MISSION STATEMENT

The Mission of the Westport Public Schools is to prepare all students to reach their full potential as life-long learners and socially responsible contributors to our global community. We achieve this by fostering critical and creative thinking and collaborative problem solving through a robust curriculum delivered by engaging and dedicated educators. We are committed to maintaining an environment that supports inquiry and academic excellence, emotional and physical well-being, appreciation of the arts and diverse cultures, integrity and ethical behavior.

To the Westport Board of Finance,

On behalf of the Westport Board of Education, I am pleased to formally submit our Recommended Operating Budget for the 2026-2027 fiscal year. This proposal is the culmination of a transparent, months-long process involving our entire leadership team to ensure our schools remain responsive to the community's high expectations.

Financial Overview and Growth

The Board recommends an operating budget of \$157,863,623, which represents a 4.98% increase over the current year. While the cost to maintain existing services originally projected a 5.56% increase, the Board has integrated strategic adjustments to bring the final recommendation to 4.98%.

Our long-term fiscal stewardship remains consistent; the 12-year compound annual growth rate (CAGR) for Westport stands at 3.11%, aligning closely with the regional "DRG A" median of 3.08%.

Honoring Efficiency and Partnership

We continue to honor our commitment to the Board of Finance and RTM to seek operational efficiencies. Following previous successful optimizations in special education and student transportation, we have now fulfilled our redistricting commitment. These efforts underpin the trust and credibility necessary for a collaborative budgeting process.

Strategic Drivers and Assumptions

Because over 80% of our budget is dedicated to human resources, salaries and benefits remain our primary cost drivers.

- **Salaries:** Certified and non-certified salaries account for a combined 2.58% of the total budget increase.
- **Health Benefits:** Based on state and consultant guidance, we are currently budgeting for a 15% increase in medical/prescription costs and an 8% increase in dental benefits. The Board of Education proposes applying \$750,000 from the BOE Insurance Reserve to effectively reduce the projected medical/prescription increase to 12%.

- **Technology:** We have allocated \$518,162 to stabilize the technology replacement cycle after the conclusion of previous grant funding.

Beyond these "drivers," the Board has prioritized "assumptions"—targeted initiatives that move the district forward. These include:

- Expanding Effective Schools Solutions (ESS) to the elementary level.
- Establishing an "In-District" BCBA program to enhance specialized student support.
- Implementing targeted technology investments, including Gemini Pro AI licensing for staff and the modernization of the Bedford Middle School auditorium.

Budget Drivers

The primary drivers included in this recommendation are:

- Maintaining all current levels of staffing and programming, honoring new contractual agreements (i.e. health insurance costs, salary increases, WEA contract, etc).
- Maintaining staffing in response to regular education and special education enrollment.
- One last adjustment to the technology replacement cycle following the supplanting of this account as a result of grant funds.

Disciplined Reductions and Trade-offs

To fund these essential advancements, the Board made difficult decisions to reduce the initial administrative requests. We reduced the original 5.67% request to the final 4.98% through \$281,000 in specific cuts, including:

- **Staffing & Programs:** Reductions in 3.0 elementary teaching positions (offset by enrollment changes) and the removal of a proposed 0.4 Financial Literacy position.
- **Capital & Equipment:** Reductions in facilities equipment and vehicle replacement funds.
- **Materials:** Deferred updates for Social Studies and Math textbooks.

Closing

This budget is a reflection of Westport's values. It is a plan that meets our legal and contractual obligations while ensuring our students have the tools to excel in an evolving world. We look forward to discussing these details with you further as we work toward a final adoption this spring.

Sincerely,

Lee Goldstein
Westport Board of Education, Chair

WESTPORT PUBLIC SCHOOLS

December 29, 2025

To the Westport Board of Education,

As the annual work of the Westport Public Schools and the Board of Education advances, I look forward to recommending the 2026-2027 operating budget. I share the following document as a recommendation to the Westport Board of Education and community at large, for consideration.

