

Cache County School District

Policy Series 3000: Students

Policy No. 3150

Threat Assessment

The primary goals of threat assessment are to prevent violence and resolve conflicts or problems that influence threatening behavior. School threat assessment guidelines allow a multi-disciplinary team to distinguish non-serious threats (transient) from serious (substantive) and very serious (substantive) threats and to resolve threats appropriately. A multi-disciplinary team uses an evidence-based school threat assessment process consistent with Utah State Board of Education (USBE) Rules [R277-400](#) and [R277-736](#) to identify, assess, and manage threats and prevent behaviors or conflicts from escalating into violence. The Board directs the Superintendent to develop and implement threat assessment procedures consistent with this policy.
