other items.

Efforts will be made to find other uses for items declared surplus. Items that are still usable, but no longer of use in the district, may be disposed of through approved state agencies or through other means of disposal where other organizations or the public have the ability to acquire surplus items.

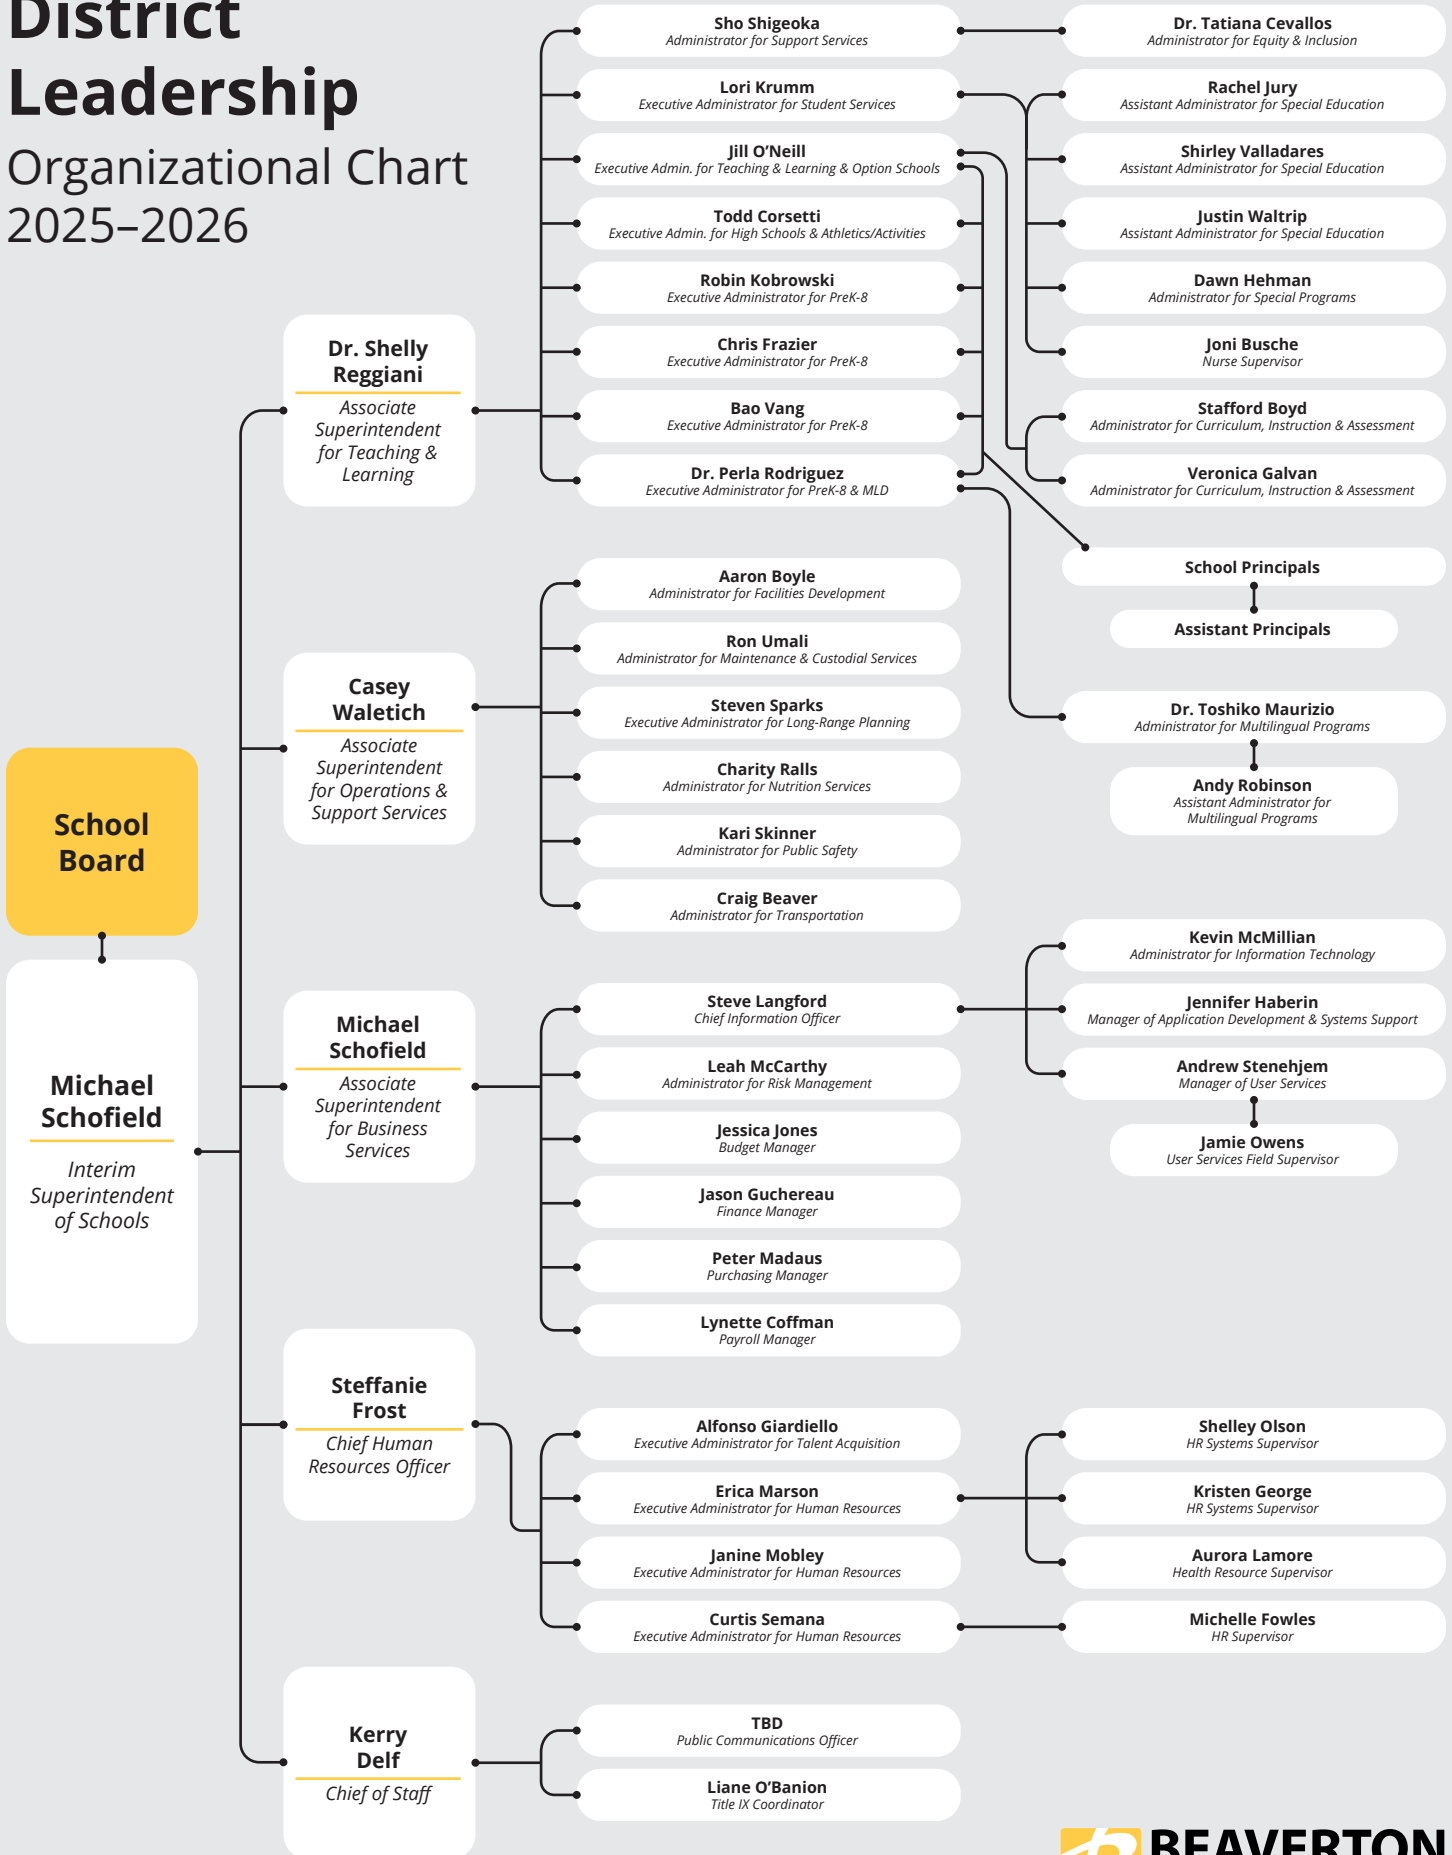

The monies generated by sale or disposal of items are returned to the General Fund. If the district property was purchased with state, federal or private grant funds, disposal of the property shall be made as outlined in the grant or by state or federal regulations.

Specific information related to disposal of district property is delineated in the District's *Purchasing Manual* which is updated periodically ([Board Policy DN](#)).

District Leadership

Organizational Chart 2025-2026

2025 **SCHOOL BOARD** 2026

MEMBERS & ASSIGNMENTS

The Beaverton School Board has seven elected community members who serve four-year terms. They are volunteers. Though candidates are nominated from the Board Zone in which they live, voters in the district elect members at-large. Each board member has several school assignments that may or may not be in their zone.

ZONE 1

Dr. Vân Truong

Term Expires: 6/30/2029

School Assignments

- Fir Grove
- Greenway
- McKay
- Montclair
- Vose
- Conestoga
- Whitford
- Southridge

ZONE 2

Dr. Karen Pérez

Term Expires: 6/30/2029

School Assignments

- Bethany
- Oak Hills
- Rock Creek
- Sato
- Springville
- Stoller
- Westview
- Early College High School

ZONE 3

Dr. Melissa Potter

Term Expires: 6/30/2027

School Assignments

- Bonny Slope
- Cedar Mill
- Findley
- Jacob Wismer
- West Tualatin View
- Meadow Park
- Tumwater
- Sunset
- Terra Nova

ZONE 4

Sunita Garg

Board Chair

Term Expires: 6/30/2029

School Assignments

- Aloha-Huber Park K-8
- Chehalem
- Errol Hassell
- Hazeldale
- Kinnaman
- International School of Beaverton (ISB)
- Mountain View
- Aloha

ZONE 5

Syed Qasim

Term Expires: 6/30/2029

School Assignments

- Beaver Acres
- Elmonica
- McKinley
- Terra Linda
- Five Oaks
- Beaverton Academy of Science & Engineering (BASE)
- Community Transition Program (CTP)
- Community School at Merlo Station Campus

ZONE 6

Justice Rajee

Board Vice-Chair

Term Expires: 6/30/2027

School Assignments

- Cooper Mountain
- Hiteon
- Nancy Ryles
- Scholls Heights
- Sexton Mountain
- Highland Park
- Mountainside
- FLEX Online

ZONE 7

Dr. Tammy Carpenter

Term Expires: 6/30/2027

School Assignments

- Barnes
- Raleigh Hills
- Raleigh Park
- Ridgewood
- William Walker
- Cedar Park
- Arts & Communication Magnet Academy (ACMA)
- Beaverton

FINANCIAL OVERVIEW

The Financial Section contains detailed information on Beaverton School District revenues and expenditures in the 2026-27 budget. The initial part of this section is a summary for all funds. The remaining portion of this section includes more detail with narratives and financial reports for revenues and expenditures by fund.

Classification Structure

The primary elements used to classify revenues and expenditures are fund, function and object. Funds represent the highest level of the classification structure. Functions are group-related activities aimed at accomplishing a major service. The seven major categories are Instruction, Support Services, Enterprise & Community Services, Facilities Acquisition & Construction, Long-Term Debt Service, Transfers, Other Uses of Funds, and Unappropriated Ending Fund Balance. Under Oregon Budget Law, budgets are appropriated (adopted) at these levels. Objects are used to describe the type of goods or service and are broken down into eight categories: Salaries, Associated Payroll Costs, Purchased Services, Supplies & Materials, Capital Outlay, Other Expenses, Transfers and Contingency. As shown in the chart below, these elements can be viewed as a pyramid with fund being the top level and object being the lowest level of detail. This pyramid approach is reflected in all the financial reports that follow.

