PURPOSE

Emergencies in schools are defined as undesirable events that have the potential to cause injury or illness to members of our school community or disrupt the orderly educational process. They range from acts of bullying or harassment to catastrophic natural or man-made events. Emergency management is the discipline of dealing with and mitigating risks. It is a discipline that involves preparing for an emergency situation or disaster before it occurs as well as supporting and rebuilding from the emergency after natural or human-made disasters have occurred.

Emergency management in our schools is the continual process by which our staff, students, administrators, parents, school groups, emergency responders and our community manages hazards in an effort to avoid or mitigate the impact of disasters resulting from hazards. Preventive measures and good planning will reduce the likelihood that emergencies will occur and allow us to address those that do in an expeditious and effective manner.

Districts are required to develop district-wide school safety and emergency management plans designed to prevent and effectively manage such events to minimize the effects of serious incidents and emergencies. These plans also facilitate the coordination of the District with local and county plans and resources when incidents and emergencies occur.

The district-wide plan is responsive to the needs of all schools in the District and is consistent with the more detailed building-level emergency plans. Districts are vulnerable to a wide variety of acts of violence; and natural and manmade disasters. To address these threats, the State of New York has enacted the Safe Schools Against Violence in Education (S.A.V.E.) law. Project S.A.V.E. is a comprehensive planning effort that addresses prevention, response, and recovery with respect to a variety of emergencies in schools.

The Ardsley School District supports S.A.V.E. legislation. The Superintendent of Schools, Board of Education, and the entire District staff encourages and advocates on-going district-wide cooperation in support of Project S.A.V.E.

In July 2025, the New York State Legislature passed Desha's Law, which requires schools to develop and implement Cardiac Emergency Response Plans (CERPs) to address sudden cardiac arrest incidents at any school site owned or operated by the District and at the location of any school-sponsored event, including athletic events. In accordance with this law, CERPs have been developed and are incorporated into each confidential Building-Level Emergency Response Plan.

The District ensures that these plans provide for the recognition of sudden cardiac arrest and similar life-threatening health emergencies, the use and accessibility of automated external defibrillators (AEDs), coordination with local emergency medical services, response at school-sponsored events including athletic activities, and staff training aligned with nationally recognized, evidence-based guidance such as that of the American Heart Association.

The Assistant Superintendent for Business, Facilities, and Operations will serve as the District's Chief Emergency Officer (CEO)¹⁰ whose duties shall include, but not be limited to:

1. Coordination of the communication between school staff, law enforcement, and other first responders;¹¹
2. Leading the efforts of the district-wide school safety team in the completion and yearly update of the district-wide school safety plan and the coordination of the district-wide plan with the building-level emergency response plans;¹²

4. Ensuring the completion and yearly update of building-level emergency response plans for each school building¹⁴ The CEO will require each building principal to maintain a Building-level Emergency Response Plan in compliance with Commissioner of Education Regulation 155.17(2). Each plan should be updated annually with the assistance of the Building Emergency Response Team(BERT). The plan shall provide for lockdown, secure lockout, sheltering, evacuation, early dismissal, fire and other emergency planning, including Sudden Cardiac Arrest, and notification (when necessary) to students and staff, annual drills and exercises, and coordination with local and county emergency preparedness administrators. These plans shall be submitted to the District's Safety Team for annual approval and incorporation into the overall District-wide Safety and Emergency Management Plan.
5. Assisting in the selection of security related technology and development of procedures for the use of such technology;¹⁵
6. Coordination of appropriate safety, security, and emergency training for district and school staff, including required training in the district-wide school safety plan and building-level emergency response plan;¹⁶

CONCEPTS OF OPERATION

1. The District-wide School Safety and Emergency Management Plan will be directly linked to individual Building-level Emergency Response Plans for each school. Protocols developed in the District-wide School Safety and Emergency Management Plan will guide the development and implementation of Building-level Emergency Response Plans.
2. All District building plans have been standardized to the extent possible so that leadership decisions are consistent and leaders may be interchangeable as necessary. The training and expectations set at the district level are applicable to all building team members.
3. In the event of an emergency or violent incident, the initial response at an individual school will be by the Building-level Emergency Response Planning Team.
4. Once the Superintendent and/or their designee are notified, the District Emergency Response Team may be mobilized to respond, and when appropriate, local emergency officials will be notified. All will follow the emergency management protocols and practices outlined in the National Incident Management System (NIMS) and will practice Incident Command System (ICS) techniques to better manage these events.