The work of honoring our budget “drivers” (i.e. those expected necessary and consequential costs in the budget such as, health insurance costs, salary increases, etc.), and advancing our budget “assumptions” (i.e. programs, efforts, initiatives that strategically advance the work of the school system) are evidenced in this recommendation.

I am honored to share the Superintendent’s Proposed Budget for the Westport Public Schools for the 2026-2027 fiscal year. Within this document the Westport Board of Education is provided a budget timeline, budget highlights, and an analysis of key budget areas. However, our budget is more than spreadsheets and budget accounts. The school budget is a representation of the values and aspirations of the school system. The budget functions as a guiding document for the school year, endeavoring to continue to maintain and advance current valuable and relevant programs, while also initiating efforts to confront challenges and opportunities.

Honoring Our Partnership with the Town

Over the past five years, the Board of Finance and RTM have requested that the district look closely at certain areas of district operations in order to gain efficiencies while maintaining high performance. The Board of Education has responded to these requests effectively. For example, in response to town requests, the district has analyzed, and made changes, to special education programming and funding, employee health insurance, and student transportation. Last year the Board of Education adopted a redistricting plan, fulfilling their commitment to the Board of Finance and RTM. These efforts, combined with full transparency, have established a high level of trust and credibility in the annual budgeting process.

Budget Timeline

The approach to budget development is deliberate and transparent. Each year, a process is implemented which includes the entire district Leadership Team, all building administrators, directors, coordinators and supervisors. The process began in the fall with the development and submission of recommendations from all district administrators in October. The central office team met with each individual administrator over a week-long period in November and then, the entire Leadership Team convened for a budget workshop on December 11 in the Staples Library

Classroom. The team engaged in an analysis of the budget, our goals, challenges, and final recommendation following the use of communication norms and decision-making protocols.

Among other key dates are the following:

- January 9, 2026
Board of Education Meeting – Superintendent presents Executive Summary of Superintendent’s Proposed 2026-27 Education Budget (all day meeting beginning 8:30 am) Saugatuck Congregational Church
- January 15, 2026
Board of Education (Regular Meeting) – Budget Discussions; and Health and Medical Insurance Consultant (For discussion of health and medical insurance) for Discussion of Health Insurance
- January 22, 2026
Board of Education (Regular Meeting) – Budget Discussions
- January 29, 2026
Board of Education (Regular Meeting) – Board Approves Budget Submission
- January TBD, 2026
Board of Education (Regular Meeting – Snow Date) – Board Approves Budget Submission
- February 5, 2026
Board of Education Submits Budget Request to Town of Westport
- March 2026

Budget Workshops (dates TBD by BOF)
Acts on Board of Education Budget (dates TBD by BOF)
- April 2026
Representative Town Meeting (RTM) – Budget Workshops with Sub-Committees (dates determined by RTM)
- May 2026
Representative Town Meeting (RTM) – Adopts Budget (dates determined by RTM)
- May/June 2026
Board of Education (Regular Meetings) - Adopts 2026-2027 Budget

Budget Components Overview

The Board of Education’s operating budget includes all of the funding necessary to operate a school district of 8 schools, a preschool, for a projection of 5,342 students. Operating budgets in Connecticut are defined by eight “objects,” which comprise a uniform chart of accounts. These accounts are: Salary, Benefits, Contracted Services, Property Services, Supplies, Purchased Services, Equipment, and Other. Within these accounts, the Board of Education has the autonomy to manage their adopted operating budget. This management, through the administration, enables a community to serve their student population responsively, knowing that a budget process begins a full 18 months before the end of the fiscal year being budgeted. A lot can happen over 18 months and this autonomy is necessary.

The 2026-2027 Superintendent's Recommended Budget

The 2026–2027 Superintendent's recommended operating budget is \$158,613,623, representing a 5.48% increase over the 2025–2026 budget. The underlying current services budget reflects a 5.56% increase, which represents the cost of maintaining existing programs, staffing, and services.

