Instructional Technology Plan - 2026-2029 Instructional Technology Plan**II. Strategic Technology Planning**

Page Last Modified: 04/13/2026

II. Strategic Technology Planning**1. What is the overall district mission?**

Greenport School strives to offer a broad and challenging educational program to students from diverse cultural backgrounds. Greenport School is committed to inspiring students to achieve the highest standards of intellectual and personal development through a stimulating and comprehensive program. Within a caring, respectful, multicultural environment, the school is committed to instilling in each student a desire to learn, to take appropriate risks, and to accept challenges. The school community is committed to developing students who are resilient and adaptable, equipped with the knowledge, skills, and disposition to continue their education and become personally fulfilled, interdependent, socially responsible adults.

2. What is the vision statement that guides instructional technology use in the district?**Vision Statement for Instructional Technology**

It is our mission to ensure that instructional technology resources are used effectively by students and teachers to positively impact learning. We strive to put the appropriate technology into the hands of teachers and students and teach them how to use IT efficiently and effectively to gather, analyze, construct and disseminate information.

We will provide the students of Greenport Schools with technology to prepare them for their future.

Technology will be used to promote the development of proficient communication skills, resourceful critical thinking and resolute problem solving.

Vision Statement

I. Technology is a tool that is woven into the fabric of teaching, learning and living. As such it must be:

1. Reliable, accessible, relevant, & effective
2. Organically integrated across the curriculum rather than randomly tacked on to individual lessons
3. Accessible to all students on an equal basis
4. A tool which improves the worth and efficiency of instruction – decreasing the time needed for a task while improving the quality of the outcome

II. Technology is dynamic. As such we must:

1. Be open to innovation
2. Provide ongoing opportunities for continuing professional development
3. Strive to meaningfully integrate instructional technology across curricular areas

III. Technology has social implications, therefore:

1. Students need to be taught the ethical and moral implications of computer use
2. Students need to understand that technology must be used responsibly with awareness of technology's potential pitfalls
3. Students should be empowered by their use of technology to:
 - Become more aware of the world around them
 - Access accurate and relevant data to inform their decisions
 - Enrich their lives

3. At the start of the 2026-27 school year, will the district provide a dedicated mobile device for every student in all grades?

Yes

Instructional Technology Plan - 2026-2029 Instructional Technology Plan**V. NYSED Initiatives Alignment**

Page Last Modified: 04/13/2026

V. NYSED Initiatives Alignment

1. How will the district's use of instructional technology support a comprehensive and sustained effort to improve student performance and academic standards, while also addressing the need to provide equitable learning opportunities "everywhere, all the time" (National Technology Plan)?

Greenport UFSD will use instructional technology as a core component of a comprehensive and sustained effort to improve student performance and ensure equitable access to learning at all times. The district will continue to use i-Ready to assess student performance in reading and mathematics, providing timely, standards-aligned data to inform instruction and identify learning gaps. In addition, LinkIt! will be used to analyze assessment results and attendance data, allowing staff to identify trends, monitor progress, and make data-driven decisions at the classroom, building, and district levels.

Technology will support teaching and learning by enabling teachers to differentiate instruction, monitor student growth, and adjust practices based on real-time data. The use of LinkIt! MTSS will strengthen the district's Multi-Tiered System of Supports by providing a structured platform for the MTSS committee to track interventions, monitor student outcomes, and respond to academic and social-emotional needs. Students will use technology to engage with personalized learning pathways and demonstrate their understanding through a variety of digital tools and platforms.

To ensure equitable learning opportunities "everywhere, all the time," the district will maintain access to devices, reliable network infrastructure, and digital learning platforms that support both in-school and remote learning. Ongoing professional development will build staff capacity to effectively integrate technology into instruction, while partnerships with BOCES and other regional organizations will support infrastructure, data systems, and instructional innovation. Together, these efforts will ensure that all students have consistent access to high-quality learning experiences and the support needed to meet academic standards.

2. **At the start of the 2026-27 school year, will the district offer full-time virtual instruction to any students? (Select all that apply)**

- ☐ Yes. Our district operates a full-time virtual instruction program.
- ☐ Yes. One or more of our students will attend a program operated by a BOCES or another public school district.
- ☒ None of our students will participate in a full-time virtual instruction program.
- ☐ Other

3. If the district files or has filed a Smart Schools Investment Plan (SSIP) to apply for Smart Schools Bond Act funds, all responses in this survey align with the district's response to any related question(s) in the SSIP.

The district does not have an active SSIP.