All Funds Revenue

The 2026-27 revenue budget includes federal, state, intermediate and local sources. Other sources include interfund transfers and beginning fund balance.

In 2026-27, proposed revenue for all funds totals \$1.4 billion, a decrease of \$235.9 million or 14.2% compared to the 2025-26 adopted budget. This decrease in all revenue is primarily due to the decrease in Beginning Fund Balance in the Capital Projects Fund as two major projects in the 2022 capital bond program are nearing completion during the 2025-26 school year.

The primary source of revenue for all funds in 2026-27 is Other Sources at \$524.5 million or 36.8% of all sources. The largest portion of the other sources remains in the Capital Projects Fund due to the 2022 capital bond beginning fund balance and bond sale that occurred in the spring of 2025. This is followed by State Sources totaling \$434.0 million or 30.5% of all sources. The third highest source of revenue totaling \$397.3 million or 27.9% is Local Revenue (property taxes). Together, State, Local and Other Sources comprise \$1.4 billion or 95.1% of all sources.

All Funds Expenditure

The 2026-27 proposed budget expenditures for all funds have decreased by \$235.9 million or 14.2% when compared to the 2025-26 adopted budget.

Expenditures in the following graph are categorized by object. Salaries are the largest budget category at \$416.5 million or 29.2%. Capital Outlay is the second largest budget category at \$280.4 million or 19.7% of all funds. This is primarily due to the additional capacity from the second and final bond sale for the 2022 capital bond measure that occurred May 2025. The third largest component of the expenditure budget is Associated Payroll Costs at \$246.2 million or 17.3%. These three areas account for \$943.0 million or 66.2% of the budget.

OPERATING FUNDS

For the purposes of regular District operations, the following funds are considered to be operating funds:

- General Fund (100)
- Grant Fund (250)
- Student Body & Special Purpose Fund (260)
- Nutrition Services Fund (299)

Together, these funds total \$922.0 million and make up 64.7% of the District’s total budget.

2026-27 PROPOSED OPERATING FUNDS

INTERFUND TRANSFERS

Below is a summary of interfund transfers for the current budget year and the prior budget year. Transfers are generally consistent from year to year.

	2025-26		2026-27	
	Transfers In	Transfers In	Transfers In	Transfers Out
General Fund	\$ -	\$ -	\$ -	\$ 2,405,000
Special Purpose Fund	19,000	19,000	19,000	15,000
Equipment Replacement Fund	400,000	400,000	405,000	129,161
Scholarship Fund	15,000	15,000	15,000	15,000
Nutrition Services Fund	-	-	-	4,000
Debt Service Fund	2,063,903	2,063,903	2,067,704	-
Capital Projects Fund	-	-	-	1,938,543
Insurance Reserve Fund	2,500,000	2,500,000	2,000,000	-
	\$ 4,997,903	\$ 4,997,903	\$ 4,506,704	\$ 4,506,704

FUND BALANCES

Oregon Budget Law requires a balanced budget where total resources equal total appropriations. In 2024-25 and 2025-26, the District did not budget an ending fund balance in the General Fund; instead, contingencies were budgeted for planned but unexpended amounts. For 2026-27, the budget includes an Unappropriated Ending Fund Balance in the General Fund to more clearly reflect the District's planned year-end reserves and financial sustainability goals. Actual ending fund balances by fund for the prior three years are shown in the following table.

Significant changes that can be noted below are a slight decrease in the General Fund ending fund balance between 2023-24 and 2024-25, reflecting the intentional spend down of General Fund reserves. The ending fund balance in the Long-Term Planning Fund continues to increase each year as the District continues to work towards the five percent reserve required by School Board Policy. The District expects to meet the 5% policy by the end of 2025-26 and no further contributions will be made to the fund beginning in 2026-27. The increase in the Capital Projects Fund in 2024-25 is due to final bond sale of the 2022 Capital Bond measure, which occurred in May 2025. The increases seen in the Insurance Reserve Fund are due to lower claims in last several years. Adjustments have been made within the Insurance Reserve Fund to spend down the fund balance over the following three years.

	Ending Fund Balance		
	2022-23	2023-24	2024-25
100 General Fund	\$ 138,652,119	\$ 164,436,027	\$ 163,355,697
250 Grant Fund	-	-	-
260 Student Body and Special Purpose Fund	5,602,145	5,549,386	5,963,889
265 Equipment Replacement Fund	3,324,312	5,074,060	8,095,299
270 Scholarship Fund	448,000	461,167	481,316
275 Long-Term Planning Fund	17,162,668	24,651,224	32,913,084
299 Nutrition Services Fund	5,930,480	5,157,964	7,844,577
300 Debt Service Fund	9,797,926	8,808,603	8,812,325
400 Capital Projects Fund	367,846,661	261,862,484	474,273,988
610 Insurance Reserve Fund	6,663,057	8,229,461	9,855,279

OPERATING FUNDS TOTAL EXPENDITURES (in millions)

EXPENDITURE VARIANCE ANALYSIS

GENERAL FUND (100) - APPROPRIATION VARIANCE

FUNCTION	DESCRIPTION	VARIANCE FROM 2025-26 BUDGET	VARIANCE EXPLANATION
6000	Contingencies	\$ (71,708,688)	The decrease in operating contingency reflects the inclusion of Unappropriated Ending Fund Balance (7000) in the 2026–27 budget. This change reflects the addition of Unappropriated Ending Fund Balance to more clearly present planned year-end reserves and improve transparency around the District’s financial sustainability goals. Combined, the operating contingency and unappropriated ending fund balance total 17.1% of the General Fund, which is 0.5 percentage points lower than the 2025–26 budget.
7000	Unappropriated Ending Fund Balance	66,732,136	Unappropriated Ending Fund Balance (7000) is included for the first time in the 2026–27 budget to more clearly present the District’s planned year-end reserves. This amount was previously reflected within the operating contingency. When combined with Contingencies (6000), total reserves equal 17.1% of the General Fund, representing a 0.5 percentage point decrease from the 2025–26 budget.

For the General Fund by appropriation, variances greater than \$500,000 and 10% are listed above.

GRANT FUND (250) - APPROPRIATION VARIANCE

FUNCTION	DESCRIPTION	VARIANCE FROM 2025-26 BUDGET	VARIANCE EXPLANATION
2000	Support Services	\$ (18,116,165)	The decreases in the Grant Fund are primarily due to the spend down of major grants such as the OSCIM grant from ODE related to the 2022 Capital Bond Measure and the Clean Bus Grant from the EPA. Increases in Enterprise & Community Service is due to additional capacity for potential grants in this area.
3000	Enterprise & Community Service	1,079,796	
4000	Facilities Acquisition & Construction	(8,205,000)	

For Grant Fund, variances greater than \$500,000 and 10% are listed above.

EQUIPMENT REPLACEMENT FUND (265) - APPROPRIATION VARIANCE

FUNCTION	DESCRIPTION	VARIANCE FROM 2025-26 BUDGET	VARIANCE EXPLANATION
2000	Support Services	\$ 1,048,624	Increase is related to additional SSF revenue from the Transportation Grant due to additional bus purchases over the last few years. With several grants for electric buses, including a nearly \$20 million EPA grant, the District has added several buses to its fleet. The reimbursement related to the depreciation for these buses is recorded in the Equipment Replacement Fund for future bus replacement.
4000	Facilities Acquisition & Construction	(235,092)	Decrease is due to spend down of the remaining Facilities Grant revenue from ODE.

For Equipment Replacement Fund, variances greater than \$100,000 and 10% are listed above.

CAPITAL PROJECTS FUND (400) - APPROPRIATION VARIANCE

FUNCTION	DESCRIPTION	VARIANCE FROM 2025-26 BUDGET	VARIANCE EXPLANATION
2000	Support Services	\$ (4,681,459)	Decrease is related to spend down on Construction Excise Tax revenues, as well as spend down of the 2022 capital construction bond.
4000	Facilities Acquisition & Construction	(209,402,342)	Variance is due to the spend down of the 2022 capital construction bond.

For Capital Projects Fund, variances greater than \$500,000 or 10% are listed above.

INSURANCE RESERVE FUND (610) - APPROPRIATION VARIANCE

FUNCTION	DESCRIPTION	VARIANCE FROM 2025-26 BUDGET	VARIANCE EXPLANATION
6000	Contingencies	\$ 865,670	Contingency has increased from increased reserves due to less claim expenses in 2023-24 and 2024-25. The District has been analyzing claim information along with revenue information to spend down the fund balance over the next few years.

For Insurance Reserve Fund, variances greater than \$500,000 or 10% are listed above.

WORKERS' COMPENSATION FUND (620) - APPROPRIATION VARIANCE

FUNCTION	DESCRIPTION	VARIANCE FROM 2025-26 BUDGET	VARIANCE EXPLANATION
6000	Contingencies	\$ (437,443)	Decrease in contingency is due to intentional spend down of fund balance in the Workers' Compensation Fund.

For Workers' Compensation Fund, variances greater than \$500,000 or 10% are listed above.

General Fund (100)

GENERAL FUND OVERVIEW

The General Fund budgets for most operating activities of the District, except for those activities required to be accounted for in another fund.

Revenue - The State School Fund Grant general purpose and transportation grants are the principal revenue sources of the General Fund totaling 88.3% of total revenue, excluding beginning fund balance. The State School Fund Grant is apportioned to schools through the general purpose grant, a facility grant, a transportation grant and a high cost disabilities grant. Approximately 95.5% of the grant is allocated to school districts and the remainder is allocated to Education Service Districts (ESD). All grants except the facility grant and a portion of the transportation grant are accounted for in the General Fund. Districts may apply for facility grant funds when construction adds square footage to school buildings. The portion of the transportation grant related to the depreciation of transportation related capital assets is accounted for in the Categorical Fund, along with the facility grant funds

The state grant apportionment is less the local revenue. Local revenue includes general operating property taxes, county and common school funds. Local property taxes account for 77.2% of the local revenue. The general purpose grant is allocated through a weighted average daily membership (ADMw) formula. The transportation grant is paid at seventy percent of the District's allowable General Fund transportation costs. Each December, all school districts within the state are required to estimate for the following year the components of the grant such as ADMw, local property taxes, transportation costs, and the cost of students with an individual education plan (IEP) with a cost per student over \$30,000.

The District receives estimated payments starting in July and ending in May. The general purpose and transportation portion of the grant is reconciled in the month of May in the next fiscal year after districts file student enrollment data and final annual financial reports. The high cost disability grant is a shared grant based on the District's proportion of the funds claimed and is approximately 0.7% of General Fund revenue. The District receives an estimated payment for the current year in May and a final settlement the following May.

The local option tax levy is a voter approved levy that allows the District to collect taxes outside the constitutional tax limitation. The length of the approval is limited to five years. District voters passed a local option levy in 2013 for reduced class size. Funds from this levy can only be spent on classroom teachers. Voters renewed the levy in 2018 and again in 2022 for an additional five years at \$1.25/\$1,000 of assessed value of property. This resource accounts for 7.1% of the General Fund revenue, excluding beginning fund balance. The five-year renewal of the local option levy expires on June 30, 2028. The remainder of the General Fund revenue includes earning on investments, the portion of District's ESD allocation not used for services, athletic pay-to-play and gate fees, other state and local sources, and beginning fund balance.

Expenditures - Salaries and benefits account for approximately 89.0% of the General Fund expenditures, excluding contingency. General Fund budgeted positions is outlined on the following page. Board policy requires an 8% reserve in the General Fund. This reserve is budgeted in contingency. Over the last several years, the District has had a large reserves due to increased SSF per pupil allocations, reserve build ups from the COVID-19 pandemic and staffing shortages. The contingency for 2026-27 is 20.7%. The District also includes a transfer from the General Fund to the Insurance Reserve Fund and Equipment Replacement Fund, which makes up 0.4% of the total General Fund budget, excluding contingency. The remaining amount is mostly budgeted within Purchased Services and Supplies & Materials.

Grant Fund (250)

GRANT FUND OVERVIEW

The Grant Fund accounts for revenues and expenditures of grants restricted for specific educational projects. This fund includes all initiatives included in the ODE Aligning for Student Success Integrated Guidance. The Grant Fund, overall, has been declining over the last few years as the Elementary and Secondary School Emergency Relief (ESSER) funds were spent down. The significant grants included in the Aligning for Student Success Integrated Guidance for the District are the Student Investment Account (SIA) and High School Success (HSS) grants. Additionally, Federal programs such as Title IA, Title IIA, Title III and IDEA are included in this fund.

