

# Keeping Cool at Norris School: Reimagining Playgrounds and Fields

## Concept Design Presentation

Explore how the playground and playing fields can stay cooler, safer, and more comfortable during hot weather.

**When:** May 7, 2026 | 6:00–7:30 PM

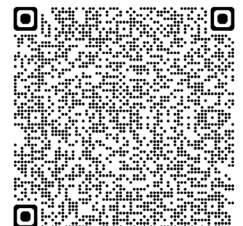

**Join us to see concepts for the school grounds  
and playing fields and talk about:**

- Shade and trees
- Cooler play areas
- Safer outdoor spaces for kids

### Who Should Come:

Parents, caregivers, students, and community members (kids welcome!)

Register for this virtual meeting by scanning the QR code or going to <https://bit.ly/4cKGulB>

**PROJECT  
STAY COOL**  
EMPOWERING SOUTHAMPTON  
AGAINST EXTREME HEAT

This listening session is part of Southampton's Municipal Vulnerability Preparedness (MVP) grant from the Massachusetts Executive Office of Energy and Environmental Affairs to address extreme heat and improve community resilience. Input gathered will help guide improvements to the Norris School playground and fields as part of the Town's broader cooling and clean air resilience initiatives.