Such written contract or memorandum of understanding shall be incorporated into and published as part of the district safety plan.

10. In compliance with recent legislation that established a plan to address extreme heat conditions, the district has developed a **Maximum Temperature in Schools Annex**. These plans include monitoring room temperatures, implementing heat mitigation strategies, and relocating students and staff when practicable. In the event of a heat emergency, the district will activate the protocols outlined in the Building-level Emergency Response Plans. The district will also address medical needs, transportation, and the emergency notification of parents and guardians as outlined in the Building-level Emergency Response Plans.

The District continually investigates other security measures and conducts staff development training to ensure schools are as safe as possible. Security measures include:

- a. Security personnel
- b. Surveillance cameras
- c. Access Control Systems
- d. Portable Radios
- e. Alarm Systems
- f. Single or limited points of entry

IMPROVING COMMUNICATION WITH STUDENTS

Each of the schools within the district provides a wealth of school safety-related initiatives aimed at improving communication among students, between students and staff, and between administration and parents or persons in parental relation.³² These programs may include the establishment of youth-run programs, creating a forum or designating a mentor for students, peer mediation, bullying prevention, conflict resolution, social skills development, managing emotions and components of character education. Students are involved in a wide variety of safety activities through both their classes as well as through work with school counselors, social workers, and school psychologists. By October 1st of each school year, the superintendent and chief school administrator have provided written information to all students and staff about emergency procedures.³³

Each building has established a mechanism for the anonymous reporting of school violence and harassment and has communicated this to students and parents.³⁴

³²155.17(c)(1)(xvi) strategies for improving communication among students, between students and staff and between administration and parents or persons in parental relation regarding reporting of potentially violent incidents, such as the establishment of youth-run programs, peer mediation, conflict resolution, creating a forum or designating a mentor for students concerned with bullying or violence and establishing anonymous reporting mechanisms for school violence;

³³155.17(g) Instruction. Each public school superintendent and each chief school administrator of an educational agency other than a public school shall take action to provide written information, by October 1st of each school year, to all students and staff about emergency procedures.

³⁴155.17(c)(1)(xvi) strategies for improving communication among students, between students and staff and between administration and parents or persons in parental relation regarding reporting of potentially violent incidents, such as the establishment of youth-run programs, peer mediation, conflict resolution, creating a forum or designating a mentor for students concerned with bullying or violence and establishing anonymous reporting mechanisms for school violence;

The school district’s Code of Conduct is accessible to parents and students and reviewed with all students in the beginning of the school year. During the review with students, bullying, discrimination, harassment and violations of the Code of Conduct, along with consequences, are discussed.

All staff members are trained in recognizing and effectively dealing with these behaviors, as outlined in the Code of Conduct.

In addition, each school has a wide range of programs and supports that impact school safety. These may include offering a variety of clubs, classroom lessons, small group lessons and/or individual counseling sessions, school-wide meetings, morning meetings in classrooms, assemblies, mindfulness rooms, yoga and movement breaks, and a variety of wellness opportunities.

REPORTING THREATS OR ACTS OF VIOLENCE

Students, staff, parents and others are informed annually about the importance of reporting threats or acts of violence and the procedures of reporting.

The District has developed a system for reporting threats and actual acts of violence. The procedure for reporting is as follows:

- Students are instructed to report threats and acts of violence to staff members.
- Each school has designated a reporting process, which can be done anonymously.
- Staff members are required to report all student referrals to the administration for investigation.
- Staff training programs meet S.A.V.E. requirements. Instruction on issues of school safety is provided to all employees each year.

TRAINING, DRILLS AND EXERCISES

Drills and Exercises:³⁵

Required Drills

Evacuation (Evacuate) Drills: Eight (8) evacuation (evacuate) drills will be conducted each year, with six (6) completed between September 1 and December 31. Four (4) of these drills must involve the use of fire escapes on buildings where fire escapes are provided or other secondary means of egress such as different corridors, hallways, stairways, and exit doors.^{41 42} Students will be instructed in the procedure to be followed in the event that a fire occurs during the lunch period or assembly. This instruction may be waived if a drill is held during the regular school lunch period or assembly⁴³

Lockdown Drills: Four (4) lockdown drills will be conducted annually, with two (2) completed between September 1 and December 31.

Emergency Dismissal Drill: One (1) emergency dismissal drill will be conducted to test early dismissal procedures, occurring no more than 15 minutes before the normal dismissal time. Parents will be

notified of these drills at least one week prior. Transportation Officials and District staff may also take place in conducting an evaluation of this drill. This drill also allows the District to test the usefulness of the communications and transportation system during emergencies.⁴⁴

Additional Evacuation (Evacuate) Drill Requirements

Summer School: At least two (2) additional drills are required in buildings used for summer school, with one (1) drill held during the first week.

