Solicitation of Donations to the District's General Fund

All monetary donations made to the District not designated for a scholarship fund or capital project will be deposited in the District's General Fund and used at the Board's discretion. The District typically will not earmark these donations to the District's General Fund for a certain program or use or to create a new program. Donations will be accepted from individuals, businesses, and other organizations, whether or not operated for profit. Only the District may solicit funds for the District's General Fund.

All solicitation of donations by the District must have either the approval of the Board or the approval of the Superintendent pursuant to criteria established by Administrative Regulation. Donations may be solicited in various manners as set forth in Administrative Regulation.