Revenue – Principal revenue sources for the Grant Fund are federal, state and local grants. For a few years during the pandemic relief funds provided by ESSER, the Federal sources were the most significant source of revenue in the Grant Fund. Beginning in the 2024-25 school year, State Sources has returned to providing the largest amount of resources with the Grant Fund as ESSER ended. State sources make up 59.8% of the total Grant Fund revenue in the 2026-27 budget, while Federal sources make up 38.1% of the total Grant Fund. SIA and High School Success (HSS) funds are included within State Sources.

The remaining 2.1% of the Grant Fund budget is primarily from local sources, the majority of which are grants from the Beaverton Education Foundation (BEF), and Intermediate Sources, which represents grants from Washington County.

Expenditures – Approximately 65.0% of the Grant Fund budget is accounted for in salaries and benefits. The majority of the SIA and HSS budgets are allocated in positions. Following the salaries and benefit budget, the next largest areas are purchased services at 10.6% and supplies and materials at 9.6%. Capital outlay has been one of the largest components for the last few years due to an approximately \$19.8 million EPA award for electric school buses that was awarded in 2023-24. The majority of the buses related to this grant will have been received by the end of the 2025-26 fiscal year. Expenditures in the Grant Fund must follow the requirements of each individual grant. Overall, these areas do not shift significantly from year to year.

*Student Body &
Special Purpose Fund (260)*

STUDENT BODY & SPECIAL PURPOSE FUND OVERVIEW

The Student Body & Special Purpose Fund accounts for the District's individual school activity programs, including student body funds and department donations.

Revenue – The primary revenue source for the Student Body & Special Purpose fund is participation fees, contributions and donations, and fund-raising activities. Overall, the revenue is generally similar from year to year. Approximately 59.6% of the total 2026-27 budgeted revenue is from local sources, including 14.7% of the local sources from donations and 28.7% from fees. The remaining 40.4% of the total budgeted revenue is beginning fund balance.

Expenditures – The majority of expenditures within the Student Body & Special Purpose Fund are in the areas of purchased services and supplies and materials with 73.2% of the 2024-25 actual expenditures being in this area and making up 87.7% of the 2026-27 budget.

*Equipment Replacement
Fund (265)*

EQUIPMENT REPLACEMENT FUND OVERVIEW

The Equipment Replacement Fund accounts for resources reserved for expenditures on classroom supplies and equipment, capital improvements and replacements, classroom programs, and to supplement existing resources available for students.

Revenue – The four main sources of revenue for the Equipment Replacement Fund are Senate Bill 1149 (SB1149) contributions, Chromebook replacement fees, State School Fund transportation grant and a transfer from the General Fund. The District is reimbursed at a rate of 70% of eligible transportation costs by the State School Fund. The portion attributable to depreciation of school buses is included in this fund for bus replacement. The District has budgeted a \$405,000 transfer from the General Fund for future replacements of the Maintenance and Safety Department vehicles.

Expenditures – Overall expenditures in this fund have remained consistent over the past several years. The primary change has been increased capital outlay expenses, driven by larger SSF transportation grant allocations based on school bus depreciation.

Scholarship Fund (270)

SCHOLARSHIP FUND OVERVIEW

The Scholarship Fund accounts for fund-raising and scholarship resources received and held by the District in a fiduciary capacity. Disbursements from this fund are made in accordance with the trust and fund-raising agreements.

The principal revenue source for this fund is contributions and donations. Contributions and donations make up approximately 13.6% of the total revenue in the Scholarship Fund with the largest resource being the beginning fund balance at 81.9%.

Overall, the revenue within this fund is consistent from year to year with slight fluctuations in the fund-raising and donations to the scholarships.

Expenditures – The expenditures in the Scholarship Fund are generally tuition payments to institutions after a scholarship has been awarded to a Beaverton School District senior. These expenditures may fluctuate from year-to-year based on a variety of reasons, such as the applications and the trust and fund-raising agreements.

Long-Term Planning Fund (275)

LONG-TERM PLANNING FUND OVERVIEW

Revenue – The revenue sources for the Long-Term Planning Fund has been services provided other funds and beginning fund balance for the past several years. Services provided other funds revenue was made up of a percentage of payroll costs related to PERS rates. As rates are expected to increase again in future biennia, the District will have reserves in this fund to help remedy the increased costs related to PERS when this occurs.

2026-27 LONG-TERM PLANNING FUND REVENUE (in millions)

The current Board policy requires that the District maintain an ending fund balance of at least eight percent of total budgeted General Fund expenditures net of contingency in the General Fund and maintain an additional Financial Reserve of 5% of the total budgeted expenditures of the General Fund net of contingency within the Long-Term Planning Fund. The District used the services provided other funds revenue for the last several years to restore the 5% policy reserves in this fund following a large transfer to the General Fund in 2019-20. The District is anticipating reaching the 5% reserves by the end of the 2025-26 fiscal year and will not be generating more revenue via this method beginning in the 2026-27 fiscal year.

The largest portion of the Long-Term Planning Fund revenues is beginning fund balance and is representative of the District’s long-term financial reserves required by Board policy. In 2026-27, the only other revenue source is expected to be interest earnings.

Expenditures – As this fund is meant for long-term planning and now only contains financial reserves, there are no budgeted expenditures in this fund. All budget is held in the contingency and not intended to be spent in the 2026-27 year.

Nutrition Services Fund (299)

NUTRITION SERVICES FUND OVERVIEW

The Nutrition Services Fund accounts for revenues and expenditures for the food dispensing programs.

Revenue - Principal revenue sources for this fund are sales of food and subsidies under the National School Lunch and Breakfast programs passed through the State of Oregon from the United States Department of Agriculture. Approximately 50.3% of all revenue in the Nutrition Services Fund is from federal sources, followed by 25.2% in state sources and 22.1% of all resources being from beginning fund balance. Revenue from the sale of meals has decreased significantly over the last few years due to the transition of all schools to the Community Eligibility Provision (CEP), which provides free meals to all students in those schools.

While the revenue in the Nutrition Services Fund had been stable pre-pandemic, post-pandemic there have been several adjustments. Revenue in post-pandemic was particularly low in daily meal sales and state sources due to the USDA waivers allowing free meals for all students. This rebounded to more typical revenue in 2022-23 and 2023-24, however with the District’s addition of all schools to CEP 2023-24 and 2024-25 years, the daily sales have again declined in 2024-25 and future years. State sources has increased due to this change in meal eligibility.

Expenditures – The largest area of expenditures in the Nutrition Services Fund is supplies & materials at 49.4%, which accounts for all food purchases. The next largest expenditure category is in salaries & benefits at 46.8%. Over the past several years, these amounts have had little fluctuation with the exception of contractual salary and benefit increases and increased costs for food purchases due to supply chain issues and meal participation as the District moved to a CEP district.

Debt Service Fund (300)

DEBT SERVICE FUND OVERVIEW

The Debt Service Fund provides for the payment of principal and interest on long-term debt including General Obligation (GO) bonds, Public Employees Retirement System Unfunded Actuarial Liability (PERS UAL) pension obligation bonds, and the Full Faith and Credit Obligation (FFCO) bonds.

Beaverton School District debt service payments are funded by voter approved taxes imposed on local property, payments made directly from the District's General Fund, Construction Excise Taxes (CET) and through a deduction in the monthly State School Fund payment from the state of Oregon.

The bulk of the District's debt service consists of GO bonds paid with revenues generated through voter approved tax measures. ORS 328.245 establishes a parameter of bonded indebtedness for school districts. Aggregates are governed by real market value of all taxable properties within the District based on the following: 1) For each grade from kindergarten to 8th for which the District operates schools, fifty-five one-hundredths of one percent (.0055) of the real market value. 2) For each grade from 9th to 12th for which the District operates schools, seventy-five one-hundredths of one percent (.0075) of the real market value.

The legal debt margin for Fiscal Year 2025 is:

Real Market Value	\$74,786,536,979
Debt Limit (7.95% of RMV)	\$5,945,529,690
Debt Applicable to Limit	\$1,261,339,000
Legal Debt Margin	\$4,684,190,690
Debt as Percentage of Debt Limit	21.21%

The second largest portion of the District's debt service consists of the District's UAL Bonds. In 2005 the District

participated in a state sponsored funding of the District's UAL under Oregon PERS. Funding to meet the 2005 UAL Bonds debt service requirements is deducted from State School Fund payments made to the District. In February 2015, the District issued additional UAL Bonds. The 2015 UAL Bonds are not deducted from the State School Fund payments but paid directly by the District. In both cases, the net impact is a reduction in the funding available in the General Fund. However, the District would have to pay a significantly higher PERS rate on its payroll expense in lieu of participating in the UAL Bonds.

The District also has debt service for FFCO. In April 2016, the District refunded the majority of the FFCO entered into in 2009. Debt service payments consist of the remaining 2016 FFCO and extend until 2036. FFCO debt service requirements are paid from the proceeds of CET and a transfer from the General Fund. Debt service requirements will remain at about the \$1.34 million level through the remainder of the life of the obligations.

In November 2021 the District issued \$16.2 million additional FFCO bonds for the purchase of a building. The debt service requirement is paid from the General Fund with final maturity in 2036.

In May 2025 the District issued \$403.5 million additional GO bonds for capital costs of repairs, construction and improvements. The debt service requirement is paid from the Debt Service Fund with final maturity in 2047 for Series 2025A and 2053 for Series 2025B.

Bond Effects on Budget - Current and Future

Fiscal Year Ending June 30,	General Obligation Bonds Requirements	FFC Obligation Bonds Requirements	PERS Obligation Bonds Requirements	Equipment Financing Requirements	Total

Capital Projects Fund (400)

CAPITAL PROJECTS FUND OVERVIEW

The Capital Projects Fund accounts for activities related to the acquisition, construction and equipping of facilities. This fund includes the 2022 bond program proceeds and related expenditures.

The principal revenue sources are beginning fund balance, construction excise tax and interest earnings. The 2022-23 year was the first year of the \$723 million bond measure passed by voters in May 2022. As such, the overall beginning fund balance in this fund increased significantly with the sale of new bonds in summer 2022 and was spent down over the next year.

2026-27 CAPITAL PROJECTS FUND REVENUE
(in millions)

In the 2024-25, the second and final bond sale related to the 2022 bond program occurred in May. This bond sale came into the 2025-26 fiscal year as beginning fund balance and is being spent down as the 2022 bond program progresses. The two major projects in this bond program, the rebuilds of Raleigh Hills Elementary and Beaverton High School, are nearly complete and are scheduled to open in the fall of 2026.

Expenditures – Major expenditure categories in the Capital Projects Fund are capital outlay at 86.5%, supplies and materials at 6.1% and salaries and benefits at 2.0% of the total budget. Expenditure increases and decreases in this fund follow the revenue sources.

District Construction in Progress (CIP)

At June 30, 2025, the Beaverton School District had \$235,041,028 in CIP. CIP is comprised of capital projects that are less than 95% complete at year end. Once a project is at least 95% complete, it is moved out of CIP and categorized in the proper capital asset classification and depreciation begins.

	Construction in Progress
Balance at July 1, 2024	\$ 82,980,919
Additions	178,047,048
Reductions	(25,986,939)
Balance at June 30, 2025	\$ 235,041,028

The four projects listed to the left make up 80% of the total June 30, 2025 CIP balance. The Beaverton High School and Raleigh Hills school replacements are scheduled to reopen in the fall of 2026.

The June 30, 2025 CIP balance is made up of:

Project - Beaverton HS Replacement	\$ 128,177,249
Project - Raleigh Hills Replacement	39,144,962
Project - Mountain View MS Seismic Upgrade	13,179,230
Project - Aloha HS HVAC Upgrade	6,939,255
Other Various Projects	47,600,332
	<u>\$ 235,041,028</u>

The following District Capital Improvement Plan is based on the \$723 million bond measure that was passed by voters in the May 2022 election.

The 2021 Beaverton School District Long Range Facilities Plan was used as the guiding document in preparing the 2022 Capital Construction Bond. All district facilities were evaluated and subjected to a needs-based screening process to develop the final list of projects that was approved by the Beaverton School District Board of Directors.

