

Cache County School District

Policy Series 3000: Students

Policy No. 3250 P4

Emergency Administration of Glucagon

- A. A Utah Department of Health-provided form is mandatory for diabetic students to authorize glucagon administration in case of an emergency.
- B. The form must be signed by the student's parent and healthcare provider.
- C. The form certifies the prescription of glucagon for the student.
- D. The form requests identification and training of school personnel for glucagon administration.
- E. The form authorizes emergency glucagon use.
- F. School nurses will conduct initial and annual refresher training sessions for designated school personnel. Training includes:
 - 1. techniques recognizing symptoms necessitating glucagon administration;
 - 2. storage and usage protocols of glucagon; and
 - 3. procedures for contacting 911 and the parent/guardian in emergency situations.
- G. A trained employee may administer glucagon at a school to a student with a Glucagon authorization if:
 - 1. the student is exhibiting the symptoms that warrant the administration and glucagon; and
 - 2. a licensed health care provider is not immediately available.
