7:02 am Call to Order: Chair – Travis Hostetter

7:03 am Review of Norms and introduction of Guest

Chairman Hostetter introduced Board President/Zone Representative Kristin McCabe as a guest at our meeting and asked her to share some updates and insight into the current state of schools for the district at both the local and state levels.

Mrs. McCabe shared that the legislative session was busy, and the board feels that the tax revenue challenges that were initially proposed, ended on a side that they feel comfortable with at this point in time. Mrs. McCabe shared that the Capital Plan is being developed and will be presented later this summer to the board.

Consolidation plan district wide is being discussed – just because schools are on a list does NOT mean they will be closed, but there will be changes that are necessary due to decline in enrollment overall. Additionally the budget is being developed, budget hearings will be in May for the public to give input and final budget vote will be in June.

Chen made the motion to approve the funds, – Cliff approved – $400 will be given to cover the costs incurred.