The 2022 Capital Construction Bond is a 6-year program funded by a \$723 million general obligation bond authorized by the voters in May of 2022. Investments were grouped into 6 major categories: Seismic Upgrades, Deferred Maintenance, Modernization, Additional Capacity, Technology, and Security/Other Equipment. This bond program addresses needs that were projected past the completion of the 2014 bond. Execution of the 2022 Bond program began in the 2022-23 budget year.

Modernization and repair work constitutes 55% of the Capital Plan funding and includes the replacement of Beaverton High School, Raleigh Hills Elementary School, and the Allen Street Transportation Facility. The Modernization category also includes investments in all schools constructed prior to 2014. This will help establish a new baseline for standards across the district.

Seismic Upgrade projects will be completed at 6 Middle Schools: Five Oaks, Mountain View, Meadow Park, Cedar Park, Whitford, and Highland Park. Seismic investments have been planned so that all schools have a reduced seismic risk by 2032. The 2022 bond includes the schools with the highest seismic risk that will not be replaced in a potential 2028 bond. Beaverton High School and Raleigh Hills Elementary School are two of the worst performing schools seismically and therefore, are included for replacement. Some portion of potential savings from the 2022 bond will go to additional seismic improvements.

Deferred Maintenance projects were identified through the Facilities Condition Assessment process. This is a database containing the description, condition, estimated remaining life, and estimated replacement cost of all district facility assets. This database allows us to sort and prioritize projects to best understand where to make investments.

Impact of Capital Investments on Operating Budget

The 2022 Capital Bond has a major impact on the operating budget. With an aging building inventory, it is necessary to construct improvements to various end-of-life assets annually. Two of the largest ongoing replacement needs are roofs and HVAC systems. These are also two of the costliest systems to replace. In the absence of a capital construction bond, these would become general fund expenses. For each of the planned projects below, the projected impact on the operating budget will be summarized. There are many

smaller projects not listed below. These are mostly deferred maintenance and modernization projects. These projects typically reduce operating budget expenditures because they replace old and inefficient systems and materials with new ones.

First Year (2022-23) Capital Budget

The first bond sale for the \$723M Capital Construction bond supported the capital work planned in 2022-23. The following projects were planned:

- Sato Elementary Classroom Addition
 - Budget: \$2,864,804
 - Scope: Add 4 classrooms and support spaces to the school.
 - Status: Project Complete
 - Operating Budget Impact: This project will add square footage to the building, increasing operating expenses.
- Five Oaks Middle School Roof/Seismic Upgrade
 - Budget: \$13,277,055
 - Scope: Seismic upgrade & roof replacement.
 - Status: Project Complete
 - Operating Budget Impact: The seismic project has no effect (other than potentially avoiding some repair costs after an earthquake). The roof replacement and other deferred maintenance items will reduce the operating expenditures for the building.
- Aloha High School Office Relocation
 - Budget: \$6,985,000
 - Scope: Construct new front office with secure entrance, remodel existing office space.
 - Status: Project Complete
 - Operating Budget Impact: This project will add square footage to the building, increasing operating expenses.
- Sunset High School Track Replacement
 - Budget: \$2,455,640
 - Scope: Replace subsurface and track surface of the existing track.
 - Status: Project Complete
 - Operating Budget Impact: This project will replace a failing track. This means the operating expenditure of replacement and makes the track safer.
- Baseline Technology Modernization
 - Budget: \$3,649,734
 - Scope: Develop and implement a baseline audio/visual technology standard for all classrooms in the district. This involved installing TV's, speakers, and peripherals.
 - Status: Project Complete
 - Operating Budget Impact: This project will add a large number of televisions throughout the district. The eventual replacement of these TV's will need to be budgeted for.

Second Year (2023-24) Capital Budget

The following projects were planned:

- Beaverton High School Replacement Project
 - Budget: \$253,630,000
 - Scope: Construct new Beaverton HS, demolish old building, construct site improvements.
 - Status: Under Construction, will be completed Fall 2027.
 - Operating Budget Impact: This project will both positively and negatively impact the operating budget. The new building will be larger and require more effort to clean. However, replacement of the 100-year-old building will mean avoiding significant costs to maintain the facility. The systems and materials in the new building will be much more efficient, but they will also be larger.
- Raleigh Hills Elementary Replacement Project
 - Budget: \$65,983,222
 - Scope: Tear down and rebuild Raleigh Hills Elementary School.
 - Status: Construction complete, project is in close-out.

- Operating Budget Impact: This project will both positively and negatively impact the operating budget. The new building will be larger and require more effort to clean. However, replacement of the 100-year-old building will mean avoiding significant costs to maintain the facility. The systems and materials in the new building will be much more efficient, but they will also be larger.
- Stoller Middle School Gym/Classroom Addition
 - Budget: \$12,211,054
 - Scope: Remove portables, construct new gym and classroom building.
 - Status: Project Complete
 - Operational Budget Impact: This project will add square footage to the building, increasing operating expenses.
- Mountain View Middle School Seismic Upgrade
 - Budget: \$20,106,223
 - Scope: Seismic, electrical, HVAC upgrades, ceiling & lighting replacement, new finishes.
 - Status: Project Complete
 - Operational Budget Impact: The seismic project has no effect (other than potentially avoiding some repair costs after an earthquake). The roof replacement and other deferred maintenance items will reduce the operating expenditures for the building. Utility costs should be reduced due to the LED lighting replacement.
- Southridge High School Softball/Baseball Artificial Turf
 - Budget: \$5,200,000
 - Scope: Convert natural grass baseball and softball fields to artificial turf.
 - Status: Project Complete
 - Operational Budget Impact: There will be reduced operational expenses associated with watering, mowing, and striping. There will be new operational expenses related to storm water treatment facilities, turf impact testing, turf maintenance, and end of life turf replacement.
- Westview High School Concessions
 - Budget: \$3,636,723
 - Scope: Add bathroom and concessions facility adjacent to stadium field.
 - Status: Project Complete
 - Operational Budget Impact: This project adds a new building, so there will be operating expenses for maintenance and utilities. This eliminates the need for temporary bathroom facilities onsite, but overall, this is a cost increase.
- Westview High School Office Relocation
 - Budget: \$3,465,670
 - Scope: Create new secure front entrance and offices.
 - Status: Project Complete
 - Operational Budget Impact: This project has little to no impact on the operational budget. It does add a small amount of square footage, but other than that it is cost neutral.
- Springville Elementary Courtyard Renovation
 - Budget: \$1,000,000
 - Scope: Replace existing courtyard surfacing with artificial turf.
 - Status: Project Complete
 - Operational Budget Impact: This project should represent a reduction in operational costs. Previously, the courtyard was covered with wood chips, and it created a significant mess. This involved a lot of cleaning and maintenance.

Third Year (2024-25) Capital Budget

The following projects were planned:

- Aloha High School Softball/Baseball Artificial Turf
 - Budget: \$9,000,000
 - Scope: Convert natural grass baseball and softball fields to artificial turf along with a new soccer field. Improve drainage, pathways, backstop netting, dugouts, and various other items.
 - Status: Project Complete
 - Operational Budget Impact: There will be reduced operational expenses associated with watering, mowing, and striping. There will be new operational expenses related to storm water treatment facilities, turf impact testing, turf maintenance, and end of life turf replacement.
- Aloha High School Athletic Facility
 - Budget: \$2,000,000
 - Scope: Construct a new softball batting cage and improve existing concessions/bathrooms.
 - Status: Design/Procurement, construction summer 2026
 - Operational Budget Impact: The new batting cage will add square footage that must be maintained. The concessions improvements will offset maintenance costs associated with the old building.
- Aloha High School HVAC Upgrades
 - Budget: \$21,805,000
 - Scope: Replace end-of-life HVAC systems, distribution, and controls.
 - Status: Under Construction, will be complete summer 2026.
 - Operational Budget Impact
- Cooper Mountain Elementary Office Relocation
 - Budget: \$1,790,930
 - Scope: Create new secure front entrance and offices.
 - Status: Project Complete
 - Operational Budget Impact: This project has little to no impact on the operational budget. It does add a small amount of square footage, but other than that it is cost neutral.
- Meadow Park Middle School Seismic Upgrades
 - Budget: \$25,700,000
 - Scope: Seismic upgrades, roof replacement, ceiling/lighting/electrical upgrades.
 - Status: Under Construction, will be complete summer 2026.
 - Operational Budget Impact: The seismic project has no effect (other than potentially avoiding some repair costs after an earthquake). The roof replacement and other deferred maintenance items will reduce the operating expenditures for the building.
- Oak Hills Elementary Classroom Addition & Outdoor Learning
 - Budget: \$4,733,717
 - Scope: Add 4 classrooms and support spaces to the school along with a new covered play.
 - Status: Project Complete

- Operational Budget Impact: This project will add square footage to the building, increasing operating expenses.
- McKinley Elementary Outdoor Learning
 - Budget: \$1,687,138
 - Scope: Convert courtyard to artificial turf, add covered play.
 - Status: Pre-construction, construction starts summer 2026.
 - Operational Budget Impact: There will not be any significant operational cost impacts.

Fourth Year (2025-26) Capital Budget

The following projects were planned:

- Allen Transportation Replacement
 - Budget: \$13,900,000
 - Scope: Tear down and rebuild the Allen Transportation bus maintenance facility.
 - Status: Pre-construction, construction starts April 2026.
 - Operational Budget Impact: This project will reduce operational expenditure. The new building will be the same size as the existing building and be new and efficient.
- Aloha Huber Outdoor Learning
 - Budget: \$2,000,000
 - Scope: Add playground and covered play.
 - Status: Pre-construction, construction starts summer 2026.
 - Operational Budget Impact: There will be minor added costs to maintain the new playground area.
- Cedar Park Seismic Upgrades
 - Budget: \$25,041,629
 - Scope: Seismic upgrades and roof replacement.
 - Status: Pre-construction, construction starts summer 2026
 - Operational Budget Impact: Similar to the other seismic projects.
- SRHS Athletic Facility
 - Budget: \$2,000,000
 - Scope: New ticket booth and storage building adjacent to stadium field.
 - Status: Design, construction starts summer 2026
 - Operational Budget Impact: Not yet known
- Westview Softball/Baseball Artificial Turf
 - Budget: \$4,000,000
 - Scope: Convert existing softball and baseball fields to artificial turf.
 - Status: Design, construction starts summer 2026
 - Operational Budget Impact: Similar to the other turf projects.
- Sunset High School HVAC Upgrades
 - Budget: \$14,500,000
 - Scope: Replace end-of-life HVAC systems, distribution, and controls.
 - Status: Pre-construction, construction starts summer 2026.
 - Operational Budget Impact: Similar to the other HVAC projects.
- Security Upgrades
 - Budget: \$16,000,000
 - Scope: Additional cameras, card readers, and intrusion devices district wide.
 - Status: Under construction, about 50% complete.

- Operational Budget Impact: This project ultimately adds quite a bit of security infrastructure that will need to be maintained.

Fifth Year (2026-27) Capital Budget

The following projects are planned:

- Beaver Acres Cafeteria/Kitchen
 - Budget: \$12,500,000
 - Scope: Construct new cafeteria and kitchen.
 - Status: Pre-construction, construction starts summer 2026.
 - Operational Budget Impact: This project will add square footage to the building, so in that sense it impacts the operational budget. However, it will also be replacing a very old kitchen that is maintenance heavy with a new one. So, overall, it is relatively neutral.
- Barnes Elementary Gym/Cafeteria
 - Budget: \$14,000,000
 - Scope: Construct new gym and cafeteria.
 - Status: Currently in procurement.
 - Operational Budget Impact: This project will help the operational budget. We will be replacing old failing building sections which will reduce the maintenance expenditures.
- Whitford Middle School Seismic Upgrades
 - Budget: TBD
 - Scope: Seismic upgrades
 - Status: Design
 - Operational Budget Impact: Similar to the other seismic projects.
- Highland Park Middle School Seismic Upgrades
 - Budget: TBD
 - Scope: Seismic upgrades
 - Status: Design
 - Operational Budget Impact: Similar to the other seismic projects.

Sixth Year (2027-28) Capital Budget

The following projects are planned:

- Deferred Maintenance: the District will continue to have deferred maintenance projects for the rest of the bond. This summer, the specific projects will be identified for 2027-28.
- Security Upgrades: The security upgrade projects in the bond are about halfway complete. These projects will likely be continuing over the next couple of years.
- Modernization: Modernization projects are planned to be completed over the last couple of years of the bond. The projects were scheduled based on overall condition, so the schools at the end of the bond will be the newer schools.
- Bond Planning: the District will be working on planning projects and doing a needs assessment for a future potential bond.
- Additional Projects: As the end of the bond nears, the remaining contingency funds that will be used to fund other projects. These process of identifying these projects is underway.

