

A WORLD OF LEARNING, ON YOUR SCHEDULE

Anytime Learning in an Asynchronous Environment

Starting in the 2026–2027 school year, Charlotte Mecklenburg Virtual School will introduce ATLAS, a flexible virtual learning option for grades 9–12, perfect for families seeking a homeschool-friendly or independently paced option with the benefits of an accredited public school.

ATLAS is designed for independent learners who thrive with choice and control, offering a structured yet customizable experience that compliments traditional homeschool programs. All courses are designed and led by real, certified teachers, not computer software, ensuring a high-quality, personalized learning experience. Last year, CMVS earned a B rating, reflecting our commitment to excellence.

Why ATLAS?

Learn anytime, anywhere

Certified, real teachers

No live class required but available for support

Free, accredited public school program

Weekly deadlines for structure and flexibility

Not a software platform

Who is a good fit?

- Ability to work independently
- Strong time management skills
- Consistent access to a reliable internet
- Guardian supports virtual learning format
- Take all Benchmarks and required State and Federal Tests in person at CMVS on their assigned testing date.