After-School Programs, Events, and Performances: For after-school programs, events or performances conducted within a school building that include persons who do not regularly attend classes in the building, the principal or other person in charge of the building must require the teacher or person in charge of the after-school program, event or performance notify attendees of the procedures to be followed in an emergency.⁴⁵

Before- and After-School Safety Planning: Consistent with guidance from the New York State Education Department, the District's emergency response planning applies to school buildings and grounds during before-school and after-school programs, extracurricular activities, and school-sponsored events. Safety planning for these periods considers differences in supervision, staffing, student movement, and building use that may occur outside of regular instructional hours. Procedures address communication, student accountability, coordination with transportation, and coordination with emergency responders, as appropriate. Detailed, site-specific procedures for before- and after-school activities are maintained within each school's confidential Building-Level Emergency Response Plan and are implemented in coordination with designated staff and program leaders.

Optional Drills

Shelter-in-Place/Shelter and/or Secure Lockout Drills: While not required, each school in the District may conduct Shelter-in-Place/Shelter and/or Secure Lockout drills in addition to those drills required by New York State regulation. The appropriate Police Department may, upon mutual agreement with the District, participate in some or all of the drills and offer feedback regarding the effectiveness of these drills.

Full Scale Exercises: The district may opt to conduct functional exercises with emergency response agencies to involve staff, students and parents in realistic drills. Exercises that include props, actors, simulations, or other tactics intended to mimic a school shooting or other act of violence or emergency may not be conducted on a regular school day and when school activities such as athletics are occurring

⁴⁴ 155.17(h)(3) Emergency Dismissal drills shall test the usefulness of the communications and transportation system during emergencies.

⁴⁵ 807.1-a for after-school programs, events or performances conducted within a school building and include persons who do not regularly attend classes in the building, the principal or other person in charge of the building must require the teacher or person in charge of the after-school program, event or performance notify attendees of the procedures to be followed in an emergency.

on school grounds. Such exercises may not include students without written consent from parents or persons in parental relation.⁴⁶

The district does not plan to conduct functional exercises with emergency response agencies that involve staff, students, and parents in drills using props, actors, simulations, or other tactics intended to mimic a school shooting or other act of violence or emergency. If this policy were to change in the future, any such exercises would not be conducted on a regular school day or when school activities such as athletics are occurring on school grounds. Additionally, no students would participate in these exercises without written consent from parents or persons in parental relation.

Procedures for obtaining written consent for students to participate in full-scale exercises from parents or persons in parental relation will include:⁴⁷

1. Distribution of Consent Forms:

- Consent forms will be distributed to parents through the following methods:
 - **Mail:** Consent forms will be sent to parents' home addresses.
 - **Home with Students:** Students will bring consent forms home in their backpacks.
 - **Email:** Electronic consent forms will be sent to parents' registered email addresses.
 - **School Newsletter:** A detachable consent form will be included in the monthly school newsletter.
 - **Parent Portal:** Consent forms will be available on the school's parent portal.

2. Content of Consent Forms:

- The consent form will include:
 - A detailed description of the full-scale exercise, including date, time, and activities involved.
 - Potential risks and safety measures in place.
 - Instructions for completing and returning the form.

3. Return of Consent Forms:

- Parents can return signed consent forms through the following methods:
 - **Mail:** Forms can be mailed back to the school.
 - **Home with Students:** Students can return forms to their homeroom teachers.
 - **Email:** Scanned copies of signed forms can be emailed to the designated school email address.
 - **Parent Portal:** Digital consent forms can be submitted through the parent portal.

4. Follow-Up and Reminders:

⁴⁶155.17(c)(1)(xiv)(4) Schools and districts that opt to participate in full-scale exercises in conjunction with local and county emergency responders and preparedness officials that include props, actors, simulations, or other tactics intended to mimic a school shooting or other act of violence or emergency shall not conduct such exercises on a regular school day or when school activities such as athletics are occurring on school grounds. Such exercises may not include students without written consent from parents or persons in parental relation.

⁴⁷ 155.17(c)(1)(xiv)(4) ... Such exercises may not include students without written consent from parents or persons in parental relations.

- The school will send reminders via email, text messages, and phone calls to ensure that all parents submit the consent forms in a timely manner.
5. **Record Keeping:**
- The school will maintain a digital record of all returned consent forms. This record will be securely stored and accessible to authorized school personnel.

