

Math Fact Fluency

TEACHER MINI-LAB

Learn progressions
and implement routines that
grow students' math fact fluency for the
long term, so students, themselves,
rebuild it if it fades

Session 1: *Learn, Rehearse, Plan*

- CMF-aligned foundations of math fact fluency
- High-leverage routines that build *accuracy, flexibility, efficiency*
- Plan for immediate classroom use

Between Sessions: *Put into action*

- Try activities with students and collect classroom artifacts

Session 2: *Reflect, Strengthen, Expand*

- Use artifacts to highlight and adapt to student learning
- Build alignment in math fact fluency instruction with your grade band colleagues

Questions?

Craig Schneider • cschneider@sbceo.org

AUDIENCE

General and special education teachers
TK-5 coaches and TOSAs
