

Cache County School District

Policy Series 3000: Students

Policy No. 3250 P2

Student Self-Administration of Medication

Self-Administration and possession of prescription and non-prescription medications

- A. Upon completion of the necessary medication authorization forms and/or plans by both the parent/guardian and healthcare provider, students from PreK-12 are permitted to carry and self-administer specific medications including:
 - 1. asthma medications;
 - 2. allergy medications (including epinephrine); and
 - 3. diabetes medications (including insulin, glucagon).
- B. Except for what is provided in “A” students in preschool through grade 6 may not possess or self-administer any other medications.
- C. In addition to “A” Students in grades 7 through 12 may possess and self-administer medication under the following conditions:
 - 1. The student’s parent/guardian and licensed health care provider sign the appropriate CCSD Medication Authorization form.
 - 2. The student may only carry one day’s dosage of medication, excluding controlled substances; and
 - 3. The student has the requisite maturity and competency to reasonably be expected to appropriately administer the medication on his/her own.
 - 4. Any misuse of such medication by the student may be subject to disciplinary action under district policy, [Conduct: Student Discipline](#). Medication self administration privileges will be withdrawn.

Self-Administration of Sunscreen

- A. Students in preschool through grades 12 may possess and self-apply FDA-regulated sunscreen without parent or physician authorization.