The recommended 5.48% net increase incorporates proposed adjustments related to projected enrollment changes and refinements to program delivery models. These adjustments partially offset the current services increase while preserving and enhancing program quality and ensuring the district continues to meet student needs effectively.

The compound annual growth rate (CAGR) of this budget over the past 12 years from 2013-2014 through 2025-2026 is 3.11%. The regional "DRG A" CAGR median is 3.08%, placing the growth of the annual Westport budget near the median of our district peers. The 13-Year CAGR for Westport (including FY27) is 3.29%. At the present moment we do not have access to the proposed budgets of our peer districts (i.e. their "13th Year").

Key Budget Drivers/Assumptions

The Leadership Team identified a concise list of drivers and assumptions to prioritize decisions. To be clear, the team defined budget "drivers" as those expected necessary costs that will prove to be consequential in the overall budget planning process (i.e. health insurance costs, salary increases, etc.). Budget "assumptions" on the other hand are those programs, efforts, initiatives that strategically advance the work of the school system. The challenge for the administration is to accurately identify the budget "drivers" while minimizing their impact in order to capitalize on the priority budget "assumptions."

Budget Drivers:

The primary drivers included in this recommendation are:

- maintaining all current levels of staffing and programming, honoring new contractual agreements (i.e. health insurance costs, salary increases, WEA contract, etc.),
- maintain staffing in response to regular education and special education enrollment,
- one last adjustment to the technology replacement cycle following the supplanting of this account as a result of grant funds

Key Budget Drivers

Maintaining current programming is essential to our continued response to student needs. Public education is a human services endeavor, which is heavily dependent on human resources. It is no surprise that the most significant funding allocation is for human resources (i.e. staffing and associated costs).

Salaries are the primary budget driver. Projected FY27 certified salaries amount to \$74.9M, a 4.3% year over year increase. This salary amount comprises 47.2% of the total budget. This is equivalent to a 2.03% increase to the total budget. In turn, FY27 non-certified salaries account for \$20.3M, a 4.2% year over year increase and 12.8% of the total budget. This is equivalent to a 0.55% increase to the total budget.

In total, all budget salaries represent an overall 2.64% increase to the total budget. In addition, in order to maintain the technology replacement cycle and to meet our software needs, this budget includes a \$518,162 technology year over year increase. This investment keeps the district on a relatively smooth year over year technology funding path. This technology increase is equivalent to a 0.34% increase to the total budget.

Employee health benefits remain a significant cost driver. Our current guidance from the State Partnership Plan (administered by the Office of the State Comptroller) is to budget for an 15.0% increase to medical/prescription drugs benefits. Our current guidance from Lockton is to budget an 8.0% increase to dental benefits. This is one area of the operating budget subject to potential cost variances. As with previous years, health insurance projections are finalized in early spring, typically by April 1, in time for the final budget adoption by the Town funding bodies.

Previous Board funding for special education has met the district's needs and enabled the district to reallocate positions in special education so that staffing needs could be addressed across schools by transferring personnel.

Budget Assumptions

Among the primary “assumptions”, (i.e. initiatives prioritized in the final funding recommendation to strategically advance the work of the school system) include:

- Repurposing of Administrative Positions, Create Assistant Director of Facilities Position
- Purchase Two Vehicles to Initiate Provision of “In-District” Special Education Transportation
- Expand Effective Schools Solutions (ESS) Program to Elementary Level
- Establish “In-District” Board Certified Behavior Analysts (BCBAs) Program
- Shift Cost of Athletic Uniform Replacement Cycle from Donations to BOE Budget
- Targeted Technology Investments aligned with the district Strategic Plan (i.e. Districtwide Gemini Pro AI licensing for professional staff, Completion of the elementary teacher laptop replacement cycle, one-time modernization of the Bedford Middle School auditorium.)

