

Cache County School District

Policy Series 6000: Finance and Operations

Policy No. 6430

Naming of Facilities

It is the desire of the Board of Education that each new building or other facility within the District is given a name that lends dignity and status to the school or facility. The Board of Education reserves the right to name all new buildings that are constructed or purchased. This will be accomplished after community and patron input and by submission of names to consider by the Board of Education. It is the policy of the Board of Education that school buildings will not be named after a city or town within Cache County. The name for any new facility must be approved by the Board of Education.

When a school or district facility is nearing completion, the administrator responsible for the new facility will be in charge of recommending names for the Board of Education to consider. The site administrator will accept name proposals from community members, district personnel and other patrons to take to the Board of Education for final approval. When the site administrator is ready to present proposed names, he/she will request to be placed on the next available Board of Education agenda to have the matter discussed/approved in a public meeting.