Long Range Planning

In Fall of 2024, BSD began a new long range planning process. This process will look at: community values and priorities for our schools, declining enrollment and projected enrollment trends, Facility capacity and condition, boundaries and feeder patterns, and educational specifications. This process will involve a significant amount of outreach and community engagement. The outcome of this process will help inform a potential future capital improvement bond. The results of this process were shared with the school board at their February 2026 business meeting. The next step for us will be a decision regarding a potential future bond in 2028.

Insurance Reserve Fund (610)

INSURANCE RESERVE FUND OVERVIEW

The Insurance Reserve Fund accounts for costs incurred by the District under its self-insurance programs, except workers' compensation, up to insurance policy deductible limits. These programs include property liability, life, long-term disability, and unemployment.

The District is self-insured for costs up to policy deductible limits as follows:

- General Liability and School Board errors and omissions - \$500,000 per occurrence
- Fire loss, property damage, all risk (theft, vandalism, etc.) - \$500,000 per occurrence
- Long-term disability claims – payment of all claims for the first fifty-one months of disability for eligible administrator and classified staff. Eligible certified staff are fully insured for disability claims.

Principal revenue sources for the Insurance Reserve Fund are services provided to other funds and a transfer from the General Fund. The services provided other funds makes up 18.3% of total budgeted revenue, followed by the transfer from the General Fund at 14.1%. Services provided other funds are made up of unemployment insurance, life insurance and long-term disability insurance charges against salaries paid. The rates for the 2026-27 year are 0.32% for unemployment insurance, 0.20% for life insurance and 0.35% for long-term disability insurance. These rates have generally been steady over several years, with revenue only fluctuating with the salaries expended by the District. The unemployment rate increased by 0.02% for the 2026-27 year as a result of SB 489 costs and unemployment costs for classified staff over school breaks, including summer.

The beginning fund balance has increased due to additional interest income, lower claim expenses than anticipated and less unemployment impacts in the first year of SB 489. A portion of this fund balance is planned to be spent down over the next three years.

Expenditures – Major expenditures in the Insurance Reserve Fund are in the area of Other Objects, which is where all insurance judgements and settlements are accounted for. This makes up 41.7% of the total Insurance Reserve Fund budget.

*Workers' Compensation
Fund (620)*

WORKERS' COMPENSATION FUND OVERVIEW

The Workers' Compensation Fund accounts for claims relating to on-the-job injuries up to insurance policy deductible limits. The District is self-insured for costs up to policy deductible limits of \$400,000 per claim for workers' compensation.

The primary revenue source for the Workers' Compensation Fund is services provided to other funds, which makes up 44.3% of the total revenue.

The services provided to other funds are made up of workers' compensation insurance charges against salaries paid. The rate for the 2026-27 year is 0.65% which the same as 2025-26 and 0.15% less than it was in 2024-25. After analyzing the revenue generated by this charge against salaries, the beginning fund balance and the reduction in claims, it was determined that the rate should be decreased for the 2025-26 year. This small change has led to a slow spend down of the fund balance.

Expenditures – Major expenditures in the Workers' Compensation Fund are in the area of Other Objects, which is where all insurance judgements and settlements are accounted for. This makes up 42.5% of the total Workers' Compensation Fund budget.

Classroom Teacher Definition - Regular full-time and part-time staff who work in instructional activities dealing directly with the teaching of students including school classroom teachers K-12. This document does not include elementary PE specialists and elementary music specialists.

Note: The budgeted enrollment may not agree to other projected enrollment information within this document due to enrollment being adjusted for a 3 year ADM trend prior to staffing for high school, a 1% holdback for elementary and middle schools and the weighted enrollment calculation. The budgeted enrollment listed here is the enrollment that was used for staffing but presented unweighted.

*McKay Elementary School will close at the end of the 2025-26 school year. Students that attended McKay Elementary School in the 2025-26 school year have been reassigned to Greenway Elementary School and Raleigh Hills Elementary School.

District Totals	4,394.8	4,500.2	4,610.4	4,699.9	4,541.0

The District is budgeting a 3.4% decrease in personnel allocations for 2026–27 compared to the prior year. This decrease is driven by continued enrollment decline, slowing local option levy revenues that support classroom teachers, and district-wide budget reductions. Enrollment is projected to continue declining in coming years, which will have ongoing implications for staffing levels.

BEAVERTON SCHOOL DISTRICT

PROPERTY TAX SYSTEM AND ASSESSMENT OVERVIEW

In Oregon, property taxes help support police, fire protection, education and other public services provided by local taxing districts, such as cities, counties, and schools. Oregon's property tax system represents one of the most important sources of revenue for local governments. Oregon's property tax system is defined by two significant constitutional limitations that were put into place by initiative petitions passed by voters in 1990 (Measure 5) and 1997 (Measure 50).

- Measure 5 – amendment to the Oregon constitution setting an upper limit on the amount of property taxes to be collected. By 1995, the permanent tax rates of \$5 per \$1000 of RMV for schools and \$10 per \$1,000 RMV for general government taxes were established. This applied only to operating taxes, not bonds.
- Measure 50 – established a Maximum Assessed Value (MAV) for each property that existed in 1995. The lower of the MAV or Real Market Value (RMV) determined the assessed value (AV). Annual growth of AV was limited to 3% for existing property and for new property, the AV = RMV times (AV / RMV of similar property).

Property is taxed on its AV. A property's AV is the lower of its RMV or its MAV. Each year, the county assessor determines the property's RMV and calculates its MAV.

Oregon law states that the county assessor must value all property at 100 percent of its RMV. RMV is typically the price a property would sell for in a transaction between a willing buyer and a willing seller on January 1, the assessment date for the tax year. To estimate the RMV for a property, the county assessor appraises the property by comparing sales of similar properties, building costs and net operating income if applicable. Some property, such as farm or forest property, may be subject to special valuation processes.

A property's MAV is the taxable value limit established for each property. The first MAV for each property was set in the 1997-98 tax year. For that year, the MAV was the property's 1995-96 RMV minus 10 percent. MAV can increase for only two reasons:

1. Three percent increase – for tax years after 1997-98, MAV is derived as the greater of the prior year's MAV or the prior year's AV increased by three percent. For the Majority of Washington County accounts, the MAV will increase three percent per year.
2. Exceptions –
 - a. Changes in the property value as the result of new property or new improvements to property. These property events from minor construction will generally increase RMV, although it may not change MAV,
 - b. The property is partitioned or subdivided,
 - c. The property is rezoned and the use is changed consistent with rezoning,
 - d. The property was omitted from previous tax rolls, or
 - e. The property becomes disqualified from exemption, partial exemption or special assessment.

New construction affects MAV if it increases the value of the property by more than \$18,200 in any one year or \$45,000 within any consecutive five years.

BEAVERTON SCHOOL DISTRICT

BUDGET'S EFFECT ON TAXPAYERS

TAXES PAID BY AVERAGE HOMEOWNERS

The District has a permanent tax rate of \$4.6930 per \$1,000 of AV and a local option rate of \$1.25 per \$1,000 of AV. The local option rate is a result of the May 2013 election, where Beaverton voters approved a local option levy to fund classroom teachers within the District. The local option levy was renewed in 2018 and again in 2022. The current local option levy will expire on June 30, 2028. Additionally, the District has a bond tax rate that is determined by the District's debt service each year.

The table below presents tax rates, average assessed values, and tax burden for homeowners in the District. The projected tax burden for 2025-26 is calculated based on the average assessed values provided by Washington County and the District's projected tax rates for the year.

	2022-23	2023-24	2024-25	2025-26	Projected 2026-27
Tax Rates					
Permanent Tax Rate per \$1,000 of AV	4.6930	4.6930	4.6930	4.6930	4.6930
Bond Tax Rate per \$1,000 of AV	2.2479	2.1854	2.2697	2.3217	2.3807
Local Option Tax per \$1,000 of AV	1.2500	1.2500	1.2500	1.2500	1.2500

DEBT SERVICE SCHEDULES

General Obligation Bonds

The District issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities. General obligation bonds are direct obligations and pledge the full faith and credit of the government. These bonds generally are issued as 20-year serial bonds with equal amounts of principal maturing each year.

On May 11, 2017, the District issued \$38,990,000 in General Obligation Bonds, Series 2017A, \$76,483,176 in General Obligation Bonds, Series 2017B, \$32,980,000 in General Obligation Bonds, Series 2017C, and \$149,397,089 in General Obligation Bonds, Series 2017D to finance the second phase of capital construction and improvements related to the \$680 million bond measure passed by voters in May 2014. Principal is paid in June, with a final maturity in June 2028 for the Series 2017A Bonds, June 2034 for the Series 2017B Bonds, June 2035 for the Series 2017C Bonds, and June 2036 for the Series 2017D Bonds.

The Series 2017A are taxable bonds with interest rates from 1.49% to 3.23%. Interest is payable semiannually in June and December for the Series 2017A Bonds. The Series 2017A Bonds maturing on June 15, 2028 are subject to redemption prior to maturity at a price of par plus accrued interest on or after June 15, 2027.

The Series 2017B are deferred interest bonds with interest rates from 3.57% to 4.13%. Interest on the Series 2017B Bonds is payable only at maturity. The Series 2017B Bonds are subject to redemption prior to maturity at a price of 100 percent of the accreted par value on the redemption date on or after June 15, 2027.

The Series 2017C are current interest bonds with an interest rate of 5.00%. Interest is payable semiannually in June and December for the Series 2017C Series Bonds. The Series 2017C Bonds maturing in 2028 and 2035 are subject to redemption prior to maturity at a price of par plus accrued interest on or after June 15, 2027.

The Series 2017D are convertible deferred interest bonds with an interest rates of 5.00%. The Series 2017D Bonds will convert into current interest bonds in June 2018, after which interest will be payable semiannually in June and December. The 2017D Series Bonds maturing in 2035 and 2036 are subject to redemption prior to maturity at a price of 100 percent of accreted par value plus accrued interest on or after June 15, 2027.

The District issued on June 30, 2020 new General Obligation Bonds Series 2020 Bonds in the amount of \$432,745,000 to refund \$71,060,000 in 2012B bonds and \$298,310,000 in 2014B bonds. Series 2020 bonds have a final maturity June 15, 2034, with interest rates range from 0.351% to 2.093% with semiannual interest paid in December and June, and principal payments annually in June.

On July 12, 2022, the District issued \$142,742,153 in General Obligation Bonds, Series 2022A and \$176,670,000 in General Obligation Bonds, Series 2022B to finance the first phase of capital construction and improvements related to the \$723 million bond measure passed by voters in May 2022. Principal is paid in June, with a final maturity in June 2048 for the Series 2022A Bonds, and June 2052 for the Series 2022B Bonds.

The Series 2022A are deferred interest bonds with interest rates from 4.37% to 4.93%. Interest on the Series 2022A Bonds is payable only at maturity. The Series 2022A Bonds are subject to redemption prior to maturity at a price of 100 percent of the accreted par value on the redemption date on or after June 15, 2032.

The Series 2022B are current interest bonds with an interest rate of 5.00%. Interest is payable semiannually in June and December for the Series 2022B Series Bonds. The Series 2022B Bonds maturing in 2033 and 2052 are subject to redemption prior to maturity at a price of par plus accrued interest on or after June 15, 2032.

On May 28, 2025, the District issued \$152,359,587.80 in General Obligation Bonds, Series 2025A and \$251,225,000 in General Obligation Bonds, Series 2025B to finance the second phase of capital construction and improvements related to the \$723 million bond measure passed by voters in May 2022. Principal is paid in June, with a final maturity in June 2047 for the Series 2025A Bonds, and June 2053 for the Series 2025B Bonds.

Source: Business Services

The Series 2025A are deferred interest bonds with interest rates from 3.88% to 5.32%. Interest on the Series 2025A Bonds is payable only at maturity. The Series 2025A Bonds are subject to redemption prior to maturity at a price of 100 percent of the accreted par value on the redemption date on or after June 15, 2037.

The Series 2025B are current interest bonds with an interest rate of 5.00%. Interest is payable semiannually in June and December for the Series 2025B Series Bonds. The Series 2025B Bonds maturing on June 15, 2036 and on any date thereafter in whole or in part, in any order of maturity with maturities selected by the District, are subject to redemption prior to maturity at a price of par plus accrued interest.