Training and Review Processes

Training for Students: Prior to the first annual drill, staff shall review emergency response procedures and drill requirements with students during class time, providing an opportunity for students to ask questions about any unclear procedures.

Age-appropriate student instruction shall also include awareness of Sudden Cardiac Arrest, including how to recognize a medical emergency, the importance of promptly notifying an adult, awareness of where automated external defibrillators (AEDs) are located within the building, and an understanding of which staff members are authorized to use AEDs.

Building-level Emergency Response Planning Team and District Administration Team Training: Each Building-level Emergency Response Planning Team and representatives of the District administration engage in tabletop exercises facilitated by the district’s emergency management consultant. Emergency response agencies are encouraged to participate in these exercises.⁴⁸

Drill Review and Protocol Updates: In addition to post-drill debriefings conducted by each building-level emergency response planning team, each building will complete a drill evaluation form that will be submitted to the district-wide safety team for periodic review, which includes observations from the drill as well as any additional feedback obtained from building personnel. Changes to procedures are made as needed. The district-wide safety team should evaluate communications and transportation systems during emergencies.⁴⁹

Local Emergency Responder Involvement: The appropriate Fire and Police Departments may, upon mutual agreement with the District, participate in some or all evacuation and lockdown drills, offering feedback on the effectiveness of building evacuation during a fire and the overall effectiveness of lockdown procedures.

Sudden Cardiac Arrest: Annual training provided to staff shall include how to recognize sudden cardiac arrest or similar life threatening health emergencies and the specific procedures outlined in the cardiac-emergency response plan, in alignment with state law and nationally recognized evidence-based practices such as those recommended by the American Heart Association.

Special Provisions

⁴⁸ 155.17(c)(1)(xiv)(3) Tabletop exercises may be utilized by school and district safety teams as a training resource and may include a discussion-based activity for staff in an informal classroom or meeting-type setting to discuss their roles during an emergency and their responses to a sample emergency situation.

⁴⁹ 155.17(h)(3) Emergency drills shall test the usefulness of the communications and transportation system during emergencies.

Building Occupants with Special Needs: Prior to the commencement of each school year, the Building-Level Emergency Response Planning Team shall conduct an inventory of any special needs students. Appropriate accommodations for the school year will be incorporated into each Building-Level Emergency Response Plan.

Access and Functional Needs: Building-specific procedures addressing the access and functional needs of students, staff, and visitors are maintained in each school’s confidential Building-Level Emergency Response Plan. These procedures are integrated into the applicable emergency response annexes and address considerations such as mobility limitations, medical needs, medication access, medical equipment, service animals, personal assistance requirements, and other access or functional needs that may impact response actions during evacuation, shelter-in-place, hold-in-place, secure lockout, lockdown, and other emergency conditions. Such procedures are developed, reviewed, and updated by the Building-Level Emergency Response Team in accordance with Commissioner’s Regulation §155.17, district policy, and applicable privacy and civil rights requirements.

Communication

Staff Information: Information about drills will be included in the teacher’s manual or handbook as mandated by Education Law §807.2.

A summary of drill procedures are detailed in each of the Building-Level Emergency Response Plans.

STAFF DEVELOPMENT TRAINING:

All general staff shall receive training on District-wide procedures as well as specific procedures contained within their respective Building-Level Emergency Response Plan. Beginning in the 2025–2026 school year, this training shall also include components of Sudden Cardiac Arrest, including how to recognize the signs of Sudden Cardiac Arrest, initiate appropriate emergency response actions, and understand the location of automated external defibrillators (AEDs), consistent with Education Law §2801-a(2), as amended by Chapter 189 of the Laws of 2025. This training shall occur prior to September 15 of each school year or within 30 days of joining the District and may be conducted during a staff development day in August, online, or through a combination of both.⁵⁰

The District will provide advanced training for each Building-level Emergency Response Planning Team and District-wide Safety Team annually. Effective July 1, 2025, the training will include a description of the roles and responsibilities of the Building-level Emergency Response Planning Team, the building-level

PROACTIVE BUILDING SECURITY MEASURES

1. The District buildings use limited points of entry. All doors are locked. Signs are in place directing visitors to sign-in at the reception desk at each school. Main doors are controlled by remote “buzzer” entry during normal school hours.
2. All schools have greeters or office staff members just inside the entrance to each school in the District. These individuals ensure visitor sign-in procedures and help supervise building traffic flow. The building principals are responsible for supervision of the greeters and other staff.
3. Staff members are required to wear visible identification badges.
4. Visitors are required to sign in and wear visitor identification.
5. Visitor access is limited to specific areas of the school building
6. SUBJECT: VISITORS TO THE SCHOOL
Community Relations - 3210R

Starting in January 2023 the Ardsley School District will not permit food & beverage deliveries on campus. This expectation refers to ALL delivery services (e.g., Uber Eats, GrubHub, DoorDash, & local businesses) and applies to both students and staff. An exception to the above would require prior approval from Central Office administration, or the building principal or designee.

