

Dear Rising Grade 8 Algebra I Students,

Congratulations on taking the next step in your math journey! I am excited to welcome you to Algebra I next year and look forward to working with you.

To help you feel confident and prepared for the start of the school year, I encourage you to spend a little time this summer reviewing and practicing important math skills using Khan Academy. The lessons are interactive, engaging, and designed to strengthen the concepts you learned in Grade 7 while introducing some of the foundational ideas we will build on in Algebra I.

Spending about 60 minutes each week working through these lessons can make a big difference. Consistent practice over the summer will help you build confidence, sharpen your problem-solving skills, and start the year feeling ready for new challenges.

So grab your laptop or tablet, find a comfortable spot, and take some time this summer to keep your math skills active. Remember — growth comes through practice, and every little bit of effort adds up!

To Join Our Class:

1. Go to [Khanacademy.org/join](https://khanacademy.org/join)
2. Enter the class code and click **“Add”**
3. Class code: **C5X8S3PG**

If you do not already have a Khan Academy account:

- Click **“Create a new account”**
- Enter your date of birth
- Sign up using your school email address
- Enter your grade level and course information

Once you are set up, you are ready to begin!

I hope you have a wonderful summer filled with rest, fun, and a little bit of math practice along the way. If you have any questions, please feel free to email me at Irollins@westlakeacademy.org.

Warm regards,

Ms. Rollins