Key Preliminary Reductions Prior to Final Recommendation

In order to accommodate budget “drivers” and to advance budget “assumptions”, this process warrants a series of “trade offs”. The Leadership Team considered “trade offs” for Board review, recommending the funding of some positions/programs with commensurate reductions in others. When approximately 80% of the budget consists of staffing and benefits there are limited efficiencies and reductions in the non-personnel side of the budget to accommodate increases in current services and assumptions.

The internal budget process that arrived at the final recommendation was a challenge. It was acknowledged that a final recommendation must account for the economic climate, and a projection among district leadership of what the community and Board would receive as a reasonable range of year over year budget growth. The Leadership Team budget workshop drove the recommendation of reducing the original budget request of a 5.67% increase, to the final 5.48% recommended increase. A \$281K reduction was made throughout the budget workshop process, resulting in the final recommendation.

Original budget requests from the administrative team included 1.4 FTE, however, 1.0 FTE are included in the final recommendation. This was not an easy process and it warranted tough decisions. The team also worked to creatively reallocate resources and maximize entitlement grants to supplement in areas where fractional increases in staffing are needed to accommodate enrollment or special education increases.

Items that were in the original budget request, but not in the final recommendation to the Board are the following:

- 0.4 Financial Literacy Teacher (-\$28,244)
- Reduction in Textbooks - Grades 4 & 5 Social Studies (-\$35,000)
- Reduction in Textbooks - Math AP Stats & Middle Schools (-\$48,000)
- Non Instructional New Equipment - Facilities equip. (-\$100,000)
- Non Instructional Replacement Equip. - Facilities truck (-\$70,000)

FTE changes, and key budget adjustments, included in the recommended budget:

- -3.0 Teachers - Regular Education - Elementary (-\$211,830)
- 1.0 Teacher - Special Education - BMS (+\$82,886)
- 1.0 Assistant Facilities Director (+\$130,000)
- Restructuring of Health Services Supervisor position (-\$82,761)
- 2.0 Board Certified Behavior Analysts (+\$176,000)
- Paraeducators - Connections Program - drivers extra hours (+\$29,000)
- Related Health Benefits (+\$40,000)
- Reduction in PPT Consultations - BCBA proposal (-\$88,000)
- Reduction in Other Professional Services - BCBA proposal (-\$88,000)
- Reduction in Transportation Spec. Ed. Internal - Connections proposal (-\$207,660)
- Increase in Student Athletics - Uniforms (+\$95,000)

Given the district priorities of advancing and supporting the work of maintaining our facilities, and implementing the action steps of the district's improvement plans, the Leadership Team worked to maintain funding, particularly in the areas of professional development and program/curriculum development.

Impact of Bargaining Unit Agreements

The district has seven collective bargaining agreements for its nearly 1,000 employees. Each agreement has economic impacts on the budget including, but not limited to, salaries and benefits. Negotiations with one non-certified employee group will take place this spring, and this past summer an agreement was reached with the Westport Intermediate Administrators Association (WIAA).

Fixed vs. Variable Costs

Over 80% of the BOE's annual budget is earmarked for salaries and benefits. These funds cover fixed positions, such as administrative, custodial, nursing, and support staff. Additionally there are positions that are subject to variation in numbers based on enrollment and programmatic needs. For example, elementary classroom teaching positions vary from year to year based on actual enrollment within our schools and warrant increases when enrollment spikes.

In Closing

The Superintendent's Proposed 2026-27 Budget fulfills the district's obligations to local bargaining unit contracts, local guidelines and policy (e.g. class size guidelines), and state and federal mandates. This recommendation responds to the learning and social/emotional needs of students, while advancing forward thinking district plans, including the district Strategic Plan. The team honored budget drivers and assumptions and this

recommendation clearly illustrates the need for “trade offs” as the district continues to aspire to maintain the distinction and reputation that the community has enjoyed for decades. Along with the administrative team, I look forward to deeper discussions towards developing a greater understanding of the budgetary needs of our district.

Sincerely,

A handwritten signature in black ink, appearing to read 'Thomas Scarice', with a stylized, cursive script.

Thomas Scarice
Superintendent of Schools