⁵¹155.17(2)(xiii) <https://www.regents.nysed.gov/sites/regents/files/424p12d2.pdf>

Close communication and supportive relationships between parents or guardians and schools are essential to increasing student achievement and enhancing school climate. The District supports these efforts through effective and appropriate visitations to schools and to classrooms by parents or guardians, community members, and other appropriate individuals, subject to the following guidelines:

- 1) Parents or guardians may request a visit to their child's classroom(s) through the building principal, at which time the purpose of the visit will be established. The date and time of the visit will be mutually agreed upon directly between the parent or guardian and the teacher. The building principal will be notified, in advance, of the arrangements which have been agreed upon for the visit.
- 2) Teachers may request that a parent or guardian visit the classroom by directly contacting the parent or guardian and establishing a mutually agreed upon time and date. The building principal will be notified of the visit, in advance.
- 3) Visitations by individuals other than parents or guardians must be arranged directly between the building principal and the individual making the request. The purpose of the visit will be made clear at that time in order to facilitate appropriate arrangements.
- 4) Visitation will occur in a way that avoids or minimizes disruption to the normal learning process and the ordinary classroom routine. The building principal may be present when appropriate. Visitors must maintain confidentiality regarding information which they acquire during the course of the visit as explained to the visitor by the building principal. Further, visitors must comply with the District's Code of Conduct.
- 5) Individuals visiting the schools must go directly to the Security Desk of the building which they are planning to visit, and follow the specific visitor procedures prescribed by that building.
- 6) If a staff member notices that a visitor does not report to the Security Desk upon entering the building, he or she should report that occurrence to the building principal or designee.
- 7) Before a child may be taken from the building by a non-school person, the visitor must be recognized by the building principal or designee as one having the legal right to take the child. The visitor will wait at the Security Desk for the child to come from the classroom and/or follow other duly approved procedures for that building.
- 8) Signs will be posted throughout the school building directing visitors to report to the Security Desk.

VITAL EDUCATIONAL INFORMATION⁵²

Information on each building's student and staff, transportation needs, and the telephone numbers of key officials are outlined in each Building-level Emergency Response Plan. The purpose of including such information in the Building-level plan is to ensure coordination or coverage in the event of a serious incident.

EARLY DETECTION OF POTENTIALLY DANGEROUS BEHAVIOR⁵³

This section contains the District policy and procedure for disseminating information regarding early detection of potentially dangerous behavior.

1. A "plain language" summary of the District's Code of Conduct is provided to all students in the District at the start of every school year to ensure that all students understand acceptable behavior in the school setting. The Code of Conduct delineates, among other behavior, lack of tolerance for harassment, discrimination, bullying and violence.
2. A "plain language" summary of the District's Code of Conduct is mailed or emailed to all parents/guardians of students in the District at the start of each school year, and is disseminated at the time of registration thereafter.
3. All new employees will be provided with a copy of the Code of Conduct at the time of hire. All teachers and other staff members will be provided with a copy of the Code of Conduct annually.
4. Efforts are made on the building level in each of the District's schools to identify, prevent, and resolve potentially dangerous behavior at the earliest possible stage. Teams meet regularly in each building in order to work with classroom staff in identifying and preventing potentially dangerous behavior. School counselors, school psychologists, school social workers, nurses, outside agencies (when appropriate), administrators, teachers, bus drivers and monitors, parents/guardians and students may be involved in this process.
5. District students at all grade levels participate in instruction guided by evidence-based violence prevention/intervention programs. Elements of these programs support students in identifying potentially violent or problematic situations with peers and in developing strategies to address these such as reporting to an adult.

⁵² 155.17(2)(ix) Except in a school district in a city having a population of more than one million inhabitants, the chief executive officer of each educational agency located within a public school district shall provide to the superintendent of schools information about school population, number of staff, transportation needs and the business and home telephone numbers of key officials of such educational agencies.