The bulk of the District's debt service consists of General Obligation (GO) bonds paid with revenues generated through voter approved tax measures. Debt service payments for GO bonds are budgeted at \$92,695,407.29 in fiscal year 2025-26. Debt Service payments will increase to \$95,480,072 in fiscal year 2026-27.

Full Faith and Credit Obligation Bonds

On March 19, 2009 the District issued full faith and credit obligation bonds to provide funds for the construction of the Transportation Service Center, an option school auditorium, bus particulate traps and an option school remodel. The District issued \$16,260,000 full faith and credit obligation bonds on April 27, 2016, placing the proceeds of new bonds in irrevocable trusts to provide for all future debt service payments on the old obligations. Interest rates on the 2016 bonds range from 2.00% to 4.00% with a final maturity date of June 1, 2036.

On November 30, 2021 the District issued Full Faith and Credit Obligation Bonds for the purchase of a building. The \$9,200,000 Full Faith and Credit Obligation Bonds, Series 2021A, has an interest rate of 1.810% with final maturity in 2036. The \$7,000,000 Full Faith and Credit Obligation Bonds, Series 2021B, has an interest rate of 0.79% with final maturity in 2024. Debt service requirement is paid from the General Fund, with semiannual interest paid in December and June, and principal payments annually in June.

Limited Tax Pension Obligation Bonds

On June 21, 2005 the District participated with thirteen Oregon school districts and two educational service districts in a pooled issuance of taxable pension obligation bonds to finance the District's estimated PERS unfunded actuarial liability. The District issued \$189,935,000 in debt as part of a pooled issuance of \$475,205,000. Except for the payment of its pension bond payments and additional charges when due, each school district has no obligation or liability to any other participating school district's pension bonds or liabilities to PERS. Bond proceeds were paid to the Oregon Public Employees Retirement System. An intercept agreement with the State of Oregon was required as a condition of issuance; therefore, a portion of State School Fund support is withheld on a monthly basis to repay debt. Funds are accumulated and invested by a trust officer and annual principal and interest payments are made each June 30, beginning June 2005 and ending June 2028. The bond interest rates range from 4.11% to 4.76%.

On February 26, 2015 the District issued \$79,220,000 taxable pension obligation bonds to finance District's estimated PERS unfunded actuarial liability. The bond proceeds were paid to the Oregon Public Employees Retirement System. No intercept agreement exists for the bonds issued in 2015. Annual principal and interest payments are made each June 30, beginning in June 2015 and ending June 2034. The bond interest rates range from 0.35% to 4.06%.

The reduction in pension expense resulting from the side account will be reflected as a reduction in the District's proportionate share of the PERS net pension liability or an increase in the District's proportionate share of the PERS net pension asset from the General Fund. Debt service requirements will remain at about the \$1.34 million level through the remainder of the life of the obligations.

STUDENT ENROLLMENT HISTORY AND PROJECTIONS AS OF SEPTEMBER 30

Enrollment Projection Methodology:

The District develops annual enrollment projections for grades 1-12 using three types of information: cohort survival history, current and projected housing development, and overall economic picture. Cohort survival is a commonly used demographic technique that looks at the number of students in a given grade or series of grades (called a "cohort"), and determines how many of those students will move up to the next grade or school level. Cohort survival in a given area is affected by in- and out-migration of families in response to economic climate, the type of housing available (i.e., single family units vs. multiple family units), and general mobility of the population. Because there are no previous years' "cohorts" to compare classes with, kindergarten projections are generated using birth rates and BSD "capture" rates of eligible births in Washington County.

Beaverton School District Staffing Allocation Methodology (SAM) 2026-27

Elementary Schools

Kindergarten - 2nd grade classes are staffed at a ratio of 25.84 students per teacher. Third grade through 5th grade classes are staffed at a ratio of 27.15. The staffing ratio was weighted at 0.25 for students of poverty for each school. The overall classroom teacher staffing of each elementary school was determined by their weighted enrollment. Counseling is also calculated on weighted enrollment. All other staffing that is dependent on enrollment used unweighted projected enrollment.

FLEX Online Elementary teachers are allocated based on the number of students projected for grades K-5, using the ratio provided in the Option Schools Staffing Allocation Methodology. All other allocations are calculated based on the number of students projected for FLEX Online Elementary combined with projected students for West TV Elementary, using the Elementary Schools Staffing Allocation Methodology. These allocations include: specialists, counselors, instructional coaches, general paraeducators, and special education and ELD staffing.

Middle Schools

Middle School students enroll in Language Arts, Mathematics, Physical Education/Health Science, and Social Studies each year. In addition, two periods of electives are offered each semester. The menu of electives includes AVID, Applied Arts/Technology, Fine Arts, and Spanish. Students may receive support for Special Education or English Language Learning in lieu of electives.

Staffing to schools is based on a ratio of 1.0 FTE to 26.73 students. For the purposes of staffing, a school's student count is determined by using a weighted enrollment strategy. The total population of the school for staffing is calculated by augmenting the enrollment of the school with an additional 0.5 student weighting for all students of poverty.

Beaverton School District Staffing Allocation Methodology (SAM) 2026-27

CTE Classroom Teacher Adjustments

High Schools receive an adjustment to their overall ratio classroom teacher allocations based on CTE Option Projections for enrollment in Anatomy/Physiology addition to Health Careers 1, Behavioral Health and Electrical. These projections are based upon historical enrollment patterns and course selection numbers and adjusted by the number of periods a student participates. The projections in these courses are reduced from the school's overall weighted enrollment and the ratio is reapplied. The difference between the teachers before and after the projection adjustment is a negative adjustment to each school.

Beaverton School District Staffing Allocation Methodology (SAM) 2026-27

Option Schools

For the purposes of staffing, a school’s student count is determined by using a weighted enrollment strategy. The total population of the school for staffing is calculated by augmenting the enrollment of the school with an additional 0.5 student count for all students of poverty. The District has one K-12 option school, FLEX Online School. Elementary students at FLEX Online School are weighted at 0.25, while secondary students are weighted at 0.5.

FLEX Online Elementary teachers are allocated based on the number of students projected for grades K-5. All other allocations are calculated based on the number of students projected for FLEX Online Elementary combined with projected students for West TV Elementary, using the Elementary Schools Staffing Allocation Methodology. These allocations include: specialists, counselors, instructional coaches, general paraeducators, and special education and ELD staffing.

Beaverton School District Staffing Allocation Methodology (SAM) 2026-27

Special Education

Resource Room Staffing

Licensed and Classified Staffing

Resource room licensed and classified staffing is based on January caseload numbers. The following criteria determine caseload:

1. The student is currently eligible for special education services.
2. Parental consent for special education services has been signed.
3. The student is actively enrolled at the school.
4. The student is directly case-managed by the resource room teacher.

Eligible students case-managed by another service provider (e.g., Speech Language Pathologist) are not included in the resource room caseload, even if they receive services through the resource room. Instead, they are counted toward the service provider’s caseload. Additionally, students in the evaluation process or not yet enrolled and attending the school are not included in caseload calculations.

The staffing ratios are as follows:

- **Elementary Schools:** Average licensed staffing ratio is **1:27**
- **Secondary Schools:** Average licensed staffing ratio is **1:32** (minimum allocation: 0.25 FTE for caseloads under 11 students).

Caseload averages below these thresholds require 8 hours per week to be set aside for overflow testing and other district-assigned duties. For detailed staffing ratios, refer to the tables below.

Elementary (including K-8 school) Resource Room Licensed Staffing		Elementary (including K-8 school) Resource Room Classified Staffing	
Caseload Average	Licensed FTE	Classified FTE	Hours/Day (182 Day Calendar)
0-27 Students*	1.000*	0.875	7.0 hours
28-41 Students	1.500

**Specialized Program Staffing
Projections and Adjustments**

Specialized program classified staffing allocations are based on 2026-27 classroom projections. These allocations do not include students with additional adult assistance, which are handled separately. Adjustments to specialized program staffing will occur:

- **June and August:** Initial placement adjustments based on classroom projections.
- **October:** Final adjustments.

For program-specific staffing ratios, see the specialized program tables below.

**Beaverton School District
Staffing Allocation Methodology (SAM)
2026-27**

Elementary ALC Staffing Ratio*			
Students	Licensed FTE	Classified FTE	Hours/Day (182 Day Calendar)
0-11	1.000	1.750	14.0 hours
12-14	1.000	2.625	21.0 hours
15+	1.000	3.375	27.0 hours
<p>* Allocations are per classroom. If multiple classrooms in one school, student projection is divided equally by number of classrooms and then above ratios are applied to <i>each</i> classroom. Internal classroom distribution does not impact staffing.</p> <p>This model is designed for a minimum of two paraeducators per classroom and stable staffing across enrollment shifts. It is not intended to scale linearly with each additional or reduced student. Staffing increases in predictable tiers to ensure consistency and safety, and enrollment fluctuations do not automatically trigger changes.</p>			
Secondary ALC Staffing Ratio*			
Students	Licensed FTE	Classified FTE	Hours/Day (182 Day Calendar)
0-12	1.000	1.750	14.0 hours
13-16	1.000	2.625	21.0 hours
17+	1.000	3.500	28.0 hours
<p>* Allocations are per classroom. If multiple classrooms in one school, student projection is divided equally by number of classrooms and then above ratios are applied to <i>each</i> classroom. Internal classroom distribution does not impact staffing.</p> <p>This model is designed for a minimum of two paraeducators per classroom and stable staffing across enrollment shifts. It is not intended to scale linearly with each additional or reduced student. Staffing increases in predictable tiers to ensure consistency and safety, and enrollment fluctuations do not automatically trigger changes.</p>			

Elementary EGC Staffing Ratio*			
Students	Licensed FTE	Classified FTE	Hours/Day (182 Day Calendar)
0-9	1.000	1.750	14.0 hours
10-12	1.000	2.625	21.0 hours
13+	1.000	3.500	28.0 hours
<p>* Allocations are per classroom. If multiple classrooms in one school, student projection is divided equally by number of classrooms and then above ratios are applied to <i>each</i> classroom. Internal classroom distribution does not impact staffing.</p> <p>This model is designed for a minimum of two paraeducators per classroom and stable staffing across enrollment shifts. **Beaverton School District
Staffing Allocation Methodology (SAM)
2026-27**

Secondary EGC Staffing Ratio*			
Students	Licensed FTE	Classified FTE	Hours/Day (182 Day Calendar)
0-10	1.000	0.875	7.0 hours
11+	1.000	1.750	14.0hours

* Allocations are per classroom. If multiple classrooms in one school, student projection is divided equally by number of classrooms and then above ratios are applied to *each* classroom. Internal classroom distribution does not impact staffing.

This model is designed for a minimum of one paraeducators per classroom and stable staffing across enrollment shifts. It is not intended to scale linearly with each additional or reduced student. Staffing increases in predictable tiers to ensure consistency and safety, and enrollment fluctuations do not automatically trigger changes.

Elementary ELC Staffing Ratio*				
Students	Licensed (Teacher) FTE	Social Worker FTE	Classified FTE	Hours/Day (182 Day Calendar)
0-6	1.000	0.500	1.750	14.0 hours
7-10	1.000	0.500	2.625	21.0 hours
11+	1.000	0.500	3.500	28.0 hours

* Allocations are per classroom. If multiple classrooms in one school, student projection is divided equally by number of classrooms and then above ratios are applied to *each* classroom. Internal classroom distribution does not impact staffing.

This model is designed for a minimum of two paraeducators per classroom and stable staffing across enrollment shifts. It is not intended to scale linearly with each additional or reduced student. Staffing increases in predictable tiers to ensure consistency and safety, and enrollment fluctuations do not automatically trigger changes.

All Levels ISC Staffing Ratio*			
Students	Licensed FTE	Classified FTE	Hours/Day (182 Day Calendar)
0-5	1.000	1.750	14.0 hours
6-8	1.000	2.625	21.0 hours
9-11	1.000	3.500	28.0 hours
12-14	1.000	4.375	35.0 hours
15+	1.000	5.250	42.0 hours

* Allocations are per classroom. If multiple classrooms in one school, student projection is divided equally by number of classrooms and then above ratios are applied to *each* classroom. Internal classroom distribution does not impact staffing.

