Middle School Summer Reading 2026

The Middle School is a community of readers! Through reading, students visit new worlds, embark on epic adventures, solve perplexing mysteries, and expand their cultural horizons. These armchair escapades also encourage students to develop empathy, allowing them to feel more connected to others. In addition to enhancing academic progress, reading sparks creativity, inspires self-reflection, encourages open-mindedness, and alleviates anxiety. With these goals in mind, we wish our middle schoolers happy reading this summer!

★ **Read *The Trouble with Heroes* by Kate Messner plus two additional books from the list.**
