About This Dashboard Tab

- High-level **overview of the dashboard and each tab** that users will interact with

About this dashboard!

This dashboard helps you monitor the progress of teachers setting up their Grade Books and recording grades. You can use the controls at the top of a page or on the homepage to filter visuals. You can also hover over visuals to view summary data.

About Dashboard Tabs

Homepage

This tab contains all of the filters that are available to filter data across all of the tabs. The filter controls at the top of other tabs are duplicates of the 'Main' filters on this tab. If you change these filters on any tab, it changes the filtering everywhere, with the exception of the Comparison tab.

Build a Visual

On this page, you can choose exactly what you want to see. The Dimension will appear across the bottom of the bar chart, while the Measure will be the means by which you compare them. The visual will also be broken down by whether the measure has grade book.

Grade Book

This tab gives you a quick overview of Grade Book setup progress, and a more detailed view that includes information at the assignment level.

Faculty List

This tab allows you Faculty focused information.

Comparison

Allows you to have two sets of identical visuals side-by-side that are filtered by separate filters that you select, allowing A-B comparison of different years, different categories, etc.

Export

This tab has a full, filtered table of data for export to Excel to allow external analysis.
