

OCSC Academic Accountability Report 2024-2025

April 2026
Office of Charter School Compliance

Office of Charter
School Compliance

Introduction

Provides an overview of the academic section of the Comprehensive Performance Framework

Overall Designations

A list of which schools met academic standards, which were approaching standards and which schools that did not meet standards

School Scores

Displays the selected school's score on each measure included in the academic section of the CPF and the comparison scores. Please review the Calculations Explained section at the bottom of the page for details regarding comparison score calculations.

School Comparisons

Displays the data used to generate the School-Level Comparison Score for each academic measure. The displayed data is relevant to the school selected from the dropdown list on the School Scores tab.

Local District Comparison

Displays the scores earned by the charter school's authorizing local district for each academic measure. The displayed data is relevant to the school selected from the dropdown list on the School Scores tab.

Assessing State Charter School Performance

The Office of Charter School Compliance (OCSC) and State Board of Education recently adopted a Local Comprehensive Performance Framework (LCPF) to set forth clear, quantifiable, rigorous, and attainable goals in the areas of academic achievement, financial viability, and organizational compliance. A school's performance on the LCPF informs OCSC decision making over the course of the charter term and at renewal.

Academic Section of the Comprehensive Performance Framework

The academic portion of the LCPF seeks to answer the following fundamental question:

Is the educational program offering students a better educational opportunity than they would otherwise receive in traditional district schools? To answer this question, the OCSC uses data from the College and Career Ready Performance Index (CCRPI, Georgia's state accountability tool) and predictive indicators that control for a school's unique and/or challenging student population called the Value-Added Measure. More information regarding CCRPI can be found on the Georgia Department of Education's Accountability website, and information on the Value-Added Measure is posted on the State Charter School Commission's (SCSC) Academic Accountability webpage, both links are provided at the bottom of the page.

2024-2025 Academic Measures

1. GaDOE CCRPI Content Mastery Scores
2. GaDOE CCRPI Progress Scores
3. CCRPI Grade Band Score
4. SCSC Value-Added Impact Scores (VAM)

In the 2024-2025 school year, a state charter school may satisfy academic requirements and be considered **Meeting** or **Exceeding** OCSC academic standards if it:

Outperforms **either the schools or districts** from which it enrolls students (school- or district-weighted comparison score) on any one or combination of measures 1-4 in all grades bands served (If outperformance is by 10 or more points, school is considered Exceeding standards)

If a school performs the same as the comparison score (no more than 2 points below) on any measure 1-4 in all relevant grade bands or on a grade-band enrollment weighted score, it is considered **Approaching** standards.

If a school outperforms its comparison score on any measure 1-4 in at least one grade band, and fails to meet on any measure 1-4 in at least one other grade band, it earns a **Varied** designation.

If the state charter school fails to outperform its comparison scores (more than 2 points below) on any of the academic measures across all grade bands served, it earns a **Does Not Meet** designation.

78%

of locally-authorized charter schools
OUTPERFORMED either the schools their students
 would otherwise attend or their local authorizing
 district in 2024-2025.

Schools Exceeding Standards

Atlanta Neighborhood Charter - Elementary Atlanta Neighborhood Charter - Middle Charles Drew Charter JA/SR Academy Charles R. Drew Charter School DeKalb Agriculture Technology and Environment School GLOBE Academy Charter School I International Community School KIPP Soul Primary KIPP South Fulton Academy School KIPP VISION Charter School KIPP Vision Primary Charter School	KIPP WAYS Academy Charter School Lake Oconee Charter Lake Oconee Charter High School Leadership Preparatory Academy Museum School Avondale Estates Savannah Classical Academy Charter High School Savannah Classical Academy Charter School Tybee Island Maritime Academy School Walton High School Westside Atlanta Charter School Atlanta Classical Academy

Grade Band	Charter School Score	School-Weighted Comparison	Local District Comparison (Clayton County)	Grade Band Enrollment %	Grade Band	Charter School Score	School-Weighted Comparison	Local District Comparison (Clayton County)	Statistically Significant?
E M H	62	68	69	100%	E M H	-0.258	0.035	0.030	Lower

Calculations Explained:

School-Weighted Comparison Score: The School-Weighted Comparison Score is calculated using the proportion of students the school enrolls from each school attendance zone served. The student-level address element in the GaDOE Data Collections Student Record report is used to determine which school each student enrolled in a state charter school is zoned to attend (the school the student would attend if they were not enrolled in the charter school). The SCSC weights those schools' CCRPI scores based on the proportion of students enrolled. School enrollment percentages and corresponding scores are included on the tab labeled School Comparisons.

Local District Score: The Local District Score is the average score of the charter schools' authorizing district as reported by GaDOE and GOSA.

Note: The charter school only has to outperform the School-Weighted Comparison score OR the Local District Comparison score to meet or exceed standards.

*Scores that are highlighted dark green indicate that the SCSC school is 10 or more points above either of its comparison scores. Green highlights comparison scores showing that the SCSC school is outperforming by grade band. Yellow is used to highlight a comparison score that the SCSC school is performing the same as (no more than 3% below), i.e. Approaching Academic Standards.