This model is designed to reflect the intensity of needs in ISC classrooms, including assistance with medical care, adaptive equipment, mobility, feeding, toileting, and functional communication. Staffing increases in predictable tiers to ensure consistency and safety, and enrollment fluctuations do not automatically trigger changes.

**Beaverton School District
Staffing Allocation Methodology (SAM)
2026-27**

Elementary SCC Staffing Ratio*			
Students	Licensed FTE	Classified FTE	Hours/Day (182 Day Calendar)
0-8	1.000	1.750	14.0 hours
9-15	1.000	2.625	21.0 hours
15+	1.000	3.500	28.0 hours

* Allocations are per classroom. If multiple classrooms in one school, student projection is divided equally by number of classrooms and then above ratios are applied to *each* classroom. Internal classroom distribution does not impact staffing.

This model is designed for a minimum of two paraeducators per classroom and stable staffing across enrollment shifts. It is not intended to scale linearly with each additional or reduced student. Staffing increases in predictable tiers to ensure consistency and safety, and enrollment fluctuations do not automatically trigger changes.

Secondary SCC Staffing Ratio*			
Students	Licensed FTE	Classified FTE	Hours/Day (182 Day Calendar)
0-8	1.000	0.875	7.0 hours
9-13	1.000	1.750	14.0 hours
14-17	1.000	2.625	21.0 hours
18+	1.000	3.500	28.0 hours

* Allocations are per classroom. If multiple classrooms in one school, student projection is divided equally by number of classrooms and then above ratios are applied to *each* classroom. Internal classroom distribution does not impact staffing.

This secondary model accounts for classroom-based and inclusion paraeducator support for students accessing general education settings. Staffing increases in predictable tiers to ensure consistency and safety, and enrollment fluctuations do not automatically trigger changes.

Elementary SRC Staffing Ratio*			
Students	Licensed FTE	Classified FTE	Hours/Day (182 Day Calendar)
0-9	1.000	2.625	21.0 hours
10-12	1.000	3.500	28.0 hours
13+	1.000	4.375	35.0 hours

* Allocations are per classroom. If multiple classrooms in one school, student projection is divided equally by number of classrooms and then above ratios are applied to *each* classroom. Internal classroom distribution does not impact staffing.

This model reflects the intensive support needs of SRC students, including high levels of structure, visual supports, AAC devices, regulation routines, and individualized supervision. Staffing increases in predictable tiers to ensure consistency and safety, and enrollment fluctuations do not automatically trigger changes.

**Beaverton School District
Staffing Allocation Methodology (SAM)
2026-27**

Secondary SRC Staffing Ratio*			
Students	Licensed FTE	Classified FTE	Hours/Day (182 Day Calendar)
0-8	1.000	1.750	14.0 hours
9-12	1.000	2.625	21.0 hours
13+	1.000	3.500	28.0 hours

* Allocations are per classroom. If multiple classrooms in one school, student projection is divided equally by number of classrooms and then above ratios are applied to *each* classroom. Internal classroom distribution does not impact staffing.

Secondary SRC classrooms serve students with significant support needs in communication, regulation, adaptive functioning, and academic access. Staffing levels reflect consistent needs for structure and safety. Some students participate in general education settings; paraeducator allocations include time for push-in support as appropriate. Enrollment fluctuations do not trigger automatic staffing changes.

Work Experience Teacher	
Allocation	Criteria
1.000	Per Comprehensive High School

School Psychologist
<i>Allocations are per building based on total enrollment, number/type of specialized programs, poverty weighting and mobility.</i>

Speech Language Pathologist
<i>Allocations are based on the SLP weighted model and the number of ISC and SRC programs.</i>

Beaverton School District Staffing Allocation Methodology (SAM) 2026-27

English Language Learners (ELL)

The 2026-27 allocations were determined using the EL projections for the 2026-27 school year. Separate ratios are used to calculate teacher allocations for DL students and EL students at the elementary level. Newcomer students are included at an additional 0.25 weight.

Elementary Licensed Staffing		Elementary Classified Staffing		
DL Students	EL Students	Criteria	Classified FTE	Hours/Day (182 Day Calendar)
60:1	45:1	Licensed FTE < 1.0	0.875	7.0 hours
Licensed allocation rounded to nearest 0.5				

Middle/High School Licensed Staffing		Middle/High School Classified Staffing		
EL/DL Students	Criteria	Classified FTE	Hours/Day (182 Day Calendar)	
60:1	Licensed FTE < 1.0	0.875	7.0 hours	
Licensed allocation rounded to nearest 0.167 for Middle Schools and Options, except FLEX and Community School. High Schools, FLEX and Community School round to the nearest 0.2.				

A total of 32.5 Bilingual Resource Facilitator I (BRFI) positions (7.5 hours/day) will be funded for the 2026-27 school year. To determine which schools were allocated BRFI positions, the following items were taken into consideration:

1. The primary responsibility of a BRFI is to provide language interpretation and translation services. Therefore, BRFI staffing allocations are generally based on each school's proportion of students who have at least one parent/guardian that requires those services. Most of the meetings for which interpretation services are needed are in Spanish and are related to Special Education (e.g., contacting families to schedule IEP meetings, interpreting at IEP meetings). While a BRFI does provide some support to students that speak languages other than English and Spanish and to their parents/guardians, most of their needs are met by the MLD-based Bilingual Resource Facilitator II staff (e.g., interpreting at meetings). Therefore, these are the weights that were given to different student characteristics when determining each school's proportion of BRFI staffing:
 - a. Students with disabilities who have at least one parent/guardian that requires Spanish interpretation: 3X
 - b. Students without disabilities who have at least one parent/guardian that requires Spanish interpretation: 1X
 - c. All other students who have at least one parent/guardian that requires interpretation (non-Spanish): .25X
2. Middle and high schools (non Option program schools) were allocated at least a .5 BRFI position due to the complexity and increased volume of the demands on a BRFI at those levels (e.g., more meetings with families, evening events).
3. All schools that host a Spanish Dual Language program were allocated at least a 1.0 BRFI due to the increased communication that needs to be provided to families in those programs. Jacob Wismer Elementary School's new Mandarin Chinese Dual Language program will be supported by the Mandarin-speaking MLD-based Bilingual Resource Facilitator II.
4. The Dari/Pashto-speaking BRFI position was divided among three Newcomer Center schools: Aloha Huber Park (elementary), Meadow Park (middle), and Beaverton High School (high). The remaining Newcomer Centers will continue to be supported by BRFI staff at those sites (AHS 4.0, WVHS 2.0).

Students Experiencing Poverty vs. Total Enrollment

No scores are presented for 2025 as there were less than 10 students with scores.

Level 1: The student has not yet met the grade-level achievement standard.

Level 2: The student has nearly met the grade-level achievement standard.

Level 3 – The student has meet the grade-level achievement standard.

Level 4 – The student has exceeded the grade-level achievement standard.

PERFORMANCE MEASURES

Dropout Rates

Dropout data is collected in the Annual Cumulative Average Daily Membership (ADM) Data Collection each year at the end of the school year, which identifies students' enrollment dates and status as of the last day of enrollment for the year. A dropout is a student who withdrew from school and did not graduate or transfer to another school that leads to graduation. Dropouts do not include students who:

- are deceased,
- are being home schooled,
- are enrolled in an alternative school or hospital education program,
- are enrolled in a juvenile detention facility,
- are enrolled in a foreign exchange program,
- are temporarily absent because of suspension, a family emergency, or severe health problems that prevent attendance at school,
- received a GED certificate,
- received an adult high school diploma from a community college.

Dropout rates at the State level had been decreasing for several years since 2015-16. As students returned to schools after the pandemic, the State dropout rate had a sharp increase in 2021-22. The District's increase mirrors that of the State but is still more than 50% below the State dropout rate. For the 2024-25 school year, the District dropout rate is 1% lower than the State dropout rate.

Beaverton School District graduation rates had been on the rise for several years of students graduating on time in four years. Although the District saw a slight decline in the 2020-21 year (students who entered 9th grade in 2017-18), the District is once again on the rise and has reached an all-time high in 2021-22 (students who entered 9th grade in 2018-19). Since then, the graduation rates have been decreasing slightly at the State and District levels. The District graduation rate for 2024-25 (students who entered 9th grade in 2021-22) is 5.9% higher than the State graduation rate.

The data to below is 4-year cohort graduation rates for 9th graders entering in 2012-13 through 2021-22.

Standardized Test Scores

The District has scored between 9.6% and 10.6% higher than the State average in ELA standardized test scores and between 13.0% and 14.3% higher than the State average for Math standardized test scores for several years in a row.

Identified Student Percentage (ISP)

As the District has added more Community Eligibility Provision (CEP) schools it has moved to using the directly certified student numbers, also known as Identified Student Percentage (ISP), as the measure of poverty instead of free/reduced numbers which include students approved for free/reduced meals through income applications. Students who attend CEP schools do not fill out income applications for meal benefits. If non-CEP schools use free/reduced numbers which include income application approved students compared with CEP schools that can only use the Identified Student Percentage, the free/reduced numbers would be skewed against the lower income CEP schools.

The Identified Student Percentage includes all students who are approved for free meals through other programs – SNAP, TANF, Foster, Homeless, Migrant and Medicaid. All schools have students who are directly certified through other programs so the District has moved to using the ISP to represent poverty percentage for consistency.

Student Surveys

The purpose of the BSD Annual Survey is to help the District understand how students feel about their school. Answers are summarized by school and reported to the School Board.

The District prioritizes creating a welcoming environment where every student feels accepted. Recent surveys show that a high percentage of students—at least 87%—feel welcome and accepted at their school.

When asked to grade their school overall, 88% of middle school students, 92% of high school students, and 95% of elementary school students rated their school a C or higher.

Middle school and high school students were surveyed on their plans for the first year after high school graduation. The majority plan to attend a four-year college or start working, either full-time or part-time.

Parent Surveys

Parent surveys focus on parent communication and satisfaction with the District and their student's individual school or teacher.

When asked if they felt well-informed about general happenings at their child's school, 88% of parents surveyed responded that they agreed.

Regarding the overall grade for their child's school, 83% of parents/guardians rated it an A or B, while 12% rated it a C.

Staff Surveys

Staff were surveyed during the spring of 2025 as well. Approximately 53% of District staff completed the survey. Of the staff who responded, at least 91% feel welcome and accepted at their place of work and at least 91% responded that they receive timely communications from the District.

STRATEGIC INVESTMENTS

The District has made strategic investments to support the Strategic Plan by building on, discontinuing or modifying previous year investments and measures of success. During the 2022-23 school year the District embarked on a community-wide process to develop a strategic plan to guide the District's work for the next five years. The goals and foundational building blocks within the strategic plan were used to determine the strategic investments outlined below. The following pages include detailed information on the individual investments included in the 2026-27 budget and the measures that will be used to determine the academic return on the investments.

During the spring 2019 legislative session, House Bill 3427 (Student Success Act) was passed which created a new business tax dedicated to early learning and K-12 education. This tax was estimated to generate approximately \$1.0 billion each year. Fifty percent of the SSA creates the SIA, of which the projected Beaverton School District allocation for the 2026-27 year is \$38.7 million. Significant investments from the SIA have been included in the information that follows, as well as previous District investments from other funds. The SIA requires an annual report on the status of the District's investments with the SIA funds, many of which are listed below. The two main goals for the SIA are:

- increasing academic achievement, including reducing academic disparities for focal populations
- addressing students' health and safety needs

All investments in the SIA support these goals and are aligned with the District's strategic plan goals of Safe & Thriving, Foundations of Success and Progress on Standards.

In addition to the SIA, the District also receives approximately \$11.5 million in High School Success funds (HSS, ballot measure 98) which was approved by Oregon voters in November 2016. The goals for the HSS grant are to increase and expand CTE opportunities for students and establish or expand dropout prevention strategies in high schools. All investments made by the District with HSS funds support these goals, which are aligned to the District's strategic plan goals of Progress on Standards and College & Career Ready.

In *What Does the Most Good...and for Whom?: A Guide to Academic Return on Investment Analysis* (2020), the District Management Group (DMG) asserts that "districts generally do not have the resources to analyze multiple programs each year" (p.10). In selecting programs for determining academic return on investment (AROI), DMG advises districts to set minimum threshold criteria for size and scope to focus the list on high-potential candidate programs. This "minimum threshold requirement works as a filter to focus on programs of sufficient size and scope, ensuring that there will be significant value to applying an AROI analysis to the program" (p.12).

