---

## **Academic Honesty Policy**

All work submitted by students should be a true reflection of their effort and ability. If it is not, then the student has demonstrated unacceptable behavior. The following instances are considered cheating:

- Claiming credit for work that is not the product of one's own honest effort.
- Providing unwarranted access to materials or information so that others may dishonestly claim credit.
- Submitting work done entirely or in part by another person.
- Giving test answers to another student or getting test answers from another student.
- Representation of another person's words or ideas as your own by not properly citing the source and giving the author credit.
- Copying from the internet and/or from another student.
- Knowledge and tolerating of the foregoing circumstances.

Any behavior, which can be defined as cheating, represents a violation of mutual trust and respect essential to education. Students who cheat should expect to be confronted by their teacher and be subject to penalties

- It will tell you how many activities that are late
- It will tell you how long it should take to complete late activities

# How to Calculate a Grade Point Average

GPA's are important as you prepare for high school

---

Basic Math.....

Take the number courses completed and divide by the grade points earned. Using this table:

A = 4 grade points

B = 3 grade points

C = 2 grade points

D = 1 grade point

F = 0 grade points

---

SAMPLE

6 course with these  
grades .....

# GPA Calculation

## REPORT CARD GRADES

1. English	= B	3 grade points
2. Math	= C	2 grade points
3. Science	= B	3 grade points
4. History	= A	4 grade points
5. PE	= A	4 grade points
6. Art	= A	4 grade points

**TOTAL Grade Points = 20 grade points**

20 (grade points) divided by 6 (# of courses) =  
3.33 Grade Point Average

You must pass all courses with a grade of D or better in order to earn credit