⁵³ 155.17(c)(1)(xii) policies and procedures for the dissemination of informative materials regarding the early detection of potentially violent behaviors, including but not limited to the identification of family, community, and environmental factors to teachers, administrators, school personnel including bus drivers and monitors, parents [and] or other persons in parental relation to students of the school district or board, students and other persons deemed appropriate to receive such information;

6. Secondary health curricula incorporate information regarding emotional health, the impact of drugs and alcohol on an individual's behavior, and on responsible decision-making.
7. Each of the District's school psychologists/social workers may facilitate counseling groups for identified students around issues related to poor social skills development, managing emotions, and good decision-making.
8. Certified and noncertified staff members working with students who have been identified by the Committee on Special Education as being at-risk for engaging in violent behaviors receive annual training in crisis prevention and intervention.
9. The District may work in collaboration with building-level and District-wide PTAs to offer parents/guardians information regarding early-warning signs of potentially dangerous and/or violent behavior, as well as a forum to discuss specific parental concerns.

SCHOOL SAFETY PERSONNEL ALLOCATIONS, HIRING, DUTIES, AND TRAINING⁵⁴

Private Security and School Resource Officers

This plan includes contracts or memoranda of understanding that define the relationship between the district, personnel, students, visitors, law enforcement, and public or private security personnel. These contracts or memoranda are consistent with the Code of Conduct, and define the roles, responsibilities, and involvement in the schools of law enforcement or security personnel. The role of school discipline is delegated to school administration.

District Memorandum(s) of Understanding related to this section are maintained in the District office.

Allocations

At all three (3) educational buildings within the district, there is a single point of entry for visitors and visitors to the school must be buzzed into the building, sign in and receive an identification badge issued by a safety greeter or security guard. Staff in the buildings, at all times, must wear and be visible, district-produced identification badges. Staff members are trained to report to security, building administrators or other persons of authority, any person they observe who is not wearing a badge, and

who is not known to them.

Hiring

The interviewing and hiring of safety personnel follows the district's practices for hiring of new staff. All new staff employed by the District must be fingerprinted in order to be employed.

Duties and Training

Greeters/School Security Monitors

- contracted personnel at each of the educational buildings within the district
- all greeters are former military or law enforcement, when possible
- buildings are staffed during regular school hours
- primarily responsible for enforcement of the visitor protocols

- staffed during regular school hours as well as for special events in the evening and on weekends

Required training includes:

- School violence prevention and intervention training
- Site-specific training including review of all manuals (e.g., school district policies, Code of Conduct, District-wide School Safety Plan, School Handbook, etc).
- Right-to-know training
- Blood borne pathogen training

SECTION III RESPONSE

NOTIFICATION AND ACTIVATION - INTERNAL AND EXTERNAL COMMUNICATIONS

Internal

After receiving the information from the Incident Commander at the scene, an email will be sent from the Superintendent's office to all administrators and administrative offices alerting them to the nature and status of any incident in the district. The mass communication system may be used to provide information as deemed appropriate by the Incident Commander. Portable radios will also be used when possible.

External

Anyone with knowledge of an emergency event is encouraged to immediately call 911.

The District's mass communication system will be used to provide information to parents/guardians and emergency contacts. The District website may also be used to provide updated information throughout an incident as deemed appropriate by the Incident Commander. Schools may also use their websites, groups, and hotlines for announcements or updates as directed by the Incident Commander.

When an emergency requires notification of staff, the Superintendent or his designee will provide updated information to parents and students through the emergency notification system. Additional information may also be found on the District's website: <https://www.ardsleyschools.org/>

During an emergency, all contact with the media will be handled either by the Superintendent or their designee. The media and public will be informed and updated as soon as practicable on all developments in statements released by the Superintendent or their designee. Students, staff and parents should refer all questions and requests for information to the Superintendent in order to assure the release of factual and current information. The Superintendent may refer such requests to the Public Information Officer for response.

By definition, emergency events are unforeseen and unpredictable. The safety of students and staff is the primary focus of all activities surrounding an emergency event. Every effort will be made to contact parents and the general public once the situation has stabilized.

SITUATIONAL RESPONSES

MULTI-HAZARD RESPONSE

In the event of an emergency, a Command Center will be set up at a safe location in collaboration with emergency responders. Each building has specific plans for dealing with a wide range of hazards. Specific response procedures are sensitive in nature and therefore are contained within each confidential building-level emergency response plan.

