

Cache County School District

Policy Series 4000: Curriculum, Assessment, and Instruction

Policy No. 4220

Sensitive Materials

The Board of Education is committed to prioritizing the safety and rights of students regarding instructional materials, in full compliance with state and federal laws. This policy is designed to protect students from the harmful effects of illicit materials, particularly pornography. Instructional materials identified as objective sensitive materials or subjective sensitive materials, as defined in 53G-10-103, are prohibited from all school settings.

The Board directs the Superintendent and district administrators to establish detailed procedures to ensure the effective implementation and monitoring of this policy. These procedures must ensure compliance with all legal requirements and prioritize the safety and rights of students in all instructional settings.

General Provisions

Employees of the district are prohibited from exposing students to sensitive materials. Employees shall prioritize protecting children from the harmful effects of illicit pornography over other considerations in selecting and evaluating instructional materials.
