Mr. Kelly celebrated 2nd grade getting UFLI support and getting to observe in other classrooms.

Review and respond to coaching comments

Approval of last meeting's minutes

Mr. Kelly motions to approve, Mrs. Sluder seconds the motion.

Old Business

Indicators to Assess-Create-Monitor

Indicators Assessed

A4.06 ALL teachers are attentive to students' emotional states, guide students in managing their emotions, and arrange for supports and interventions when necessary.(5124)

The LEA/School regularly looks at school performance data and aggregated classroom observation C2.01 data and uses that data to make decisions about school improvement and professional development needs.(5159)

Objectives Planned For

Monitor (updates made)

C2.01- 2nd and 3rd Grade have implemented new UFLI strategies, and have been able to observe other teachers and work on whole group PD and deliberate practice.

First Chapter Features- We have a few videos, and we are encouraging more teachers to add videos. This is ongoing.

Stamina- We need to continue the work of what visuals schoolwide.

Teachers are having conferences and have added using the Dibels Progress Growth tool to have targeted meetings, with new attention to higher readers.

A4.06

We have our SISP meetings, ongoing going over SEL and behavior needs.

Mrs. Sluder invited the PTA representatives to join us with their ideas and how to get staff and parents on the same page of using what we are already doing, as well as ideas they have.

What does it mean to create students centered schools and classrooms.

-The teacher recurring theme is that the behavior management is frustrating as well as parents feeling the same, so the PTA looked at what they could use to collaborate. The students are gaining skills with social thinking lessons, and they would like to focus on Universal Design for Learning and conscious Discipline. Example for Conscious Discipline- If Social thinking is looking at student social skills, how are students regulating.

The PTA proposes to pay (with their budget) to have a trainer come in over the summer. The Universal Design training would look at the lessons and the spaces we have and how can we implement this at our school. Next step would be sharing with parents at Curriculum night in October and have a whole school curriculum night and whole school workshop where we can help parents connect what is happening in the classroom to home. Universal Design is researched based and connects to our Tier 1 social emotional goals. We would ask what in the environment is creating the Unthinkabot. Starting with UDL allows the school to improve engagement and classroom functioning while building teacher confidence and trust.

Mrs. Sluder asked if anyone has anything to share- Ms. Drolet shared that nobody can make immediate decisions because it is a lot to think about needs time to digest the information before we vote on it. Next steps- grade level will go back to teams. Lynott will send out form for grade level teams to complete.

Reading Stamina- Mrs. Lynn is having students submit 30 minutes timelapse videos of them reading for prizes. 2nd grade made it to 20 minutes. Mrs. Drolet said the first graders are doing a great job building stamina.

Suggestions: Have Stamina expectations and also posters with Panda Bears not meeting expectations but with a positive spin on it.
