Calcium screenings catch problems before they become life-threatening. This non-invasive screening checks for calcium buildup in the arteries and heart, which could indicate risk of heart attack.

To help keep your heart healthy, Mercy's offering a special deal:

\$50 Calcium Screenings*

Screenings are a simple CT scan of your heart.

For more information and to register, visit mercy.net/YourHeart and select the location closest to you.

Recommended for people 45+ with one or more risk factors such as family history of heart disease, high blood pressure, high cholesterol, smoking, peripheral vascular disease, more than ideal body weight, and/or diabetes.

** Screenings are not covered by health insurance, and payment is due at the time of service.*

Mercy Primary Care Providers Make Staying Healthy Easier

[Primary Care](#) | [Family & Internal Medicine Services](#) | [Mercy](#)

Mercy Primary Care Providers Make Staying Healthy Easier

Having a Mercy primary care provider is the first step to simplifying your health care.

Your provider can:

- Manage your medications
- Keep a close eye on your health with annual checkups
- Keep your vaccinations and immunizations up to date
- Care for minor illnesses and injuries
- Help you manage chronic conditions like diabetes and high blood pressure
- Refer you to a specialist when needed
- Offer **Mercy on Call**
 - Connects you with your Mercy care team 24/7
 - When you call your primary care office during business hours, a full primary care team will address your questions and concerns
 - After clinic hours, Mercy on Call will be there for you with registered nurses, advanced practitioners and an emergency medicine physician to help determine your best option for care

Mercy Technology Simplifies Your Health Care

As a Mercy patient, you have access to:

- Your Mercy electronic health record - connecting your entire Mercy care team, including your doctor, Urgent Care, the ER and specialists
- Our **MyMercy** app - making it easy to:
 - request prescription refills and track medications
 - schedule Mercy doctor appointments
 - view Mercy test and lab results
 - communicate with your Mercy care team
 - check in and complete paperwork online prior to your appointment
- Convenient **virtual doctor visits**
- **Mercy Express Care** - digital, text-based care for ages 3+. Answer a few questions and get a diagnosis, treatment plan and prescription, if needed

To learn more or book a primary care visit, scan this code or visit mercy.net/PrimaryPerks

Your life is our life's work.

Helping local Employers Navigate Care

Mercy Business Development Managers are here to help ease access to care by coming alongside employers and human resource departments to enhance awareness of healthcare options and mitigate barriers that could affect employee health.

Examples of how a Mercy Business Development Manager can assist:

- Help your employees navigate the Mercy Health System.
- Help resolve issues like billing and scheduling.
- Enhance your current health and wellness programming with on-site health education and resources.
- Participate in health fairs and open enrollments.
- On-site support to connect your employees to primary care providers.
- Keep you and your employees up to date on new services and specialties.

Mercy believes that accessing care should be easy, your Mercy Business Development Manager is your **local resource**.