In each emergency, the building's administrator will contact the District office for assistance. The District office will provide support as appropriate and deemed necessary by the Incident Commander on the scene (i.e. sending additional mental health resources). The Superintendent or their designee will be the sole contact person for releasing information to the media and for communicating the status of the emergency with other District schools, out-of-district schools, private schools, and outside agencies.⁵⁵

RESPONSES TO IMPLIED OR DIRECT THREATS OF VIOLENCE⁵⁷

1. Students are required to inform school staff about any direct or indirect threat of violence or actual act of violence to themselves, others or school property.
2. Staff members are required to immediately inform the Principal or their designee of any direct or implied threat of violence or actual act of violence by students, teachers, or other school personnel including bus drivers and monitors as well as visitors to the school, including threats by students against themselves, which shall include suicide. The Principal or their designee decides whether to utilize the building's trained clinician(s) in an effort to de-escalate or defuse the situation.
3. The district disseminates educational material, including but not limited to emails and formal brochure, encouraging parents and visitors to tell school staff about any direct or implied threat of violence or actual acts of violence by students, teachers, other school personnel and visitors to the school, including threats by students against themselves.
4. After considering the specificity/generality of the threat or severity of the violent act, the Principal or their designee will determine whether to immediately contact the Superintendent of Schools or the Assistant Superintendent to advise them of the threat, obtain assistance to determine the severity of the threat or report the violent act. The Principal will have the discretion to report minor incidents to the Superintendent verbally and/or in memorandum form after the situation has been resolved.
5. Each building has the availability of a Threat Assessment Team. This is a multi-disciplinary team that uses a nationally recognized evidence-based model to evaluate threats and implement the necessary mitigation steps to help prevent a threat from escalation to an act of violence.
6. The building administrator will investigate reported threats of violence and will make the determination of disciplinary measures consistent with the District's Code of Conduct. Chronic offenders may require a behavior plan or contract, close monitoring, and/or police involvement.

RESPONSES TO ACTS OF VIOLENCE⁵⁸

1. The Principal or their designee will determine whether to contact law enforcement personnel. **Threats or actions placing students, staff and others in imminent danger require an immediate LOCKDOWN protocol followed by a call to the police and the District Superintendent (if safe to do so).** Violent offenses defined in the S.A.V.E. regulations will also require the involvement of the police.
2. The Principal, and/or their designee then determine the appropriateness of directing the Building-level Emergency Response Team to be activated.

The Building-level Emergency Response Planning Team consisting of trained staff and school personnel may assist with an Evacuation (Evacuate), Secure Lockout, Shelter-in-Place/Shelter, Hold-in-Place/Hold, or Early Dismissal and will follow the appropriate protocol (see appendices for further information). The Incident Command System (ICS) under the National Incident Management System (NIMS) should be followed as closely as possible to ensure good coordination between the building-level teams, District leadership, and responding agencies.
4. If the threat of violence or danger is imminent, a Lockdown may be utilized. A Lockdown is time sensitive and therefore may be requested by any school staff member based on the incident and timely need for the Lockdown. During the Lockdown, all school staff, students, and visitors (including all BERT members) are required to Lockdown in the nearest lockable space and await further instruction, or in some situations, evacuate the campus.
5. Procedures for contacting parents, guardians and persons in parental relation to students in the event of a violent incident or early dismissal or emergency closure are detailed in each building-level emergency plan. The use of the District's mass communication system is typically utilized.
6. Aggressively dangerous and violent students, teachers, other school personnel, bus drivers and monitors, or visitors shall be managed as outlined by the procedures detailed in the district Code of Conduct.
7. The building administrator will investigate reported threats of violence and will make the determination of disciplinary measure consistent with the District's Code of Conduct.
8. School administrators must keep records of serious threats and acts of violence and report them annually to the state.
9. Prompt contact with appropriate law enforcement officials is essential in the event of a violent incident. These relationships have been established by participation of local response officials on Building-level Emergency Response Planning Teams. These individuals and appropriate means of contact are documented in each Building-Level Emergency Response Plan.⁵⁹
10. The district has a zero-tolerance policy for weapons, in accordance with federal and state law and the District Code of Conduct, and utilizes our Restorative Practices model and philosophy to respond to other acts of school violence.

EMERGENCY REMOTE INSTRUCTION

OVERVIEW

The District may offer remote instruction days to students in the event-of-an-emergency condition, including, but not limited to, extraordinary adverse weather conditions, impairment of heating facilities, insufficiency of water supply, shortage of fuel, destruction of a school building, or a communicable disease outbreak.

