

TK-5 Mathematical Fluency

LEADER INSTITUTE

Build and sustain a cohesive
TK–5 mathematical fluency system
aligned to the California Math Framework
making fluency consistent across classrooms

Leaders will leave prepared to:

- Design a ***TK-5 math fluency vision*** with actionable steps
- Strengthen ***horizontal and vertical coherence*** through shared fluency routines, language, and learning progressions
- Guide ***Tier 1 fluency instruction*** that builds students' math fact fluency so that students, themselves, rebuild it if it fades

*Developing students' mathematical fluency is a
system's problem of practice...
not a grade level's or individual teacher's.*
