# PRE-NOTIFICATION DOCUMENT

Dear Parents, Guardians and School Staff of , **FREEHOLD REGIONAL HIGH**

From: IPM Coordinator: Matt Verdoni Phone: 732-539-9734

New Jersey State Regulation requires that the information contained in this letter be given to you, in regards to School Integrated Pest Management Policy.

On the following date: MAY 16 has scheduled a pest control application to the outside grounds. The reason for the application of pest control products is to control fertilize fields.

The specific location(s) are as follows: ATHLETIC FIELDS

Pesticides are only applied when they are necessary to maintain or protect the health of the school property and reduce risks of injury. Sanitation, as well as physical and biological control measures, should be considered as a part of a good integrated pest management program. Pesticides may be used as another part of a good pest control program. Pesticides are chemical substances used to control living organisms and vary in degree of toxicity. The United States Environmental Protection Agency (EPA) and the New Jersey Department of Environmental Protection (DEP) register pesticides to determine that the use of a pesticide in accordance with instructions printed on the label does not pose an unreasonable risk to human health and the environment. Nevertheless, the EPA and DEP cannot guarantee that registered pesticides do not pose any risk to human health, thus unnecessary exposure to pesticides should be avoided. The EPA has issued the statement that where possible, persons who are potentially sensitive, such as pregnant women, infants and children, should avoid unnecessary pesticide exposure."

All treated areas will be posted 72 hours prior to any pest control applications to the outside grounds. This is an informative posting and contains similar information to this letter. Posting signs will remain on the premises 72 hours after the application. There shall be a 7- hour reentry period, in which all persons shall remain off the treated areas.

## Products To Be Applied:

PRODUCT NAME	EPA REGISTRATION # (S)	PRECAUTION STATEMENT
<b>BARRICADE</b>	<b>100-1139</b>	
<b>ESCALADE</b>	<b>228-442</b>