When making decisions about remote instruction, the District will consult with students, parents, teachers, administrators, community members, and other stakeholders as appropriate. When implementing remote instruction, the District will ensure that it is complying with applicable teaching and learning requirements.

DEFINITIONS

- A. "Asynchronous instruction" means instruction where students engage in learning without the direct presence (remote or in-person) of a teacher.
- B. "Non-digital and/or audio-based instruction" means instruction accessed synchronously and/or asynchronously through paper-based materials where the student to teacher interaction occurs via telephone or other audio platforms.
- C. "Remote instruction" means instruction provided by an appropriately certified teacher who is not in the same in-person physical location as the student(s) receiving the instruction, where there is regular and substantive daily interaction between the student and teacher.
 1. Remote instruction will encompass synchronous instruction provided through digital video- based technology and may also include asynchronous instruction intended to complement synchronous instruction. Digital video-based technology includes online

- technology and videoconferencing technology.
2. Remote instruction may encompass non-digital and audio-based asynchronous and/or synchronous instruction where this instruction is more appropriate for a student's educational needs.
- D. "Synchronous instruction" means instruction where students engage in learning in the direct presence (remote or in-person) of a teacher in real time.

FORMATS AND METHODS OF REMOTE INSTRUCTION

Remote instruction may be delivered through a variety of formats and methods. Determinations about how to best deliver remote instruction will take into account a variety of factors including, but not limited to, the number of students involved, the subject matter, the students' grade levels, and technological resources of both the District and students. Consideration will also be given to whether accommodations need to be made for students with disabilities or English language learners. Each school's Building-level Emergency Response Plan will contain this confidential information in the Continuity of Instruction Plan (COIP) section.

INSTRUCTIONAL OPTIONS

The District may engage students in synchronous and asynchronous learning on days of remote instruction under emergency conditions with an expectation that asynchronous instruction is supplementary to synchronous instruction. When remote instruction by digital technology is unavailable, appropriate special accommodations for students will be made to aid their learning.

COMPUTER AND CONNECTIVITY ACCESS FOR STUDENTS

The District will ensure that students have the necessary equipment at home to participate in remote instruction.⁶² No later than June 30th of each school year, the Superintendent will report to the Commissioner of Education the results of the survey on student access to computing devices and access to Internet connectivity on a form and format prescribed by the Commissioner.⁶³ The information received from the survey will aid in the development/updates to the detailed Continuity of Instruction Plan in each school's Building-level Emergency Response Plan.

MINIMUM INSTRUCTIONAL HOURS

Remote instruction provided on days when the District would have otherwise closed due to an emergency condition may be counted toward the annual hourly requirement for the purpose of state aid. The Superintendent will certify to the New York State Education Department, on a form prescribed by the Commissioner, that an emergency condition existed on a previously scheduled school day and that the District was in session and provided remote instruction on that day and indicate how many instructional hours were provided on that day and certify that remote instruction was provided in accordance with the District's emergency remote instruction plan.

⁶² 155.17(xxi)(a) ensure computing devices will be made available to students

⁶³ 155.17(f)(2) Beginning in the 2022-2023 school year, each chief executive officer shall report to the Commissioner, no later than June 30 of each school year, on a form and format prescribed by the Commissioner, the results of the survey on student access to computing devices and access to internet connectivity

REMOTE INSTRUCTION SUPPORT

As necessary, the District will provide instruction on using remote instruction technology and IT support for students, teachers, and families. The District will also work to ensure that teachers and administrators are provided with professional development opportunities related to designing an effective remote instruction experience.

COMPLIANCE WITH DISTRICT POLICIES, PROCEDURES, AND THE CODE OF CONDUCT

Teachers and students are required to comply with any and all applicable District policies, procedures, and other related documents as they normally would for in-person instruction. Examples include, but are not limited to, the District's policies and procedures on non-discrimination and anti-harassment, acceptable use, and copyright. Students will also be required to abide by the rules contained within the *Code of Conduct* at all times while engaged in remote instruction. Violations of the *Code of Conduct* and/or engaging in prohibited conduct may result in disciplinary action as warranted.

PRIVACY AND SECURITY OF STUDENT AND TEACHER DATA

The District will take measures to protect the personally identifiable information of students and teachers from unauthorized disclosure or access when using remote instruction technologies in compliance with law, regulation, and District policy. Examples of these measures include, but are not limited to, minimizing the amount of data shared to only that which is necessary, de-identifying data, and using encryption or an equivalent technical control that renders personally identifiable information unusable, unreadable, or indecipherable to unauthorized persons when transmitted electronically.