"Thoughtful program selection is one of the most important steps in the AROI process and can be managed effectively by using a structured program selection rubric" (p.13). Using a program selection rubric helps "identify which of the programs, strategies, or efforts has the greatest potential to generate actionable insights and have the most significant impact on students as a result of an AROI analysis" (p. 13). DMG's program selection rubric uses 10 criteria including scope, investment of dollars and staff time, data availability, and the political context surrounding the program. The District's AROI team applied DMG's program selection rubric to identify investments would be beneficial for the District to track academic return on investment.

Early Learning – Annual Investment \$6,121,057

Evaluation Year: 2029

Strategic Plan Goals/Foundation Building Block: Foundations of Success/Engaging & Effective Teaching & Learning Systems

Under the goal, Foundations of Success, the Beaverton School District is working to close the opportunity gap for our students of poverty and color by offering access to early learning and Pre-K programming. The District believes that by eliminating the opportunity gap for children early on and by connecting and including families in our work, that the District will begin to close the achievement gap. Children in our Pre-K programs experience learning through playful inquiry and have the opportunity to develop the habits of mind that are essential to future success in school.

Additionally, during the fall of 2024, Pre-K staff adopted the Creative Curriculum. This is a Pre-K curriculum that aligns with the literacy scope and sequence outlined in Oregon’s new early literacy standards. Implementation of the new curriculum lends itself to evaluation of our Pre-K program with measures that are more directly aligned with those that will be used from K-12th grade. Assessment of PK students is also aligned with our K-12 measures as we have implemented the use of STAR PK to assess early literacy development of our PK students.

The Beaverton School District began Pre-K programming in 2017-18 at one Title IA school and one non-Title IA school. Since that time, the District has expanded to 14 schools, all at Title IA schools. During the 2025-26 school year, the District is serving over 450 students who may otherwise not have had the opportunity to attend Pre-K.

The financial investment in Pre-K includes classroom instruction staff and materials, professional development for educators, and family engagement staff. Several grants support the program including Preschool Promise, which increases program access through a partnership with Washington County. Title IIA helps to fund professional development and the Kindergarten Readiness Partnership & Innovation (KPI) grant through Washington County supports family engagement staff.

The District’s measure of success for early learning is that 60% of all Pre-K students will show an improvement from Winter to Spring as measured by Renaissance Star. As these measures are new to the District, the baseline data was

collected in the winter of 2025. Renaissance defines Pre-K Level 1 as intervention, Pre-K Level 2 as on watch Pre-K Level 3 as at/above benchmark.

Elementary Instructional Coaches – Annual Investment \$6,021,167

Evaluation Year: 2029

Strategic Plan Goals/Foundation Building Block: Foundations of Success/Engaging & Effective Teaching & Learning Systems

Full-time Instructional Coaches are in every elementary school in the 2025-26 year, with some Title IA schools having 1.5 or 2.0 Instructional Coaches. The Instructional Coach primarily supports teacher practice and possesses deep knowledge of school systems, multi-tiered systems of support (MTSS), and effective instructional practices. The Instructional Coach, in collaboration with school leadership, plays a pivotal role in planning and implementing professional learning by coaching teachers, paraeducators, and school-based teams, and supporting the adoption and effective use of curriculum and data to enhance student learning outcomes. The Instructional Coach also oversees the school's intervention system and provides intervention support to teachers and a portion of their time to students as needed. Training for Instructional Coaches has been focused on the transformational coaching model and facilitated by Elena Aguilar and Bright Morning staff.

Year	Students Served	Cost per Student
2024-25	15,597	\$ 368

The District began using the Star Screener from Renaissance to collect baseline data at the beginning of 2024-25 school year, which will allow schools across the District to consistently measure student growth from fall to spring. This data will also be disaggregated by race/ethnicity.

Definition of Success: Percentage of K-5 students at Levels 1 and 2 would move up at least one level during the school year using the Renaissance Star Screener.

- Level 1: The student has not yet met the grade-level achievement standard and needs continued support.
- Level 2: The student has nearly met the grade-level achievement standard and may need continued support.
- Level 3 – The student has met the grade-level achievement standard and demonstrates progress toward mastery.
- Level 4 – The student has exceeded the grade-level achievement standard and demonstrates advanced progress toward mastery.

Graduation Mentors – Annual Investment \$1,492,743

Evaluation Year: 2027

Strategic Plan Goals/Foundational Building Block: College & Career Ready/Engaging & Effective Teaching & Learning Systems

The District is committed to preparing students for post high school success. District Graduation Mentors support students under the strategic plan goal of College & Career Ready. Graduation Mentors provide personal, targeted support for students not passing 1-2 classes with less than 90% attendance and students not passing 3 or more classes with attendance of 90% or greater. Their caseloads result from coordination between counseling departments, Behavior Health & Wellness teams and 9th Grade Success teams. Caseloads are approximately 35 - 50 students.

Graduation Mentors collaborate with students and families with the primary objective to implement supportive strategies outlined by building support teams. Graduation Mentors assist and track their work with students by monitoring academic progress and attendance. Graduation Mentors help students to improve organization, and engagement during class and task completion, guide and reinforce student understanding of classroom rules, procedures and expectations; and provide academic goal setting strategies and training. Graduation Mentors collaborate with counselors to address academic, emotional, and social barriers.

Year	Students Served	Cost per Student

FLEX Credit – Annual Investment \$1,413,868

Evaluation Year: 2026

Strategic Plan Goals/Foundational Building Block: *Progress on Standards, College & Career Ready, Facilities & Programs for World-Class Learning*

The FLEX Credit program provides an additional pathway to engage and prepare all students for post-graduate success as outlined under the strategic plan goal of College & Career Ready. FLEX Credit offers individual, online courses to students in grades 9-12 who are enrolled at least half-time in a school within the District.

Students must meet at least one of the following criteria:

- Need support to stay on track to graduate.
- Are at risk of not graduating due to credit deficiency.
- Need to access graduation-required courses that do not fit into their current grad plan schedule

In addition to student-level support, FLEX Credit introduces vital flexibility into the District’s academic system. It serves as a strategic partner for school buildings that may lack the FTE to supply in-house credit recovery across all content areas. Furthermore, it provides a critical alternative when master scheduling conflicts at a home site would otherwise prevent a student from fulfilling their graduation requirements.

The program facilitates both credit recovery and access to essential graduation requirements that fall outside a student's standard course schedule. By utilizing a rolling enrollment, online, and asynchronous format, FLEX Credit ensures sites can enroll students in the exact courses they need, when they need them. To ensure high-quality outcomes, FLEX Credit teachers meet with students in person to support content comprehension and break down individual barriers to success.

GLOSSARY OF TERMS AND ACRONYMS

10K

A group of finance leaders from school districts in Oregon with student enrollment counts greater than 10,000 students.

ACCRUAL BASIS

The basis of accounting under which transactions are recognized when they occur regardless of the timing of related cash flows.

ACFR

Annual Comprehensive Financial Report

ACMA

Arts and Communications Magnet Academy

ADA

Americans with Disabilities Act

ADMw

Average daily membership, weighted for additional student characteristics

ADOPTED BUDGET

Financial plan adopted by the governing body for the fiscal year or budget period that is the basis for appropriations (ORS 294.456).

AED

Automated External Defibrillator

AGS

Algebra/Geometry/Statistics

AHS

Aloha High School

AI

Artificial Intelligence

AICPA

American Institute of Certified Public Accountants

ALC

Academic Learning Center

AP

Advanced Placement

APPROPRIATION

A legal authorization to make expenditures and incur obligations for specific purposes. Total appropriations include the adopted budget and any supplemental budget(s). The legal appropriation is the amount authorized by the board (ORS 294.311(3)).

APPROVED BUDGET

The budget that has been approved by the budget committee.

AROI

Academic Return on Investment

ASBO

Association of School Business Officials International

ASIST

Applied Suicide Intervention Skills Training

ASHREA

American Society of Heating, Refrigerating and Air-Conditioning Engineers

ASSESSED VALUE (AV)

The value placed on real and personal property as a basis for imposing taxes. It is the lesser of the property's maximum assessed value or real market value.

AUDIT

An official inspection of an individual's or organization's accounts, typically by an independent body.

AV

Assessed Value

AVERAGE DAILY MEMBERSHIP (ADM)

The year-to-date average of daily student enrollment.

AVID

Advancement Via Individual Determination

BALANCED BUDGET

Projected resources equal projected requirements within each fund.

BALLOT MEASURE 98 (HSS)

High School Success is a fund initiated by ballot Measure 98 in November 2016 to aid in increasing graduation rates and ensuring high school graduates are ready for their next step. The measure passed with 65% voter support and allowed the Oregon Department of Education (ODE) to disperse \$170 million total during the 2017-19 biennium among districts and charter schools that serve students in grade 9 through grade 12. All areas of eligibility must be fully in place by the end of the 2020-21 school year.

BASE

Beaverton Academy of Science and Engineering (replaces HS2 and SST in the 2020-21 school year)

BASIS OF ACCOUNTING

Methodology and timing of when revenues and expenditures or expenses are recognized and reported in the financial statements.

BEA

Beaverton Education Association

BEF

Beaverton Education Foundation

BHS

Beaverton High School

BH&W

Behavioral Health & Wellness

BOARD OF EDUCATION

Seven member elected board, created according to state law and vested with responsibilities for educational activities in a given geographical area, who establishes policy, hires a superintendent and governs the operations of the district.

BOND

A written promise, general under seal, to pay a specific sum of money, called the face value, at a fixed time in the future, called the date of maturity and carrying interest at a fixed rate, usually payable periodically. The difference between a note and a bond is that the latter usually runs for a longer period of time and requires greater legal formality.

BRF

Bilingual Resource Facilitator

BSD

Beaverton School District

BUDGET

A plan of financial operation embodying an estimate of proposed expenditures for a given period or purpose and the purposed means of financing them.

BUDGET COMMITTEE

A statutorily (ORS 294.414) defined committee composed of the School Board and an equal number of citizen members appointed by the Board. The committee is responsible for reviewing the budget as proposed, recommending changes and approving the final budget which is presented to the School Board for adoption.

BUDGET DOCUMENT

Written report showing the school district's comprehensive financial plan for one fiscal year. It must include a balanced statement of actual revenues and

expenditures for each of the last two budgets and estimated revenues and expenditures for the current and upcoming budget.

BUDGET MESSAGE

Written explanation of the budget and the school district's financial priorities. It is prepared and presented by the Superintendent of the school district.

BUDGETARY CONTROL

The control or management of a school district in accordance with an adopted budget to keep expenditures within the limitations of available appropriations and available resources.

C4K

Clothes for Kids

CAPITAL BUDGET

A plan of proposed capital outlays and the means of financing them for the current fiscal period. It is usually a part of the current budget.

CAPITAL OUTLAY

Items which have a useful life of one or more years and exceed a dollar threshold established by the district, such as land, buildings, furniture, and equipment.

CAPITAL PROJECTS FUND

Accounts for resources, usually bond sale proceeds, used for activities related to the purchase or construction of major capital assets.

CCI

Communications & Community Involvement

CD

Construction Documents

CDL

Comprehensive Distance Learning

CET

Construction Excise Tax

CEP

Community Eligibility Provision

CEYP

Continuing Education for Young Parents

CFO

Chief Finance Officer

CIP

Construction in Progress *or* Continuous Improvement Planning

COLA

Cost of Living Adjustment

CONTINGENCY

An estimate in an operating fund for unforeseen spending that may become necessary.

COVID-19

A mild to severe respiratory illness that is caused by a coronavirus that was first identified in Wuhan, China in December 2019. In 2020, the virus was declared a global pandemic.

CPR

Cardiopulmonary resuscitation

CTE

Career and Technical Education

CTE CONCENTRATOR

A student at the secondary school level who has completed at least two course credits in a single CTE POS.

CTE POS

Career and Technical Education Program of Study

CURRENT BUDGET PERIOD

The budget period currently in progress.

DAO

District Administrative Office

DAS

Distributed Antenna Systems

DEBT SERVICE FUND

A fund established to account for payment of general long-term debt principal and interest.

DEPRECIATION

A reduction in the value of an asset with the passage of time, due in particular to wear and tear.

DEQ

Department of Environmental Quality

DMG

District Management Group is an independent consultant that helps school district leaders combine the most effective educational best practices with proven management techniques to bring about measurable, sustainable improvements in student outcomes. The District works with DMG on AROI.
